INHUMAN TREATMENT.

An old gentleman residing in the vicinity of Rob Roy—and having a step-daughter, a widow, living on the same farm—sent to the Orphan's Home, Peterborough, for a boy. The boy came, and lived there since last July. Last week one of the officials of the Home came and took the lad away, owing to the ill-treatment to which he had been subjected. During those cold days about Christmas time, the lad was kept out working from morning till night; if he came in to warm his feet—which were very poorly covered—the woman would order him to warm them cutting wood outside. While cutting wood about two weeks ago, he got both his feet badly frozen, and still his supervisor would have permitted them to freeze again had it not been for one of the neighbors who, seeing the painful situation of the lad, dressed his feet and sent for medical aid. Part of his toes came off. The boy is now where I expect he will have better treatment.

Miss Mary Crone has gone to Collingwood to attend the High School there.

Mr. John Crone has rented his farm and will quit farming.

Mr. James Parks is going to build a frame barn next summer.

Mrs. Robert McGirr is very sick at present, with Dr. Kerr in attendance. The cause of her sickness is reported from an excessive dose of laudanum.

Walter Saigeon is learning blacksmithing at Feversham.

The timbermen are doing a rushing business now, owing to the good sleighing. Large quantities of timber are being drawn to the track of the N. & N. W.

One of the hewers while working in the bush about two weeks ago severed two of his toes from his feet.

COLLINGWOOD.—A newly married young man, residing at the foot of the Blue mountain, Collingwood, had a bedstead and numerous other articles stolen from his house. No clue.

A WISE CONCLUSION.—If you have vainly tried many remedies for rheumatism' it will be a wise conclusion to try Hagyard's Yellow Oil. It cures all painful diseases when other medicine fail.

Markdale Items.

From our own Correspondent,

Any quantity of grain coming in to market at present.

Roods in excellent condition, with the exception of a few snow-drifts.

Miss E. Wright of Flesherton has been spending a few days at the residence of Wm. Brown, Esq., merchant, of this place.

Miss Campbell, Hill Bros milliner, has returned home for the winter. She will likely engage with the same firm for the coming season. Should like very much to see her ever-smiling countenance again in the spring.

We understand a Just For Fun Club is about to be organized in our midst. This society is intended for the enjoyment of its members—both male and female, and no doubt it will be well patronized when once organized. We would like to see it flourish.

Miss Minnie Rorke left Markdale a few days ago to take a course in the Whitby Ladies College. Miss Minnie has been engaged in the post-office here for the past eight years, and has attended to her duties very successfully indeed during that time. She was the recipient of a hand-somely finished gold watch and chain, enclosed in a beautiful watch case,, from her uncle Mr. W. J. McFarland; and on the evening previous to her departure was presented, by a number of her Markdale friends, with a beautiful silver toilet bracket, accompanied with an illuminated address. Although taken entirely by surprise, she responded in a few well-chosen remarks.

The skating carnival, held here on the 27th ult., was a grand success. There were a large number of maskers; and a goodly number of spectators were present to witness the pranks of the several maskers. Quite a number were present from Dundalk, who carried off with them a number of prizes. The 25 lap race between Joseph Gibbons of Dundalk and James Sproule of htis place created quite a sensation. The race resulted in a victory for the former of about half a lap. Sproule claimed a foul, and both parties being somewhat excited, agreed to race in Owen Sound rink for the paltry sum of $50 a side, on the 3rd ins., of which, Mr. Editor, I will give you full next week.

GOOD THE YEAR ROUND.—National Pills are a good blood purifier, liver regulator and mild purgative for all seasons.

WORMS often cause serious illness. The cure is Dr. Low's Worm Syrup. It destroys and expels Worms effectually.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are **Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse,** etc. If allowed to continue, **Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption,** and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system **Hereditary Scrofula,** and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine *Honduras Sarsaparilla,* with *Yellow Dock, Stillingia,* the *Iodides of Potassium* and *Iron,* and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

International and Colonial Exhibitions.

Antwerp in 1885—London in 1886

IT is the intention to have a Canadian representation at the INTERNATIONAL EXHIBITION at Antwerp, commencing in May, 1885, and also at the COLONIAL and INDIAN EXHIBITION in London in 1886.

The Government will defray the cost of freight in conveying Canadian Exhibits to Antwerp, and from Antwerp to London, and also of returning them to Canada in the event of their not being sold.

All Exhibits for Antwerp should be ready for shipment not later than the first week in March next.

These Exhibitions, it is believed, will afford favorable opportunity for making known the natural capabilities, and manufacturing and industrial progress of the Dominion.

Circulars and forms containing more particular information may be obtained by letter (post free) addressed to the Department of Agriculture, Ottawa.

By order,
