MRS BULMER

Farm for Sale Cheap.

Lot 16, concession 1?, township of Osprey, clear of incumbrance; 65 acres, 65 cleared, balance hardwood bush; in good state of cultivation, clear of noxious weeds; good frame barn and stables under, 40x60; a good house 30x26, 2 storey, under storey stone, upper frame, well finished, a good frost proof cellar; woodshed 26 x30, a 15-barrel cistern and never-failing well and pump in good order, all under roof; plenty of water for stock in pasture. Terms of sale, $500 cash, balance to suit the purchaser, 5 per cent. on balance. My reason for selling is illness, and the place must be sold. There is an orchard of about 1½ acres and between 5 and 6 acres of fall wheat. School ¾ mile, churches within 1 or 2 miles; about two miles from Feversham. Apply to the owner by letter or on the premises.
JOHN SPEERS,
Feversham, P. O. Ont

Adulteration in Canada.

Some objections may be made to legislation in Canada to require all imitations of woollen goods to be marked so as to show the constituent fibres and other materials and the relative proportions of each. As an epitome of the Grosvenor Bill, introduced into the United States House of Representatives, the following extract may be quoted :—"All manufacturers of goods or fabrics of any kind whatever made in intimation of woollen goods or fabrics, or goods which when so made are calculated or intended to be sold as woollens or woollen goods, not made wholly of new or unused sheeps' wool, shall so mark, label or tag such goods, as that they may be readily distinguished from genuine wools, or woollens, as defined in the first section of this Act. That such mark, label or tag shall be so attached, as that it cannot be detached except by design, and such label shall accurately state in plain printed letters and figures the constitutent fibres or other materials or substances of which it is composed, or the relative proportion per cent, of each."

Why should not legislation along the above lines be enacted in Canada ? There is surely good precedent for such action. Take for instance the various laws already on the statute book in reference to dairy products. Let me quote : (a) No oleomargarine, butterine, or other substitute for butter shall be manufactured in Canada or sold therein, and every person who contravenes the provisions of this Act in any manner whatsoever, shall incur a penalty not exceeding four hundred dollars, and not less that two hundred dollars, and in default of payment shall be liable to imprisonment for a term not exceeding twelve months and not less three months. (b) No person shall sell, supply or send to any cheese, butter or condensed milk factory, or to the owner or manager thereof, or to the maker of butter, cheese or condensed milk factory, or to the owner or manager thereof, or to the maker of butter, cheese or condensed milk, to be manufactured, milk diluted with water, or in any way adulterated, or milk from which any cream has been taken, or milk commonly known as skim milk. (c) No person shall manufacture, or shall knowingly buy, sell, offer or expose for sale, or have in his possession for sale any cheese manufactureed from or by the use of skim milk, to which there has been added any fat which is foreign to such milk. (d) No person shall sell, offer, expose or have in his possession for sale any cheese manufactured from or by the use of milk commonly known as skimmed milk, or milk from which cream has been removed, or milk to which skim milk has been added, unless the words "skim milk cheese," are branded, marked or stamped in a legible manner upon the side of every cheese, or package which contains the same in letters not less than three quarters of an inch high and three quarters of an inch wide. (e) No person shall sell, offer, expose or have in his possession for sale any butter or cheese made in Canada and destined for export therefrom, unless the word, "Canadian," "Canadien," or "Canada" is printed, stamped or marked in a legible and indelible manner, in letters not less than three eights of an inch high, and one quarter of an inch wide upon (1) the box or package containing the butter or cheese ; (2) and moreover in the case of cheese, upon the cheese itself, before it is taken from the factory where it was made. (f) No person shall knowingly sell, offer, expose or have in his possession for sale, any cheese or buttter upon which such butter or cheese was made ; and no person shall knowingly, and with intent to misrepresent, sell, offer, expose or have in his possession for sale, any cheese or butter represented in any manner as having been made in any month other than the month in which it was actually made."

In the United States where the business of manufacturing oleomargarine, butterine and other imitations of butter has grown to immense proportions, legislative action has recently been taken to prevent such imitations sold as butter. It required a long and determined fight on the part of the American farmers to secure the passage through Congress of the so-called "Grout Bill," as every influence was brought to bear by the powerful incorporations interested in the manufacture of adulterated dairy products. The chief provisions of this Act is "That upon oleomargarine which shall be manufactured or sold or removed for consumption or use, there shall be assessed or collected a tax of ten cents per pound, to be paid by the manufacturer thereof, and any fractional part of a pound in a package shall be taxed as a pound, provided, when oleomargarine is free fram artificial coloration that causes it to look like butter of any shade of yellow, said tax shall be one-fourth of one cent per pound."

Manufacturers of, and dealers in renovated butter and adulterated butter are required to pay special yearly taxes, and each pound of the former is subject to the tax of one fourth of one cent and each pound of the latter to the tax of ten cents per pound. Stringent regulations are in force for the purpose of compelling dealers and manufacturers to sell these adulturated goods for just what they are.

Why should not adulterated woollen goods be sold on their merits just as imitation or adulterated dairy products are? Some people may consider such legislation harassing, but as John Bright once said, there are people in the world who think the ten commandments the most harassing legislation that was ever enacted, because they seem to run counter to their own pecularities so often.

F. W. HODSON,
Live Stock Commissioner.

Dying by Slow Degrees

Although not always aware of it yet thousands die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spreads all through the system. Catarrhozone is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the inhaler kills thousands of germs, clears the throat and nose, aids expectoration and relieves the pain across the eyes. Catarrhozone erradicates every vestige of catarrh from the system, and is highly recommended also for bronchitis, asthma, deafness and lung trouble. Price $1.00; trial size 25 cts., all druggists. Polson & Co., Kingston, Ont.

Ezekiel Roberts, an old and esteemed resident of Egremont, dropped dead on his farm, 12th con., while walking from his house to the barn in the morning.

Samuel Sheardown, of Proton, has been spending some days with relatives in this vicinity. Mr. Sheardown is a native of King township but has been living in Proton many years, where he has accumulated much of the world's goods.—Bolton Enterprise.

James Ingles, of the south line, Osprey, met with a very bad accident on Wednesday of last week while assisting in the the threshing of his grain. He was standing on a beam in the barn when he lost his balance and fell backwards to the floor twenty feet below, breaking the bones of his right forearm and right thigh and receiving other injuries about the head and face. Mr. Ingles is doing as well as can be expected.

W. C. Patterson, of Walkerton, who was out on bail on a trial of bigamy, was found on the roadside in Durham Wednesday morning, by Wm. Johnston, manager of McKechnie's mills. Nothing is known as to the cause of his death. His clothing was wet as if he had fallen into the water, but there was no sign of liquor, and, as he had $95 in his possession his exposure was not from necessity. The body is lying at the town hall, Durham, awaiting the arrival of Coroner Gunn, who is out of town. Since Paterson was placed on trial he is thought to have become somewhat demented.

Some weeks ago Provincial Constable C. C. Pearce was driving his well known horse, Mongolian, along a road in Proton township, a municipality not noted for its good roads. He had however, been driving along a fairly good stretch when he came to a swamp. The bed of the road through this consisted of poles—a sort of corduroy arrangement by which the travellers are tided over to better driving some distance beyond. Heavy rains had fallen and the poles floated, and it was into this that Mr. Pearce's horse stepped. The poles tripped the animal and it fell on a stake which entered its side. The horse was sent home by rail and Mr. Pearce asked for a settlement. The township refused, and Mr. Pearce threatened an action. As a result the council forwarded him a cheque for fifty dollars last week. and the proposed lawsuit is declared off.—Owen Sound Times.

Thursday evening last Mrs. H. Gilbert, wife of the postmaster and general merchant at Mansfield, was sitting at an organ playing in her own house in the rear of the store when two children, in a little scuffle over the possession of a slate, accidentally upset the lamp on the table. The oil ran over the floor and ignited. and Mrs. Gilbert endeavored to extinguish the flames, with the result that her own clothing took fire under her skirts and she ran into the store, meeting her husband in the doorway. He, not knowing the dire distress his wife was in, ran off where the flames were making rapid head way in the house, and with the assistance of a customer who was in the store at the time, managed to extinguish the fire. The poor woman had by this time fallen on the floor of the shop, and when her garments were removed she was found to be horribly burned. Dr. Alway, of Everett, and Dr. McCullough, of Alliston, were called, but the unfortunate woman died about one o'clock Monday afternoon, after suffering intense pain. She leaves three children, the youngest of whom is about seven years of age.—Shelburne Economist.

CONSUMPTION Prevented and Cured.

Four marvelous free remedies for all sufferers reading this paper. New cure for Tuberculosis, Consumption, Weak Lungs, Catarrh, and a rundown system.

FREE.

Do you cough?
Do your lungs pain you ?
Is your throat sore and inflamed?
