"COUNTRY NEWSPAPERS."

Last week's *Durham Chronicle* contained a splendid editorial under the above heading, and which, want of space, forbids us referring to as fully as it deserves. There is scarcely a paragraph in it we cannot heartily endorse; and almost in every word we can read our own personal experience. The editorial is well-written, the ideas are clearly put, and the language vigorous and emphatic. The following paragraph, clipped from the editorial in question, puts the multifarious duties of the average country editor in a nutshell:—"Imagine a man having to superintend both job and news departments, write editorials, collect news, keep Books, do an incredible amount of correspondence, collect accounts, keep posted on current events, make up forms, do press work and often take a turn at the case."

ENTERPRISING—VERY!

Our northern cotem. last week made the startling announcement that it was going to furnish its readers with a summary of the proceedings of the Ontario and Dominion parliaments. To the uninitiated this certainly looked like a big stroke of enterprise for a country paper; but as the majority of the other papers in this county have been giving parliamentary summaries for years past, and didn't make any blow about it, it will be seen that brother Rutledge's horn makes a very ridiculous "toot" at this late hour of the day. This week's ADVANCE contains a summary of the doings of both houses, but we made no "special arrangement" in connection with its insertion at all. Last year, the same; the year before, ditto. Oh, yes; our cotem. is very enterprising—very! about as enterprising as the man who peddles shoddy goods: The goods may be of a fairish sample, but they are about sixteen years *behind the times!*

"Col. Williams has received a telegram from Gen. Wolseley, at Korti, to the effect that he would be glad to see a Canadian regiment in Egypt." So reads one of the late press despatches. No doubt Wolseley would like it very much, and there is a possibility that there are enough men in this country thirsting for glory and Mahommedan "scalps" to make up quite a respectable contingent; and, possibly our "enthusiasts" never enquire whether those poor Arabs have or have not a just cause in fighting for their own country. The alleged death of Gen. Gordon, however, will likely have the tendency to make the Soudan the theatre of some terrible conflicts. "Revenge" is now the cry of four-fifths of the nation.

A Good Record.

Among the many thousand bottles of Hagyard's Yellow Oil sold annually in Canada, not one has ever failed to give satisfaction. It cures rheumatism, colds, and all painful complaints and injuries.

Considerable discussion has been indulged in by old country military critics as to the advisability of the British soldiers in Egypt fighting the Arabs in squares. Lieut. Field, of Flesherton Company, 31st battallion of Canadian volunteers—an excellent authority in these matters—gives it as his opinion that there is no better method in the world than fighting in squares, that is, if the squares be properly formed. In close quarters, the enemy are subjected to a galling cross fire, and a small body of men are able to keep a large force at bay in this manner better than in any other mode.

Well As Ever.

Lottie Howard writes from Buffalo, N. Y.: "My system became greatly debilitated through arduous professional duties; suffered from nausea, sick headache and biliousness. Tried Burdock Blood Bitters with the most beneficial effect. Am well as ever.

Inistioge.

(From our own Correspondent.)

Mr. George Ludlow met with a serious accident. Assisted by two other men, Mr. Ludlow was "loadfng" fence posts, when one of the posts accidently slipped and struck him on the mouth, knocking several teeth out and otherwise injuring him. Dr. Christoe was called and dress-the wound.

The social held at this place on Friday, the 13th was a pleasant affair. After tea, Mr. Thos McKay was called to the chair which he very ably filled. Speeches were given by Rev. T. J Snowdon and Rev. Mr. Shaw. A well rendered recitation was given by Master Richard Rutledge. Recitations were also given by Carrie and Minnie Waikley. The music was conducted by Mrs. E. Williams. Proceeds $10.50.

Our townsman, Mr. Teeple, intends to move to Collingwood Tp. in a few weeks.

A social is to be held in the Atchison School House, Proton, on Friday, Feb. 27th.

Danger In The Air.

In the chilling winds, the damp atmosphere and suddenly checked perspiration, colds are lurking. Hagyard's Pectoral Balsam cures colds, coughs, asthma and bronchitis, and all complaint tending towards consumption.

Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment Sufferers should correspond with Messrs. H. A. Dixon & Son, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star, Nov. 17, 1882.

WARREN LELAND,

whom everybody knows as the successful manager of the

Largest Hotel Enterprises

of America, says that while a passenger from New York on board a ship going around Cape Horn, in the early days of emigration to California, he learned that one of the officers of the vessel had cured himself, during the voyage, of an obstinate disease by the use of

Ayer's Sarsaparilla.

Since then Mr. LELAND has recommended AYER'S SARSAPARILLA in many similar cases, and he has never yet heard of its failure to effect a radical cure.

Some years ago one of Mr. LELAND'S farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enormously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND'S direction, was supplied with AYER'S SARSAPARILLA, which allayed the pain and irritation, healed the sores, removed the swelling, and completely restored the limb to use.

Mr. LELAND has personally used

Ayer's Sarsaparilla

for **Rheumatism,** with entire success; and, after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of **Liver Disorders, Gout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood diseases.**

We have Mr. LELAND'S permission to invite all who may desire further evidence in regard to the extraordinary curative powers of AYER'S SARSAPARILLA to see him personally either at his mammoth Ocean Hotel, Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York.

Mr. LELAND'S extensive knowledge of the good done by this **unequalled eradicator of blood poisons** enables him to give inquirers much valuable information.
