

P.S.

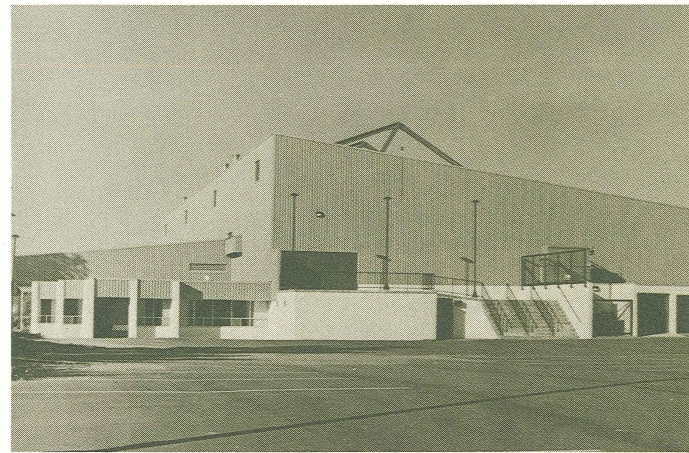

BURLINGTON'S BIG P.S... "STILL GROWING!"

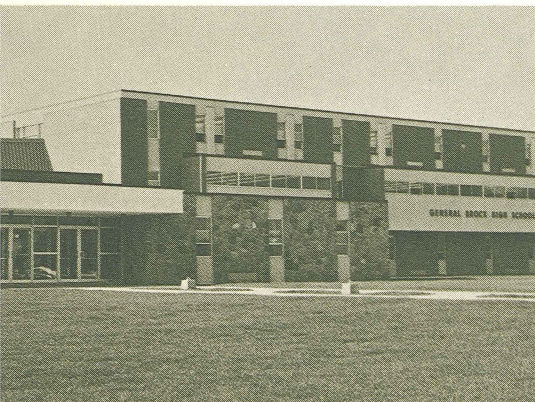

Burlington's exceptionally rapid growth makes it virtually impossible to present, in a brochure of this type, a completely up-to-date picture of the area's total-living environment. Almost before the ink is dry, new advances in cultural, educational and recreation facilities are taking shape on the architects' drawing boards. Hence this "P.S." page with some examples of the more recent additions to Burlington's "good-living" bonus. In total, they represent an impressive echo from the tempo of Burlington's industrial expansion . . . A record of progress evidenced by commercial, industrial and educational building permits totalling over \$7,750,000 for the first eight months of 1968.
