A Rising Young Man.

From the Thornbury Standard.

Division Court was held here on Wednesday of last week as reported in our last issue. There were quite a number of cases. The legal fraternity was augmented by the addition in the person of Mr. W. H. Wright, a student in Mr. Pollard's office, Meaford. Mr. Wright created a very favorable impression here by his tact and ability shown in a case, Johnson vs. McKenzie. Mr. Wright has had some experience in Peterborough. Mr. Gamon had a great many cases, and Mr. Wright is looked upon as his compeer in Division Court cases. He is an affable offhanded young man, and we predict for him many more cases in our Division Courts in future..... Mr. Wright is a son of Mr. John Wright, of or near Flesherton.

A perfectly sound body and a mind unimpaired are possible only with pure blood. Leading medical authorities indorse Ayer's Sarsaparilla as the best blood purifying medicine in existence. It vastly increases the working and productive powers of both hand and brain.

Blakely—Sharp.

On the 4th of this month a happy company of people assembled at the residence of Mr. John Sharp, Artemesia, the occasion being the marriage of his daughter, Miss Grace Sharp, to Mr. Jos. A. Blakely, ex-Councillor of Flesherton ward and one of most stalwart and popular of Artemesia's sons. Rev. J. W. Shilton, B.A., officiated in his usual easy and happy manner. Mr. Geo. Blakely and Miss Annie Sharp performed the offices of groomsman and bridesmaid respectively. The costumes were handsome, the presents numerous, and everybody wishes the young couple all the happiness imaginable.

He Could Beat it.

Mr. Robt. McGruther is one of the smartest men we ever met, and withal a keen, shrewd, jolly good fellow. We have often yearned to hear of somebody who could go friend Robert one better on something. But have always been disappointed. Recently our Eugenia correspondence contained an item about the Latimer company cutting 35 cords of wood per day with their sawing machine. The other day Mr. McGruther told the writer that he cut that much per day easily with only one span of horses—from which we infer that the Latimers used two or more teams on their machine—and that he could cut quite a bit more than 35 cords if occasion called for it. Mr. McGruther gets there every time.

Death of Mr. Thos. Dunseath.

Through an oversight, we omitted to mention the death of Mr Thomas Dunseath, which sad event occurred on the first day of this month. He passed away at the early age of 30 years, esteemed and respected by all who knew him. He was born in County Antrim, Ireland, in the year 1857. Came to Toronto eight years go, and had resided six years in Artemesia at the time of his death. Was an old country Orangeman. He was a quiet, respectable gentleman, and followed farming when living. He made many warm friends wherever he went. His relatives—who chiefly reside in the old land—and all who knew him, sincerely mourn his loss. He was unmarried. Remains of deceased were interred in the Pleasant cemetery, on Yonge street Co. York.

A Profitable Ewe.

Mr. Purvis, of Eugenia, has one of the most profitable ewes in the country. Last year she was the mother of three lambs, and this season is the happy possessor of four, all doing well.

Ayer's Cathartic Pills are suited to every age. They are mild and pleasant in action, thoroughly searching in effect and, being sugar-coated, are easy to take. These pills never fail to give satisfaction.
