Fruit Crop Outlook Continues Bright

According to the latest official report showing the condition of fruit and vegetable crops throughout Canada, prospects for the fruit crops continue bright. All commercially-grown fruits in the Dominion have produced larger crops this season than in 1936, with the exception of pears and cherries. Substantial increases are reported in the production of apples, peaches, strawberries, raspberries, and grapes. Plums made a moderate gain, while the falling off in Ontario's pear production was not wholly offset by the increase in British Columbia.

Matured Earlier

As a result of the hot dry weather which prevailed in the Maritime Provinces, also in Ontario, crops matured earlier than usual and the export season for apples commenced about two weeks ahead of 1936. No major epidemic of disease or insect pests affected the quality of the crops and on the whole fruit was of a distinctly better quality than a year ago. Generally speaking, weather conditions throughout the season favored the normal development of the crops, although boisterous gales which swept Nova Scotian orchards in the early part of September shook a quantity of fruit from the trees and caused considerable loss.

for COLDS
Head Colds: Heat Minard's and inhale it. Chest Colds and Sore Throat: Heat, then rub well into affected parts.
Real relief . . . quickly!
MINARD'S "KING OF PAIN" LINIMENT

Canadian Eggs Become Important to British

Canadian eggs are becoming increasingly important in the British breakfast. Agriculture department officials predicted shipments to Great Britain this fall would be 1,250,000 dozen, a 37-per-cent. increase from 912,000 dozen last year.

The export season is from mid-September to the end of November. Up to last week 270,000 had been shipped.

Although exports to Great Britain are not large in comparison with those to other countries, Canadian eggs sell at a premium there. Saskatchewan, Manitoba and Ontario are the chief exporting provinces.

Phone Mouthpieces Fairly Harmless

Scientists Believe Users Not Likely to Pick up Disease

The chances are slim you'll pick up a disease from talking into a telephone mouthpiece, two scientists agreed last week after tabulating germs on 246 public and private phones.

In their 18 months' study Dr. Calvin B. Coulter and Dr. Florence M. Stone, research bacteriologists at Columbia University, New York, said they found as many germs on telephones in private homes as on those for public use in bar-rooms and restaurants.

To gather the germs they used glass lips designed to imitate the action of human lips speaking into a transmitter.

Although they found pneumonia and deadly streptococcus bacteria on the mouthpieces during certain seasons, the research workers concluded that the stagnant air of closed booths might prove more dangerous than the telephone transmitters in spreading the germs.

HAVE YOU HEARD

The proof is here:—

"Do you think there is any truth in the theory that big creatures are better natured than small ones?" asked the intellectual young woman.

"Surely!" returned the young man addressed. "Just look at the difference between the Jersey mosquito and the Jersey cow!"

Accepting an invitation to play on a golf course during a membership drive is as hazardous as inviting a book agent into the house for a social chat.

Doctor — "Great Heavens, who stuffed that towel in the patient's mouth?"

Patient's Husband—"I did, Doc. You said the main thing was to keep her quiet."

Mrs. Paul—"Daughters need discipline at times."

Mrs. Sam—"They certainly do. My Margery's 16, but only last night I had to send her to bed without breakfast."

Her Grace—"Your name is Evangeline, is it? Well, I shall call you Mary. That was the name of my last maid."

Maid—"Very well, ma'am, and I'll call you Mrs. Gogson. That was the name of my last mistress."

Patient—"Tell me the worst, doctor!"

Doctor—"No. I'll mail the bill to you."

Best sign of returning prosperity, says an exchange, is the customer's query of the storekeeper, "Is this the best you have?"

Customer—"How long will it take you to give me a shave?"

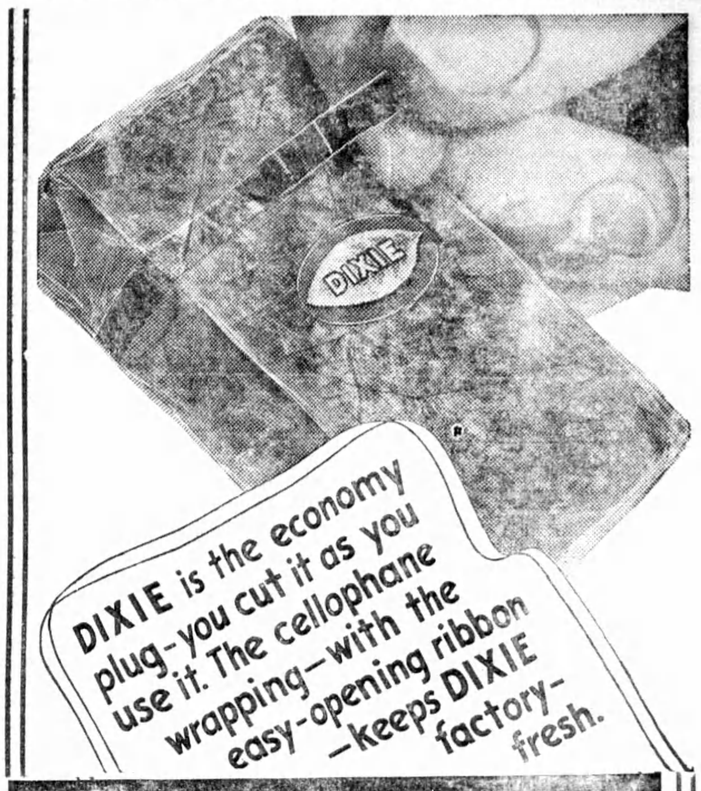
Barber—"Ten minutes, without a flaw."

Customer—"Holy smokes! What do you stand on?"

HOW'S YOUR STOMACH?

YOU lose vital nerve force if you allow your stomach to distress you. Acid stomach, indigestion, gas or biliousness and "costiveness" cause the blood to be poisoned and will eventually destroy health and nerve force. This is what W. J. Fisher of 4 Sanford Ave., N., Hamilton, Ont., said: "I suffered with my stomach, could eat but very little and that would cause distress. I grew weaker daily and suffered from headaches. My weight went from 176 to 134 pounds. I took Dr. Pierce's Golden Medical Discovery and was soon able to eat normally, I gained in weight and strength and could resume my work. The 'Discovery' made a well person of me." Buy now!

Issue No. 42—'37



"It's almost impossible for a girl to outstrip her mother these days—unless she joins a nudist colony.

"My, oh my, what's the country coming to! My neighbor is sending his son to a cooking school because the boy says he has the promise of a job in a drug store when he graduates."

Bank Cashier—"Mrs. Green, your account is overdrawn by $50."

Mrs. Greene—"My goodness! I'll give you a check at once."

Science should now try bouncing us back from the grave by devising a rubber telephone pole.

Office Boy—"I feel I'd like to punch the boss on the jaw again."

Stenographer—"Again?"

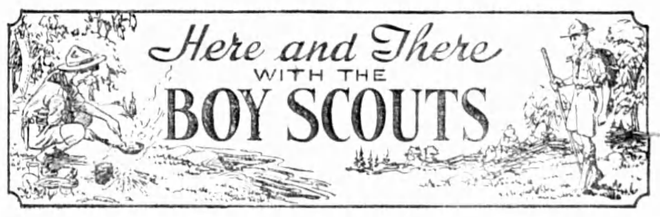
Office Boy—"Yeah, I felt like doing it once before today."

After listening to a lot of these newfangled "cowboy songs" on the radio, I understand why the range cattle used to stampede so often.

Daughter (looking up from her novel)—"Papa, in time of trial, what do you suppose brings the most comfort to a man?"

Papa (who is a newly appointed magistrate)—"An acquittal, I should think."

If horses' eyes were in their flanks where they could watch their load, most of them would balk claiming it was too heavy and they couldn't draw it.



After an address by District Commissioner Norman Kilpatrick and other leaders from Stratford and Seaforth, the Lions' Club of Goderich, Ont., decided to become sponsors of the Scout Movement in that town. It was emphasized that financial assistance was not required, but moral support and "fatherly interest."

* * *

An unplanned but successful "demonstration" at a district Scout field day at McLean's Ranch on Swift Current Creek, Sask., was the rescue from drowning of a small boy by Scout James Falconer of the Gull Lake Troop.

* * *

A hike of nearly 100 miles along foothill trails, fishing, camping amid snow in July and bathing in glacial streams at noon, were some of the experiences of senior Scouts of the 2nd Calgary (Christ Church) Troop this summer. The party hiked through the mountains west of Bragg Creek to Kananaskis Lakes, carrying their kits and supplies by pack train.

The Ontario Horticultural Association ribbon for excellent work done along horticultural lines was awarded the Boy Scouts at Thamesville, Ont., at the annual Flower Show of the Thamesville Horticultural Society. The boys won prizes in several gladioli classes. The blooms were grown from 200 bulbs given them by Vice-President R. R. Trudell of the Horticultural Society.

* * *

Attendance at the annual Niagara Peninsula District Scout Jamboree, held at Fort Erie, was considerably affected by the paralysis epidemic. Some 200 Scouts took part in the week-end program, with the Fort Erie Scout Troop carrying off major honors. In the athletic competitions the 1st Fort Erie Troop took the Niagara and St. Catharines Railway Cup and the Hugh McKeane Tug-of-War Cup, also the Fort Erie Lions' Club Trophy for Junior Scouting. The 2nd Fort Erie Troop for the second time, won the MacDonald Shield for General Troop Efficiency.

* * *

An International exchange of Boy Scout campers — four Canadian Scouts for four American Scouts—was one of the summer's camp news novelties. Four Montreal Scouts at Camp Tamaracouta were selected and sent to a Brooklyn camp in New York State for a two weeks' period, and four Brooklyn Scouts took the Montreal Scouts' places at Tamaracouta.
