Rob Roy.

(From our own Correspondent.)

Mr. John Crowe, who has long been a resident in this Township (Osprey) and a pioneer in its settlement, sold the farm where he spent many of his happiest hours and accumulated the greater portion of his wealth. He purchased a farm on the 6th concession of Nottawasaga, whither he removed last week. Mr. Crowe is very highly esteemed by all who know him.

Mr. W. J. Spence has sold 90 acres of his farm and reserves 10 upon which he purposes erecting a residence.

T. Spence and W. Richmond have taken a contract of making a large quantity of molasses. They have now over 500 troughs awaiting the trickling of the maple juice.

A great many farmers have had to make artificial legs for some of their cows by ropes suspended from the beams above in the stable, owing to the want of fodder.

Mr. Joseph Surley lost a valuable horse last Monday night.

Ayer's Cathartic Pills are suited to every age. Being sugar-coated, they are easy to take, and though mild and pleasant in action, are thorough and searching in effect. Their efficacy in all disorders of the stomach and bowels is certified to by eminent physicians, prominent clergymen, and many of our best citizens.

Markdale Items.

By the Agricultural Editor.

"Thoughts shut up want air, And spoil, like bales unopened to the sun."

So thinks the Agricultural Editor of THE ADVANCE—that is, if the "thoughts" are worth anything. Some of the "thoughts" expressed in Markdale just after the *Standard* was issued,—in which the name of a well-known "hoss" man was freely used—would have had a more healthy effect if allowed to spoil and "like bales unopened to the sun"—or moon, either, for that matter. Jim Henry can tell you more about them than we can.

We saw the renowned S. L. M. Luke in town. He was discussing the advisability of introducing the Holstein breed of cattle into this County—a subject he has recently taken up in the most vigorous manner, through the press, and on the stump, sidewalk, or elsewhere. He espied the agricultural editor, and with that courtesy for which he has ever been noted, he dropped his pet topic, grasped the a. e. by the hand (and a vice-like grip it was), slapped him vigorously upon the back, and exclaimed :—"Glad to see you, my boy, glad to see you!" The a. e. withdrew his hand as rapidly as the rules of ordinary politeness would allow.

The *Standard* man has added a handsome paper-cutter to his plant. The editor, Mr. Rutledge, was absent, but his excellent foreman, Mr. W. T. Jackman, filled his position in the most gentlemanly manner.

The a. e. called at the well-known Belfast House and found business "booming." It is rumored that the founder of this popular establishment, Mr. Benson, sr., will shortly issue to the public a "Story of My Life." As Mr. Benson has had many interesting experiences during his long life, a work such as that designated ought to be a very readable one.

Mr. W. A. Brown, the popular jeweller, has a very large and well assorted stock of watches, clocks, jewelry, &c., which he is selling at close prices. He has done a large business during the past season.

Mr. Thos. Davis, the world-renowned architect, was pleased to meet with the Agricultural Editor. Dr. Carter was present during the interview. Mr. Davis said he had a bill of $310 against the T. G. & B. R. Co., and was desirous of writing out a cheque for the full amount of the loss sustained by Mr. Elliott in the recent accident at the railway station. At present he (Mr. Davis) was busily engaged inspecting the new Methodist church being erected in Markdale. "Docthor Carter, Docthor Sproule, Docthor Christoe, and you and you else 'll jist hand me over, ye understand, said Mr. Davis, glancing benignantly at the Agricultural Editor and Dr. Carter. The Dr. and A. E. having nodded assent, the architect made a bee line up Toronto street.

Southern Items.

From our own Correspondent,

MILLO MAIZE. MORE SNOW. ETC.

Since my last letter about "white wheat" etc., I obtained an "Envelope of Milo Maize Seed," a new plant attracting attention in the South as a "fodder," bread, buscuits &c., when the seed is ground into flour. It is said to produce sixty tons to the acre! can be cut several times in one season. I send you a few seeds to try in Ontaria if you cannot attend to it, give to come carefull person to plant, and cultivate same as corn, reserve some for later planting in case of frost. I think it may do well wherever Sarghum matures, as a fodder at least.

MORE SNOW.

On St. Patricks day there was a heavy fall of the "beautiful" and on the 22nd March another of about a foot in depth, with wintry cold weather, no sign of spring yet. These people say, the winters are becoming more severe than formerly.

RUTHERFORD COLLEGE

has more Female Students than heretofore public schools are increasing in the South. The "colored race" are quiet now. Cholera in South Carolina, middling healthy here at present, a few cases of Pneumonia and "bad colds," who ever had a *good* one? Stock will probably suffer hunger before the growing season.

Accept of our sympathy and deep sorrow for you in your bereavement. May God sustain you.

While the "waves of trouble roll,"
And send the Comforter divine,
And ever on your pathway shine,
Until you reach the Heavenly goal;

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 67 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

"HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

"MRS. EMMA CURRY."

159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. "A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. "JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. "P. PRAGDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.
