The Advance till Jan. 1st, 1885, for 15 cents.

Our Southern Letter.

From our own Correspondent,

"RAMBLING NOTES."

The long, long drouth has at last been succeeded by a few showers of rain. Farmers can now do a little fall ploughing, and sow late fall wheat and oats. No snow since a light fall of the "beautiful" about a month ago. Hard frosts some weeks since killed "every green thing," and continues with chilling cold weather except for a few hours in the middle of the day when the sun shines. The "Sunny South" altho' roasting hot during the summer, is terribly cold and chilly at times, say from October to April. Poisonous reptiles have now "gone into winter quarters," perhaps in the barn, stable, under stacks of "fodder," (as it is always called here) or under the house and elsewhere. A scorpion was seen on our window sill awhile ago; it may have been in the house, as the window was raised. Pleasant company (?) A few of the summer birds remain yet, others have gone further south until spring.

Great rejoicing on account of election of a Democratic President. Hope that he will wisely rule and well, and that a more friendly feeling may obtain between the North and South. I find Southerners to be just as kind and agreeable as Northerners—somewhat more hot-headed but then they are under a *hotter sun*, you know. Wish they had a better soil and climate, their increasing industry and enterprise would receive a greater reward.

What has become of your other foreign correspondents, Mr. F. T. Carr and J. M. Webster? Hope to hear again from N. W. T. and B C.

You did not come to help me eat that "fat possum." However, I expect another. Don't fail to put in an appearance soon as it is "done gone roastin' in de big wide pan." The "small boy" shewed me a live old one some 2 months ago, which he had caught, carried her by the tail, head downwards, while six young ones about the size of black squirrele, stuck fast all over her, holding fast with "tooth and nail," the best animal illustration of "sticking to mother" I ever saw. I might here remark that this is the "oppossum" we, you, heve seen pictures carrying her young on her back, they steadying themselves by curling their tails aoound hers which is turned forward in a straight line towards her head, say six inches above her back.—

"Funny aint they, how would you
Like to have a tail and be 'em?"

I may add that these animals are of the Marsupial species. The mother opposum having an outside "pocket" or pouch, in which her young find a "house and home" until able to take care of themselves.

THANKSGIVING DAY

was duly observed here. College closed pro tem, business suspended "more or less," especially while the indispensible "roast turkey and pumpkin pie" was on the table. We, like good loyal citizens, "followed suit," had the roast, &c., and the President of Rutherford College and wife to help "discuss" it.

In a future letter I may mention some interesting news concerning this climate, soil, productions, &c., some of them never having appeared in print.

WM. PURDY.

R'fd Col. Burke Co., N.C.,
Dec., 1884.

Easily Caught.

It is very easy to catch cold, but not so easy to cure it unless you use Hagyard's Pectoral Balsam, the best remedy for all throat, bronchial and lung troubles, coughs, colds and consumptive tendencies.

The Best Combination.

The best combination of blood cleansing, regulating, health giving herbs, roots and barks enters into Burdock Blood Bitters—a purely vegetable remedy that cures diseases of the blood, liver and kidneys.

A Plant of Rare Virtues.

Is the common and well-known Burdock. It is one of the best blood purifier regulators in the vegetable world, and the compound known as Burdock Blood Bitters possesses wonderful power in disease of the blood, liver, kidneys and stomach.

Splendid engravings and interesting information. Specimen copy of the Scientific American sent free. Address MUNN & CO., SCIENTIFIC AMERICAN Office, 261 Broadway, New York.

News Items.

Gleaned from our Canadian Exchanges and Other Sources.

RUNAWAY.—Yesterday morning the team of Mr. John McBride, of Amaranth, standing at Laidlaw's granary near the railway station, took fright and ran down Main street at a terrific rate, and in turning up Owen Sound street the waggon was upset, the horses freeing themselves and running into Black's hotel sheds. The waggon was badly damaged, but the horses escaped with only a few scratches A similar runaway took place Tuesday, but little or no damage resulted.—*Shelborne Economist.*

SUDDEN DEATH.—On Tuesday last the wife of Mr. John Bennett, of Amaranth, was nursing her youngest child, Mr. Bennett being away from home, when a young man who is employed on the farm, fancying he heard a gurgling sound in the room where she was, entered to find her in a swoon. He immediately ran to a neighbor's house across the road for assistance, but when he returned with help she was found to be dead with the child in her arms. Coroner Norton was notified, but an inquest was not deemed necessary. Heart disease is supposed to have been the cause of death.—*Shelburne Economist.*

There and a number of youths in Durham who are in the habit of insulting females when walking on the street one or two especially are "spotted" and if they repeat the dose, it will be our especial duty to see that the Mayor imposes either a heavy fine or an equivalent of imprisonment. We honestly warn them that it would be just as well to be decent.—*Durham Chronicle.*

A CRYING EVIL.—Children are often fretful and ill when worms are the cause. Dr. Low's Worm Syrup safely expels all Worms.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen:* My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 15 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully,

HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; $1, six bottles for $5.
