

Canada Cement Co.

Accident Prevention Association representatives, Canada Cement Company officials and employees of the Point Anne plant took part in a re-dedication ceremony Wednesday as the plant's safety record of over 1,000 accident-free days was recognized. As of Wednesday the plant had gone 1,359 days without a disabling accident. From the right standing before the plant safety trophy first awarded in 1927 are Dr. J. R. D. Brown, assistant manager, accident prevention bureau of the Portland Cement Association; J. M. Breen, president and general manager of the Canada Cement Company; J. H. Legate, plant manager at Point Anne; A. O. Drysdale, plant superintendent, and Tom Bowler, plant safety supervisor. Standing behind the front row are V. C. Hamilton, general superintendent of Canada Cement Co. and Capt. E. Knudsen, former skipper of the Cement Karrier.
