Strange Communities

Britain shelters a number of strange communities, one of which is the Cotswold Bruderhof, consisting of people from Liechtenstein, Holland, Sweden, Switzerland and Czechoslovakia. They are an industrious people, for they took over a barren plot of land and transformed it into a thriving village. Their marriage ceremony is one of the queerest in Britain, consisting merely of a declaration of love before the entire community!

In a forty-four-acre field near the woods at Laxton is another queer little community consisting only of four families who have rejected modern civilization and are trying to build up a new kind of social life that they hope will spread throughout the country. Suffolk, too, harboured a queer group of men, woman-haters all. Some were rejected suitors; the wives of others had left them and a few were just born misogynists.

Oldest inhabitant of Hamilton, Ontario, 109-year-old Mardioros Tatoian is having teeth trouble. His teeth are wearing down, he says, and causing him a lot of bother. However, he does not face a toothless future, because 6 years ago he cut 2 new teeth.

Poisonous Gases Dry Vegetables

Discoverer Finds They Make Vegetable Pores Relax and Give Up Their Moisture

A discovery that poison gases will dry vegetables quicker than heat alone, and speed up industrial use of many farm products, was announced last week in Science by the United States Bureau of Chemistry and Soils.

Little Heat Needed

Present commercial drying uses high temperatures. But heat, says E. F. Hopkins, of Laurel, Miss., discoverer of the poison gas process, causes decomposition and loss.

In poison gas atmosphere, however, vegetable pores relax. They become so "limp" that they lose even at low temperatures as much as 60 per cent. of their water and syrups when whirled in a centrifuge. Little heat is needed to evaporate most of the remaining moisture.

The gases tried for this purpose include chloroform, carbon tetrachloride, which is used in fire extinguishers, toluene, fat solvents and sulphur dioxide. The poisons did not "linger" afterward in the vegetable juices or flesh.

Keep Indefinitely

These experiments have been applied thus far only to the industrial and chemical uses of farm products. They may be used on food, but this Mr. Hopkins says has not been investigated.

The poison-extracted juices and pulps, Mr. Hopkins says, will keep indefinitely for future use or for manufacture. The dried plant can be stored "without material loss from freezing, respiration, moulding or enzyme action." The mechanical operations of drying with poison gas, he adds, are cheaper.

The possibilities have been shown in extracting starch and alcohol from sweet potatoes. The gas, Mr. Hopkins explains, saves the starch from physical and chemical changes before extraction. It has been found by the bureau that the sugars thus extracted from sweet potatoes can be converted into alcohol.

Increase in Population Demanded for Japan

TOKYO.—Baron Ryoitsu Asada, in interrogating the Welfare Minister in the House of Peers last week about the population problem, said:

"We must increase Japan's population. We must triple the population. It is a deplorable fact that young women of today are practicing birth control in the interest of beauty."

"This birth control philosophy is a tragic mistake. Japan must have more babies," Mr. Asada continued.

Australian Wool Sales Lowest In Six Years

Australian wool sales for the first six months of the 1937-38 selling season, covering the last half of 1937, dropped to the lowest level for any like period in more than six years, the New York Wool Top Exchange Service reported.

Transactions, as reported to the service by the Australian National Council of Wool Selling Brokers, totaled about 366,238,000 pounds, actual weight. This compared with 436,265,000 pounds in corresponding period of the previous year and a six-year average of 424,503,000 pounds.

A four years' scholarship at Ottawa University given by the Knights of Columbus was won by Rover Scout Vincent Berlinguette, a member of the 29th Ottawa (St. Dominique) Rover Scout Crew.

Northern snow and zero temperature did not prevent an enthusiastic January conference of Gold Belt Scout leaders from Cobalt, Iroquois Falls, Englehart, Kirkland Lake, Kapuskasing, South Porcupine and Timmins at the latter city. Their roll of forty was augmented to a hundred by Group committeemen and other friends and supporters of the Scouting movement in New Ontario, for a full week-end of discussions and demonstrations.

With the approval of His Excellency the Governor General, Lord Tweedsmuir, Prince Edward Island's new permanent Boy Scout camp site will be known as "Camp Buchan." The site was the gift of Lieut.-Governor George D. DeBlois.

With 13 King's Scouts, the 5th Welland Scout Troop claims the distinction of numbering the highest Ontario total of these senior Scouts for 1937, as shown in the census figures. The 1st Weston Troop comes next with 10, and the 1st and 3rd Fort William troops next jointly with 8 each in a membership of 24. These troops are followed by the 6th St. Catharines, with 8 King's Scouts in a roll of 29, the 10th Toronto (Wychwood), with 8 out of 54; 56th Toronto with 7 out of 23, 1st Niagara-on-the-Lake with 7 out of 30, the 26th Toronto with 7 out of 40 and 10th Brantford with 7 out of 42.

Boy Scouts of Longsight, Manchester, England, helped prevent a panic during a local church service when fumes from a boiler filtered through the floor and caused several persons to collapse. The Scouts present in the congregation promptly opened the doors, then rendered first aid to a number of persons who had been overcome.

Prevention of a fire panic at a largely attended free Christmas week entertainment for children at the Oak Theatre, Brandon, Man., was credited by Manager D. B. Roberts to four Rover Scouts whom he had invited to assist in ushering the children. When smoke entered the auditorium and the alarm of fire was given, the Rovers at once acted to quiet the children, kept them from crowding the aisles, opened the emergency exits, and marshalled them safely out. A final search through the smoke-filled theatre made sure that no children were overlooked. "The theatre was cleared in a remarkably short time," stated Manager Roberts, "and what might easily have become a serious panic was completely avoided." The Rover Scouts were Arthur Wilcox, Donald Thompson, Ted Speers and George Milliken.

Along Canada's Mining Highway

EAST MALARTIC (Quebec). Underground work on the first level has definitely proven a length of 800 feet of ore, with recent grade averaging $10 according to engineering advice. Diamond drilling indicated an average ore grade of between $7 and $8 across an average width of 25 to 30 feet in a zone length of approximately 900 feet. It is generally conceded that East Malartic is a large mine in the making. Official announcement has been made of preparations for a 500-ton mill.

BARBER LARDER (Ontario-Larder Lake) are expected to be into their ore on the first level by early April. On this property an exceptional ore picture has been indicated by diamond drilling. An ore zone has been close drilled indicating average widths of better than 30 feet grading $7 to $8 over a length of approximately 800 feet.

LACOMA (Quebec-Seneterre area) is aggressively unfolding an ore picture by diamond drilling from the first and second levels. Exceptional results are being obtained. A definite length of good ore for 140 feet has been close drilled in a zone indicated on surface to be 1400 feet in length.

CHEMINIS (Ontario - Larder Lake). After earlier work indicating a 600-foot length of commercial ore, a further diamond drilling contract has been made with the object of enlarging the ore zone. The property is adjacent to the west of Barber Larder and adjoins Fernland on the East.

A Dresden, Germany, musician recently invented a music writing typewriter.

HAVE YOU Stomach Upsets?

IF you are troubled with gas, sour stomach, heartburn, if you are weak and lack appetite, try Dr. Pierce's Golden Medical Discovery now. It stimulates the appetite, improves the action of the stomach, makes the food digest better. Read what Mr. Clarence House, 53 Main St., St. Catharines, Ont., said: "I had no pep, had to force myself to eat and after eating I would belch gas and had acid indigestion and heartburn. I had sour stomach quite a bit, too. I used Dr. Pierce's Golden Medical Discovery and it helped to relieve the stomach upsets and gave me a real appetite and I was able to eat almost anything." All druggists.

STOP Scratching
RELIEVE ITCHING *In A Minute*

Even the most stubborn itching of eczema, blotches, pimples, athlete's foot, rashes and other skin eruptions, quickly yields to Dr. Dennis' cooling, antiseptic, liquid D. D. D. PRESCRIPTION. Its gentle oils soothe the irritated skin. Clear, greaseless and stainless—dries fast. Stops the most intense itching instantly. A 35c trial bottle, at drug stores, proves it—or money back. Ask for D. D. D. PRESCRIPTION. 29

Fruit Salad Tree

A farmer in Orleans, U.S.A., owns a tree from which he can gather 78 varieties of fruit. He planted it as a seedling, and then began grafting experiments to see how many different fruits he could get from it. Last year it yielded 70 different kinds of apples, five of pears, and three of crab apples.

Maple Syrup Evaporators Makes real high class syrup, retaining the maple flavor you like so much. Evaporators that will make profitable your maple bush for a small investment. Write for catalogue of equipment. It is interesting.

RUN-DOWN?
IT'S YOUR NERVES

It is usually when your nervous balance is upset that you feel low in health and spirits. Restore that balance by feeding your starved nerves. Take PHOSFERINE. You'll feel better almost at once. At druggists, 50c, $1.00 and $1.50. 70

PHOSFERINE THE GREAT NERVE TONIC

I WAS NEVER SO EMBARRASSED
-FOR I KNEW THAT ACID-INDIGESTION WAS DISTRESSING TO ME AND OFFENSIVE TO OTHERS
***BUT NOW*—I JUST ALKALIZE THE EASY *PHILLIPS'* WAY**

The quick way to alkalize is this: Take two teaspoons of Phillips' Milk of Magnesia 30 minutes after eating and drinking. Or, when among others—*take two Phillips' Tablets* that come in a small flat tin you carry in purse or vest pocket.—You do it unnoticed.

Relief is almost immediate. "Gas," nausea, acid breath and other offensive symptoms leave.—That "stuffed" feeling and pains from "acid indigestion" cease to annoy. You feel great.

This is the way, we believe, more doctors use than any other when alkalizing upset stomach.

MADE IN CANADA

Rapid Relief from RHEUMATIC PAINS

In the ordinary way the victim of Rheumatic Pains has become too hardened by long suffering to expect lasting relief. Nevertheless, one feature of the Fynnon Salt treatment that has astonished Rheumatic sufferers is the surprising rapidity with which it brings relief. Prepared to be patient, they are amazed to find that within a week their rheumatic symptoms no longer make life utterly miserable.

The active ingredients in Fynnon Salt, Sodium, Potassium, Lithium, have a "quick-action" effect on the Uric Acid. They counter it and neutralize it at every turn. First the attack—then the victory. Uric Acid has a very short life when Fynnon Salt, a combination of Natural Salts of the Earth, gets to grips with it. What a relief—when you realize you can swing your arms and legs with the supple freedom of youth. That's the happy state you soon get into when you take a half teaspoonful of Fynnon Salt, the proven British remedy, in a tumblerful of water every morning. Get a large 75c package from your druggist and start your "quick-action" treatment tomorrow. If you have any difficulty getting supplies, write: Laurentian Agencies, St. Gabriel St., Montreal, 9

MAKE YOUR LIVER Produce its bile

Your liver has a big job to do. Make it do what it is supposed to. Its job is to produce 18 to 36 fluid ounces of bile every day and send it through the system. If it fails down on its job you suffer. AND HOW!

The most effective stimulant for the liver known to medical science is calomel, which in small doses is of the highest use in congestive conditions, especially those due to overeating, over indulgence in alcohol, lack of exercise, etc. Tanol Tablets contain a certain proportion of calomel, blended with cascara and other medicines. They are mild and harmless. But your liver understands and takes the hint. For sale at all druggists, 50c.
