THE STORY OF A PRISONER.

H. S. BARNES, OF RAT PORTAGE, TELLS OF THE TRIALS OF THE EARLY SETTLER

Suffered Terribly From Kidney Complaint, but Was Speedily Relieved and Cured by Dodd's Kidney Pills.

Rat Portage, Ont., Dec. 1.—(Special)—Everybody in Rat Portage knows H. S. Barnes, father of a former mayor, and one of the oldest inhabitants of the metropolis of New Ontario. Though seventy-nine years of age, Mr. Barnes looks younger than many men of many fewer years, and is possessed of wonderful vitality and activity.

A pioneer of this district, Mr. Barnes tells many tales of early life in the wilds of New Ontario, but none more interesting than the following:

"I was terribly troubled with Kidney Complaint. I suffered severely with pains across my back, and with a scalding, burning sensation when urinating that was very painful.

"Though I had little faith in proprietary medicines, I had a box of Dodd's Kidney Pills in the house that I had procured for my wife, and commenced taking them with good effect.

"It was not long till my acquaintances started to greet me on the street with 'Hello, Mr. Barnes, how young you are looking.' They were not astray. I felt smart too, and feel younger and in better health than I have been for years. My Kidney Complaint was completely cured by Dodd's Kidney Pills."

The houses in England, if placed in a straight line, would form a street with houses touching one another on both sides, nearly 14,000 miles long.

HOW ADVERTISING GROWS.

N. W. Ayer & Son, the "Keeping Everlastingly At It" Advertising Agents, of Philadelphia, have found it necessary to move into new and larger quarters at 300-308 Chestnut street in that city. This announcement will interest many publishers, because Ayer & Son are so widely known as promoters of newspaper publicity. They began business thirty-three years ago, with two people and an annual business of $15,000. They now have one hundred and ninety employees, and have for years done the largest advertising business in the world. The difference between then and now is, they say, simply the result of making newspaper and magazine advertising pay their customers.

QUITE PROFESSIONAL.

A good story is told of an eminent K. C. By the way, very many good stories are told about him, but this is a new one.

One morning when he entered his office his clerk rose and said:

"Sir a gentleman has just left here who wants you to undertake a case for him."

"Ah! and did you collect the regular retaining fee?"

"I only collected twenty-five guineas, sir."

The regular fee was fifty guineas, and the great advocate said:

"But that was unprofessional; yes, very unprofessional."

"But, sir," said the clerk, apologetically, and anxious to exonerate himself from the charge, "I got all he had."

"Ah! said the other, with a different expression, "that was professional; yes, quite professional."

Jorkins — "There's Perkins — you know Perkins? — entered into an agreement with his wife soon after their marriage, twenty years ago, that whenever either lost temper, or stormed, the other was to keep silence." Bob — "And the scheme worked?" Jorkins — "Admirably. Perkins has kept silent for twenty years."

Gentlemen,—My three children were dangerously low with diphtheria. On the advice of our priest my wife began the use of MINARD'S LINIMENT. In two hours they were greatly relieved, and in five days they were completely well, and I firmly believe your valuable Liniment saved the lives of my children.

BRITONS WED BOER WOMEN.

Britons making South Africa their home are marrying Boer women. Two of these unions have just taken place at Port Elizabeth. The bridegrooms were stalwart members of the South African Constabulary and the brides genuine Boer maidens, who, with their imperfect knowledge of the English language, had some difficulty in getting through the marriage service. But this little hitch was overcome, and the girls looked happy as they drove away in their wedding carts. The vehicles were decorated with yellow ribbon, the ex-Free State color, while the horses were adorned with red, white and blue.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.
