JOTTINGS.

The "Forestry Report, 1884," compiled at the instance of the Ontario government by the celebrated writer, Mr. R. W. Phipps, is on our table. It is written in that charming style so peculiar to the author, and will be read with interest by every one interested in the preservation of our forests. The Ontario Government could not possibly have employed a gentleman so pre-eminently qualified for the difficult task as is Mr. Phipps, A practical agriculturist, a shrewd observer of nature, and a brilliant writer, he presents an array of facts in the pamphlet before us in such attractive form, that after perusing it from cover to cover, we are constrained to express our regret that "To be continued" is not printed immediately after the last paragraph. Mr. Phipps is always interesting—even when dealing with subjects usually considered *dry* and *heavy*. Want of space forbids us referring further to the subject this week, but in our next and future issues we shall be more explicit, and will endeavor to find space for such extracts as will be of particular interest to our readers.

The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its use by intelligent people for over forty years. It has indisputably proven itself the very best known specific for all colds, coughs, and pulmonary complaints.

"*Public Opinion's*" letter in this issue contains a very serious charge in reference to the conduct of some young men who are in the habit of spending evenings occasionally in our reading room. The charge has been repeatedly made in our hearing by prominent villagers, and demands immediate and most thorough investigation. Another charge has also been preferred, viz., that liquor is secretly smuggled into the reading room. This latter charge is, if anything, a more serious one than the first. It is very much to be regretted—providing the charges named can be substantiated—that the young men guilty of such conduct are so far lost to all sense of decency and self-respect. If the allegations made by "Public Opinion" and other of our citizens can be proven—and we are informed they can and will be substantiated when occasion demands—it will become the duty of every villager who has the honor and good name of Flesherton at heart, to see to it that a noble institution is not turned into a whisky "guzzling" and gambler's training school.

Take Ayer's Sarsaparilla in the spring of the year to purify the blood, invigorate the system, excite the liver to action, and restore the healthy tone and vigor of the whole physical mechanism.

The Ontario Government has introduced a "Redistribution Bill," and, truly, when the changes in representation caused by the said Bill are fully understood by our M. P. P's, many of them will be constrained to examine very carefully a "Map of the Province of Ontario," and indulge in terms more emphatic than polite. For instance our own—(hold on! are we sure Mr. McColman is really and truly our representative in the Legislature?)—our own M. P. P., we were saying, will scarcely recognize the constituency of which he is the representative. He finds Proton lopped off and thrown into South Grey, while the Township of Sullivan is "thrown into" *East* Grey to fill up the gap. Although his constituency is now bounded on one side by Simcoe and on the other by the County of Bruce, it still enjoys the familiar name of *East* Grey. This ought to afford some gratification. The M. P. P. for North Grey also finds his constituency much altered, but the alteration is in favor of the Government, which shows that representation by population was not the real motive; but rather suggestive of a well matured plan to rid the House of the very best Conservative member in it. But the object will fail, although we do not blame the Government very much for following the illustrious precedent laid down a few years ago by our grand old chieftian, Sir John Macdonald. It is simply a repetition of the school boy's—"Tit for tat—butter for fat."

The young men mentioned by us as being implicated in the breaking of our office window, have a letter in this issue of THE ADVANCE. They deny having had anything to do with it, while admitting that they were present when the deed was done. They were asked to keep "mum" by young Keefer, they say; but is it not strange, that, when another individual appeared on the scene, they scampered off, leaving a business place open so that any stray tramp who chanced to pass along that way, might go inside and do any amount of damage? Why did they not inform us of the circumstance as soon as they occurred? And when the affair became known to us, why did they not, when requested to do so, deign to make some explanation, and not allow their names to appear in public print? What business had they loitering around the office door anyway? It is also worthy of note that these young men do not say one word about the plants which were destroyed, which was by far the most important item. No matter who was to blame, as young men of honor, they should have informed us of the whole circumstances. Their silence until the matter became public through the paper, does not speak very much in their favor, and the fact that the three young men are a unit in shouldering the blame upon a comrade, who had acted a most honorable part throughout the whole affair, does not necessarily imply that they are to be held blameless. Whether they are to be directly implicated or not, does not matter; they were present when the accident occurred, and as, according to their own statement, they preserved the greatest secrecy concerning it, are to be held equally culpable with the *real* offender or offenders.

DR. LOW'S WORM SYRUP has removed tape worm from 15 to 30 feet in length. It also destroys all kinds of worm.

Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. H. A. Dixon & Son, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star, Nov. 17, 1882.

PROF. LOW'S SULPHUR SOAP is highly recommended for the cure of Eruption, Chafes, Chapped hands, Pimples, Tan, &c.
