HEALTH

by Frederick Fleming M.D.

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

SECURITY

Health, particularly mental health, is dependent upon reasonable security against uncontrollable events of life, such as sickness and death. Lack of economic security leads to worry, which in turn, means at least unhappiness and which is, in many cases, the basis of serious physical and mental disabilities. The campaign of the life insurance companies of Canada and the United States for "Financial Independence Through Life Insurance" has, therefore, a health as well as a financial significance.

For centuries the need for food, shelter and clothing has provided much of the stimulus for man's activities. Our ancestors fought wild beasts, not for sport, but to secure clothing and food. Other food they had to wrest from the ground by hard work. It was not easy for them to obtain the essentials of life.

We have progressed. Times have changed and, with modern machinery there is no longer a lack of food or clothing or of the means for producing them in abundance. That some are in need is not due to any scarcity of the essentials, but to the inability to purchase, of these individuals.

To-day, Man has solved the problem of production, and so he has more time to consider other needs. With the development of industries, a large percentage of the population have become more dependent in the sense that if they lose their employment, they have comparatively no resources upon which to fall back to secure the essentials of life.

The demand for security is the expression of a normal desire. In planning a healthy environment for a child, we realize that he must have a home where he may feel a sense of security. The child is not to be punished by his parents one day for something at which they will laugh the next. If this happens, the child does not know what to expect; he will have no confidence in his parents. Such lack of security seriously interferes with the healthy mental development of the child.

One of the most worth-while discoveries of modern civilization is that which provides for the spreading of risks. What the individual cannot obtain for himself, he can secure by joining a group, and so he may spread the danger or risk over the whole group. This is what insurance means. For a fixed contribution from a group of individuals, the entire group is assured of receivng a fixed sum in the event of certain happenings.

In this age of speed, work has been unduly glorified. What is needed is a better appreciation of relative values. We should work, and everyone should have the opportunity to work. There is no good in idleness. However by the spreading of risks, through insurance, we should be able to combine work and play throughout life. In this way, we may look forward to longer, healthier and happier lives.

Osprey Tax Arrears To County Treasurer

The Osprey municipal council met at Maxwell on Saturday, April 22, with all members present, after the minutes of the preceding meeting were read and confirmed communications were read, which consisted chiefly from parties interested in arrears of taxes.

After a lengthy discussion of the tax arrear question, which seems to be the largest individual problem that all municipalities have to deal with, a motion was presented and passed ordering all arrears prior to 1932 to be returned to the County Treasurer for collection. All parties interested will be notified that the same may be paid either to our local treasurer or the county treasurer up unto June 1st, 1933, without additional penalty being added.

The road superintendent's wages were reduced to $3.00 per day for road work and 20c per hour for office work. General accounts passed and ordered paid amounted to $32.50.

Road accounts presented by road supt. passed amounted to $55.02.

Council adjourned to meet at Maxwell on Saturday, May 27, at 10 a.m. to hold a Court of Revision of the assessment roll for 1933.

BORN

McCRACKEN — On Tuesday, April 26, to Mr. and Mrs. Lawrence McCracken, the gift of a son.

AGRICULTURE IS MAJOR FACTOR IN CANADA'S EXPORT TRADE

Agriculture, according to the Ontario Marketing Board, provides roughly one-half of Canada's export trade, the most important items being grain and grain products, cheese, live stock and live stock products, potatoes and apples.

Local and Personal

Mr. Fred Gorrell of Owen Sound spent the week end in town.

Mrs. Mary Brownlee of Collingwood is visiting with her brother, Robt. Alexander, and family.

Miss Dorothy Wolstencroft left on Friday to commence training for a nurse in the Owen Sound hospital.

Schools opened on Monday after the Easter vacation and all teachers are again on duty.

Mrs. Thos. Brady of Lions Head is visiting her parents, Mr. and Mrs. John Wright.

Miss Tena Henderson of Lakeview is visiting relatives and friends in this district.

Mr. and Mrs. Jos. Bull and daughter, Josephine, and Miss Mary Newton of Toronto spent the week end with Mr. and Mrs. T. J. Fisher.

Mr. W. Snyder, wife and daughter, Louis, Mrs. Davis and Miss McArthney, all of Toronto were Sunday visitors at Mr. John McDonald's.

Miss Euphamie Graham and brother, Jimmie, and Mr. Stanley Brown of Owen Sound visited on Sunday with Mr. and Mrs. Robt. Alexander and family.

Mr. L. Goldsborough of Buffalo and Miss Ethel Goldsborough of Niagara Falls, Ontario, spent the week end with their brother, Mr. Geo. Goldsborough, and family.

Miss Irene McDonald and friend, Mr. Jerry Rideout of Toronto motored up and spent the week end with the former's parents, Mr. and Mrs. J. McDonald.

The annual election of officers of the Women's Institute will be held at the home of Mrs. J. O. Dargavel at the regular meeting on Wednesday, May 3rd, at 3 p.m. All ladies are invited to attend.

Mrs. Wm. Burnett received the sad news of the passing of her brother-in-law, Mr. Wm. Kyle at Maple on Monday; Mr. Burnett and granddaughter, Miss Agnes Irwin, left today, the funeral being on Thursday.

Mr. George McTavish motored to Oakville on Sunday, accompanied by his wife and two little daughters who had been visiting his aunt, Mrs. O'Brien, returned home, while Mrs. McTavish remained for a longer visit.

Another case of the success of a "Small Advt." has been brought to our attention. The same day that the advertisement appeared Mr. Jos. Radley had sold 11 bushels of goose wheat to Mr. T. S. Cooper, agricultural representative for Grey. These "Small Advts." usually bring good results. Try one; the cost is small.

The Flesherton Library Board will shortly be ordering additional books and they wish their readers to choose some of the books themselves by suggesting the ones they wish to read. If there is any book you especially wish the Board to secure kindly notify C. N. Richardson, secretary, and your request will be considered.

Checks Take Stamps

On May 1st every cheque which is cashed must bear a 3c stamp, no matter how small the sum. Over $100 six cents is required. It is up to the person who issues the cheque to place the stamp on it, a thing that is very often left for the person cashing the cheque to look after. It might be a good idea on May 1st, for every person accepting a cheque to insist that it bears the necessary stamps or that the tax is included in the amount of the cheque. Neglect in putting the stamp on cheques costs every business house many dollars every year, and now that every cheque must be so decorated, it is going to be a burden. No longer will it be possible for one to pay a $25 account with five $5 cheques for which bankers, at least, will be thankful. The tax is law, so let's all live up to it and accept our responsibility. Do not ask the other fellow to put a stamp on your cheque.

675,000 LBS. OF ONTARIO HONEY EXPORTED TO GREAT BRITAIN

The Ontario Honey Export Association announces it has shipped to date some 675,000 pounds of honey to Great Britain and the Continental market. This quantity is made up as follows: 450,000 pounds of white and golden honey; 20,000 pounds of light amber; 6,000 pounds comb honey and 200,000 pounds of buckwheat.

The removal of this quantity of honey from the domestic market has materially aided in strengthening domestic prices.

Read the Small Advertisements

Fall wheat and clovers have wintered in good condition. This is the report from the majority of representatives although some districts afford notable exceptions. A greatly stimulated interest in pruning and spraying is observed among orchardists throughout Ontario.

Just the Thing For Jobs Like These

The NEW IVORY GYPROC
Fireproof Wallboard

PUTTING up fire-safe walls, ceilings and partitions in:

Stores	Harness Rooms
