### The Editor's Mistake.

*To the Editor of The Advance.*

Sir,—I notice you used the word "cattering" in connection with a millinery notice in your last weeks issue. I always thought the word was only used when speaking of food or something of that sort.

OPEN EYE.

[Right you are, friend "Open Eye;" but isn't millinery food—for the eye to feast upon, for instance?—ED. ADVANCE.]

The Shades of night were falling fast As though our village streets there passed a youth—whose general appearance betokened that good taste in dress, especially in selecting a *Hat,* such as can now be had at *Richardson's;* the nobbiest goods for Spring wear.

When the blood is loaded with impurities and moves sluggishly in the veins, and alterative is needed, as this condition of the vital fluid cannot last long without serious results There is nothing better than Ayer's Sarsaparilla to purify the blood, and impart energy to the system.

### The New County.

The bill asking the Legislature to form the new County of Palmerston, with Mt. Forest as a county town, has been bilked by their own stupidity. Of course they could not have entrusted it to their present member McKim, but they might have relied on the integrity of Blyth, whether he was in favor of it or not. The bill was in charge of Mr. Ferris member for Northumberland, an old member of the House, yet he never introduced the bill, until two days after the time appointed for receiving private bills. Either he doesn't know his business yet or the fatal delay was intentional. Why doesn't Mt. Forest elect a man capable of doing its business. Let them give both McKim and Ferris the G. B.—*Durham Chronicle.*

The *largest* variety of new and beautiful *Spring Dress Goods* are now open at *Richardson's.*

The reason why "Myrtly Navy" tobacco has taken so strong a hold upon the smoking community is because it is the genuine article. No man has a desire to smoke anything else than tobacco. Even opinion is not smoked for the pleasure of smoking it but for its soporific effects. The desire for tobacco is, of course, best satisfied by getting the pure article, and when to this is added the finest quality the satisfaction is complete. These two things are combined in the "Myrtle Navy."

### Death of an Old Journalist.

Mr. W. T. Boyd, the oldest member of *The Globe* staff, died at his residence, 290 Bathurst street, yesterday. He had been suffering for many months past from an obscure and distressing form of paralysis, which affected first one of his knees, then the whole limb, afterwards involving one organ after another till death at length came to his release. Mr. Boyd was born at Glasgow in 1829 and came to this country when about nine years old with his parents. He joined *The Globe* staff in 1870, and from that time until incapacitated by illness was actively engaged in the local and commercial departments of the paper. He was the first to institute the column of Marine intelligence in *The Globe,* and as marine reporter and editor he became known to all the lake sailors frequenting this port. There are few business men or lawyers in the city who will not remember him with regret, while farmers and fair-exhibitors all over the Province will next fall miss the accustomed face of one who was never happier than when he was dealing with an agricultural exhibition. He was a shrewd, intelligent, and hardworking as well as an amiable and highly respected man, and he will be greatly mourned by his associates and other friends. He leaves a wife and five children.—*Globe.*

[A number of the relatives of deceased live in the Township of Euphrasia. Mr. Boyd, Public School Teacher, Epping, is a nephew.—ED. ADVANCE.]

### Meaford Road.

*From our Correspondent.*

The anniversary tea-meeting in aid of the Sabbath School here was held in the Wesley Church on Tuesday evening the 10th inst., owing to the roads being in a very bad state after the day before's storm the attendance was smaller than usual, but in every other respect it was a most decided success. To begin with the tea and cakes were both excellent and abundant. The interval between the feast of good things and that of wisdom was taken up by both young and old in the liberal distribution of lozengers of which there seemed to be an inexhaustible supply. The way in which these sweet missiles were handled would have surprised a native Indian or Heathen Chinee.

Mr. W. Buchanan acted as chairman and was in his most cheerful mood. The speakers were Mr. T. Boland and Mr. D. R. Ellis, each of whom made short, pithy and practical speeches. The childrens part of the programme was well rendered and seemed to please both themselves and the audience. The report of the Secretary show the school to be in prosperous state. The musical portion of the programme was furnished by a choir composed of some of the Teachers and Scholars of the school and right well did they fill the bill. The proceeds including social on Thursday evening was about $30.

**HAIR RENEWER**

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: *the entire fulfilment of its promises.*

The Proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.
