THIS PAPER may be found on file at Geo. P. Rowell & Co's Newspaper Advertising Bureau (10 Spruce St.), where advertising contracts may be made for it IN NEW YORK.

FLESHERTON:
THURSDAY, JUNE 3, 1886.

VOLUME VI.

With this issue THE ADVANCE enters upon its Sixth Volume. Our paper enters upon the sixth year of its existence with feelings of "peace and good-will" towards its numerous readers, and with an increasing desire to make itself a necessity in every home in the district. We have successfully aimed to make THE ADVANCE a live local paper, believing that the discussion of home topics is of much greater interest to our readers than the most profound and learned dissertations upon matters if political economy, which so largely occupies the attention of our city dailies and weeklies.

We have not deviated—that we are aware of—from the course mapped out in our prospectus over five years ago; but have, to the best of our ability, advocated those things conducive to the mutual well-being of Flesherton and surrounding district. Although sometimes accused of partiality in public matters—as all newspaper men are occasionally—we can calmly look back upon the past and say of a truth, that our every act has been governed by the dictates of our own conscience. Of course political bigots of both parties have accused us of all manner of things, because we have been so unwise (?) as to think for ourself..

We know all about "hard times." We've been there. We came to Flesherton without any inducement in the shape of a bonus, guaranteed advertising or newspaper patronage. We planted THE ADVANCE right in the office we now occupy, and for three years waged a desperate conflict with limited capital, false friends, and ungenerous foes. We never received a dollar, in the way of gratuitous assistance, from the Liberal Conservative party,—a fact which cannot be said of any other political newspaper in this or any other county in Northern Ontario. We do not say this boastingly, because at many times during those first three years we would not have refused assistance in our endeavor to establish such a peculiar enterprise as a newspaper, which is distinct from all other occupations in so many respects. However, with the hearty assistance of a phalanx of true and tried friends, the Rubicon was safely passed and THE ADVANCE solidly established. The last two years have not passed without their dark days, owing to the great commercial depression which has prevailed. In fact every year brings more or less doubt and fear to all business men. Through them all we have come safely thus far, and with truth, justice, and intelligent public on our side, we have no fears for the future.

And now, reader, having shown you in a few words, that THE ADVANCE has not been established without anxiety, care, toil, pleasure, and constant, earnest effort on our own part (many newspaper men will understand this), we make you our best bow, and thanking you most heartily for the confidence you have placed in us in the past—also asking a continuance of the same—we turn over the first leaves of Volume VI.

Explanatory.

To the Editor of The Advance.

I notice in issue of THE ADVANCE of 20th ult., an article signed, "Truth," regarding the shooting accident at Markdale, whereby my son Alfred lost his eye through a cartridge from a rifle fired by Johnson Wilson, son of Rev. A. Wilson. I do not know where "Truth" got his information, but he strikes the rock he advises the *Standard* to steer clear of, namely, "one-sided." Now, the rifle was fired in the shop about three or four feet from our saw table, and Alfred was working in the shop and did not compose one of the party, but followed them to the door: states that he did not coax, or urge, or request Wilson to fire, but admits saying, after rifle was loaded, to fire at a post, which the two other witnesses corroborate. I may also state, that the rifle was taken without permission of owner, who had prohibited any one using it, as it was broken and was dangerous. I am also sorry to think any one has been led to believe the shooting intentional, and cannot see how they got it from statement in the *Standard*, which merely states the facts correctly, and all of which I adhere to. I may also state, that "Truth's" statement, which is evidently Wilson's evidence, is the only apology he has offered "poor Alf." as he calls him.

I would not have written, but seeing such a statement as "Truth's," I am compelled to write in my defence. Thanking you for a space in your paper.

THOS. L. MOFFATT.

A Correction.

To the Editor of the Advance.

Sir,—In answer to Messrs. Trimble & Pickell's letter in week before last issue of the Markdale *Standard*, alleging that my horse, "General Gordon," was not a pedigreed animal, I beg to state that I have in my possession Mr. Wade's certificate as to his pedigree, and can furnish the same at any time. What Messrs. Trimble & Pickell's motives were in circulating such a damaging and false report it is not difficult to understand.

Yours truly,
H. J. GLASSFORD.

To break up a cold or cough or its ill results there is no better remedy than Hagyard's Pectoral Balsam.

THE HECTIC FLUSH, pale hollow cheeks and precarious appetite, indicate worms. Freeman's Worm Powders will quickly and effectually remove them.

North Carolina Letter.

From our own Correspondent,

THE WEATHER.

Oh! hot, hot, hot, I still must say,
Too warm at night, too hot by day,
How can I write, "while cold (?) outstanding drops orbicular,
And showers of sweat, "my forehead covers o'er,
While sun rays almost perpendicular,
Near prostrate me upon the floor?

No wonder that intense heat takes ambition out of a man, and leaves him limp as a "biled rag," when it takes the temper out of a steel pen, and dries the ink almost before its spread, well, these remarks and some of the following, must be taken with a "grano sal et considerabum" (aint this grand?) came very near having frost for several nights about a week ago, probably there was in more frosty localities. Fruit is nearly a general failure on account of the past terribly cold winter. The spring has been too dry, and too wet, consequently very backward, corn rotted in the ground.

BRITISH COLUMBIA.

It appears by Mr. Webster's letter in the ADVANCE recently, that he was not pleased with the weather there the past winter, well, "Jimmy," come here and spend upwards of three years as I have done and you will say that the climate of B. C. is a "king" to this we have six months of summer, four of them terribly hot, and six months of fall, winter and spring, a "mixed up mess" of rain, sleet, snow, blow, frost, warm, "chilling to death" at times, then a week or two of quite clear wintry weather, neither "hot nor cold" then rain, snowing, blowing, drifting, freezing, chilling, over coats and heavy winter clothing required, roaring fires day and night! your growing season commences as early as here, and with greater, straight forward, certainty, rewarding the laborer with abundance to eat at least, frost in the middle of May, here, and in South Carolina occur, doing immense damage to garden "truck," as vegetables are called in the south. Have patience friend Webster, you are passing through a "crisis," which will probably terminate greatly to your advantage. The "yellow skins" will fade out—"blench away" before the multitudes of settlers, coming in from civilized parts of the Globe, and from your old home—Ontario, via. the C. P. R. Pardon me Mr. Editor, for almost forgetting that this letter is intended for you, and *all* of your readers, well, perhaps some of the foregoing remarks will do *general good*, this is my aim, and desire when sending correspondence to the Press.

FLORIDA.

No doubt there are Canadians who are greatly interested in the glowing accounts of Florida, to such especeally permit me to address a few words of caution. Several North Carolinians tried that state the past winter, and found the heat so intolerable at times, that they were glad to return, they tell us that "nothing would induce them to settle there," Malarial fevers are common, natives of Florida, intelligent candid people inform us that they "cannot endure that climate, neither did they feel a moments safety, day or night, on account of poisonous snakes and insects," such experience related to us, *not second handed*, should be carefully considered by all who hear or read it, especially Canadians; if the climate of the South was as "kind, and hospitable to foreigners" as the Southerners are, I could say, "Here let me live and die." However there are a "host, of the sons of the South," white and black, to clear the land, and till the soil, and they only are the people who can work when not too extremely hot, may the Lord bless, and prosper them. It is quite healthy so far this summer, had two small cyclones, doing little damage excepting uprooting forest trees, I must now tell you.

HOW TO BRING, AND PREVENT RAIN.

A Southern expedient we were having a great drought, a neighbour "killed a snake, and hung it up to bring rain," result (?) three days incessant rain! "enough, "took the snake down to stop the rain," result 2nd (?) a thunder storm and cyclone! Oh, ye unbelieving Canadians, try this simple plan, and be convinced of its—absurdity.

THE JURY QUESTION.

Your remarks, Mr. Editor, and those of F. T. C. and Valentine Muggins, are of much importance, and merit candid consideration, permit me to add my "mite" by suggesting (*not* doing away with jurymen) but reducing the number in each panel, one half, and see that they are men thirty years old at least, "good men and true," in the strictest sense of the word. Twelve men instead of twenty-four, or *six* jurymen only of each set, or kind, instead of twelve would greatly "curtail expense" of the county, and "last but not least but not least" in importance, the number being so few, each one would feel more distinctly his own individual responsibility, consequently devote himself to the cases on hand, with greater interest, and determination on his part, to see that the law is honoured, and justice done.

OFF FOR MANITOBA.

Not quite, although all our children have preceeded us to that country, we are tarrying longer than we expected to, waiting for a *Home* to be prepared in that once "great lone land."

Where the almost boundless prairie,
Quite appears the sun to meet,
Where roamed red men, wild and wary,
Only trod by savage feet;
But now, white men from each zone,
Claims that great country for his own.

WM. PURDY.

Rutherford College, N. C. May, 1886.

A SEVERE TRIAL.—Those who endure the torturing pangs of neuralgia, rheumatism, sciatica, lumbago, and similar painful complaints are severely tried, but there is a speedy relief in Hagyard's Yellow Oil as thousands who have used it joyfully testify. It banishes pain and lameness quickly.

THE LAST YEAR, 1886.—After the above year is ended there need be no person suffering from Rheumatism, Neuralgia, Toothache, Headache, Lumbago, or any acute pain, if they only purchase a bottle of Fluid Lightning, as it cures instantly. Pain cannot stay where it is used. The name is Fluid Lightning. Sold by the Druggist.

A FEW REASONS WHY

The People of Artemesia Should go to the Oratorio of Queen Esther in Flesherton, July 1st.

1st.—Because it is to be the greatest musical entertainment ever offered to the public of this part of Grey.

2nd.—Because it is being got up on a scale of magnificence never excelled in even our cities in Canada.

3rd.—Because you don't have to pay $5 railway fares and $1 for a ticket to the performance, but if you live within ten miles it is worth walking all the way to see it, and admission is only 25 cents.

4th.—If you cannot go 25 cents you can see the street procession free. Over one hundred Jews and Persians. King Ahasuerus, Queen Esther, Haman, Zeresh, Mordecai, and all the rest in their picturesque national costumes

5th.—Because you may never in a lifetime again have such an opportunity of hearing an oratorio with a hundred trained voices. Towns ten times the size of Flesherton have never had an oratorio like this, because lacking either the talent or the enterprise to get it up.

6th.—Because if the performers had to be paid for the time spent in preparation for this performance, it would cost *one thousand dollars* to pay for the preparation alone, and the lowest price ordinarily charged for such entertainments in large cities is $1, whereas this will be given at the nominal fee of 25 cents.

Inistioge.

From our own Correspondent.

The Queen's Birthday was celebrated here in loyal style. The principal event of the day was a Garden Party, under the auspices of the Ladies Aid society of this place, which proved to be a very pleasant and enjoyable affair, at which both Dundalk and Flesherton were represented. Tea was served at Mrs. W. Hame's residence. The assemblage was favored with vocal and instrumental music, swinging, and various other games.

Mrs. Skillim is visiting this section of country, on special business, we believe.

Mr. F. Armstrong has rented his farm here to Mr. Thistlewaite.

There is quite a lot of sickness here: Mr. M. Leech is very unwell, as is also Mr Richard Ludlow, sr.

Mr. Wm. Ludlow has rented Mrs. Halliday's farm.

ITEMS BY "TORY."

Farmers have about completed seeding.

The new post-office at Proton Station is giving entire satisfaction.

Geo. Kirby, merchant, surpasses several of our city merchants in various lines of business.

Matrimony seems to form the chief subject for discussion in and about Inistioge, and some of the Flesherton dressmakers—well, I guess they are visiting there.

The grounds, belonging to S. S. No. 4, were much improved on Arbor Day, and a row of evergreens were planted which will add much to the scenery of Inistioge.

[Above batches received too late for last week's paper.—ED.]

USE PROF. LOW'S SULPHUR SOAP for Prickly Heat, Nettle Rash, Scaley Eruption, Itch, and all diseased conditions of the skin.

MCGREGOR & PARKE'S CARBOLIC CERATE.—Have you and old Sore, Cut, Burn, Bruise, Corn, Bunion, Salt Rheum, Pimple, Blotches, Rough Hands or Face? If so, there is but one cure, namely, McGregor & Parke's Carboli Cerate. If you but try it, it will convince you. It costs but 25c. at the Drug Store.

A DOUBLE BENEFIT.—Harry Ricardo, of Toronto, certifies to the benefits received from the use of Hagyard's Yellow Oil as a cure for rheumatism and deafness, his affliction with these combined troubles being a severe one.

FEVER sore, unnatural appetite, fretfulness, weakness, and convulsions, are some of the effects of Worms in Children; destroy the worms with Dr. Low's Worm Syrup.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures Dysentery and Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP," and take no other kind.

MCGREGOR'S SPEEDY CURE.—When we say McGregor's Speedy Cure is the only perfect cure for Dyspepsia, Liver Complaints, Indigestion, and Impure Blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at the Drug Store.

MINERAL POISON.—Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for Colds, Coughs, Bronchitis, Croup, Asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances are avoided, which renders it safe for children or adults. Sold at 50c. at $1.00 per bottle at the Drug Store.

A PLEASANT DUTY.—"I fell it my duty to say," writes John Borton, of Desert P. Q., "that Burdock Blood Bitters cured my wife of liver complaint, from which she had been a chronic sufferer. Her distressing, painful symptoms soon gave way, and I can highly recommend the medicine to all suffering as she did."

NATIONAL PILLS are sugar coated, mild but thorough, and are the best Stomach and Liver Pill in use.

LADIES ONLY.—The complexion is often renbered unsightly by Pimples, Liver Spots, and Yellowness. These it is well known are caused from an inactive Liver and bad blood. Dr. Chase's Liver Cure purifies the blood and whole system. See Recipe Book for toilet recipes, hints and suggestions on how to preserve the complexion. Sold by W. Richardson.

ONE DOLLAR AGAINST FIVE HUNDRED.—Isaac Brown, of Bothwell Ont., was afflicted with chronic humor in the blood. He says one dollar bottle of Burdock Blood Bitters was worth more than $500.00 paid for other medicines. It is a reliable blood purifier.

NEW ADVERTISEMENTS.
