Mr. Jas. G. Russel has been in business in Flesherton pretty nearly one year, and during that time has succeeded in working up a good business in watches, jewelery, and the other lines represented by him. Mr. Russel is an excellent practical watchmaker and jeweller and a squre dealing man besides and, therefore, well deserves the large patronage accorded him.

A Big Yield.

The best yield of barley we have heard of for a long time was that grown on the farm of our well known agriculturist, Mr. Jos. Pedler, Artemesia. In a five acre field, he had a yield this year of 35 bushels to the acre. The barley was excellent in quality, each bushel weighing well. It was purchased by Mr. W. H. Elder for our popular grain buyers, Messrs. Neilson Bros. who paid Mr. Pedler 55 cents per bushel for it. Mr. Pedler expresses himself in the highest terms as to the square dealing of Neilson Bros.

Farewell to Rev. Mr. McGregor.

A special meeting of Fountain Council, No. 147, Royal Templars of Temperance, Flesherton, met in their hall on Tuesday last, at the instant of the departure of their worthy brother and sister, McGregor. About 9 o'clock the hall was crowded, when all eat down to an elegant supper provided by members and well-wishers. After supper, songs, recitations, &c. were indulged in. The following resolution was passed unanimously:

Resolved, that we find ourselves compelled to sever our acquaintance with our esteemed brother and sister McGregor, more especially as members of our Council. Knowing their labors while here in our noble cause of Temperance has been well worthy of the highest praise, and we feel assured their departure from our midst will be much felt, though we feel satisfied they will use the same energy in their new field of labor; and the many friends you have won while here may be increased double fold in the banner Scott Act County of Norfolk.

Signed on behalf of the Council,

T. H. FIRTH,
J. GORDON,
J. G. RUSSELL,
J. W. S. RICHARDSON.

Bro. McGregor then made a feeling and appropriate reply.—[COM.

—Those interested in pure bred stock, will do well to read Mr. Geo. Swanton's advt. in this week's ADVANCE Mr. Swanton has, at great expense, introduced a thorough-bred Berkshire Boar into this locality. His enterprise is commendable and might be imitated to advantage by many others.

—We were pleased to be favored with a call by our young friend, Mr. Fred Leitch, on Tuesday. He has been in Winnipeg for a year or so past and but lately returned to Flesherton. He will not return to the Noth-West until spring, as the winters severe on those unaccustomed to them.

—We are glad to learn of the safe arrival in his native land (Scotland) of Mr. J. D. Clarke, of the Hamilton *Times*, a gentleman well known in this locality. His wife, who is staying with her father, —Squire Armstrong, of this village,—during his absence abroad, received a letter from him this week. The voyage across the ocean has much improved his health.

Exciting Runaway.

On Monday evening, about half-past four o'clock, Mr. Geo. Wardrobe and Mr. Meggitt were driving along the Collingwood gravel road with a team and lumber waggon, en route for home. When near Mr. John Field's place, the horses became frightened by the noise made by some school children, and soon became unmanageable. They tore alone the road at a furious pace and in a short time the occupants were thrown out of the waggon. The team, becoming more and more excited, dashed madly across the commons just on the west side of what is known as Field's gully. By this time the waggon was a complete wreck; but the horses never slackened their speed until just before they reached the steep banks of the gully itself, when one of them fell and before it could recover itself both horses were secured by Mr. C. W. Bellamy, who, fortunately, happened to be near at hand. Had the horses went over the precipice, the chances were ten to one that they would have been killed.

Mr. Meggitt, who is an old man, received a slight cut on the back of his head, bnt otherwise escaped injury. Mr. Wardrobe was badly shaken up by the fall, and for some time was so confused that he scarcely realized what had happened.

Mr. John Fields, assisted by Mr. Bellamy, fixed up the horses, which, strange to say, escaped without injuries.

Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. Dixon & Son, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star, Nov. 17, 1882.
