

# *Tops Air Class With Record 98 'So Far From Anywhere' Is Why*

Leading Aircraftman Bruce Garlick of Kingswood Rd. is home today from Victoriaville, Que., where he passed his R.C.A.F. initial training course at the top of his class with 98 per cent. This is believed to be the highest standing attained in any I.T.S. operating under the commonwealth air training plan.

He is a son of Mr. and Mrs. H. S. Garlick and is a graduate of Malvern collegiate. Before going to Victoriaville he was a member of the precision drill squad at Lachine manning depot.

He says he believes his high standing is due to the fact the school is located "a long way from anywhere."

His only worry today at having topped his class is "all this publicity." All men are warned not to talk about their training lest it be of use to the enemy.
