Our teachers are attending convention in Durham to-day and to-morrow.

Messrs. Whitten & Blair now have their forge in running order, with Mr. Rumball presiding at the anvil.

We are glad to welcome a communication from our old friend, Mr. J. R. Anderson of Moosomin. Mr. Anderson always has something interesting to say and says it in an interesting manner.

A re-arrangement has been made in the mail carrying contract between this village and the station, and Mr. Crossley is again in full possession. He took over the business from Mr. Clayton on Friday last.

M. Richardson, reeve of Artemesia, left yesterday (Wednesday) for Ottawa, where a deputation waits upon the government to-day to urge for a refund of the railway bounses. May success crown their efforts.

Attention should be paid to the black knot on plum and cherry trees. At this season all diseased trees should be destroyed in order that those not already affected may be saved. Any owner or occupant who allows any black knot to remain on any plum or cherry tree shall be liable to a fine of not less than $5 nor more than $20.

The general spring jail delivery has taken place at Owen Sound, and on Wednesday last old Joe Miller came booming into town on his annual excursion to spend the summer with friends out Osprey way. He had walked all the way without eating anything. One of our benevolent citizens filled his cavity and Joe hustled along over the hills towards the rising sun.

We publish on our inside pages this week an interesting illustrated article on the mastodon and mammoth, with special reference to the skeletons secured by Mr. John Jelly, of Shelburne. Those who viewed the bones which Mr. Jelly exhibited here two years ago will now be able from our illustration to learn exactly what the animal looked like in life.

See-Saw.

First one end up and then the other. The original agreement between Mr. J. E. Moore and Mr. Lever for exchange of properties has at last been conpleted, the papers having been signed on Saturday last. Mr. Ed. McNea will take possession of the furniture and undertaking business on June 1. Mr. Moore will fit up his property at the station for a furniture and sash manufactory. He and his family will not part company with their Flesherton friends for a time and everyone hopes it will be a long time ere they do.

Garden Party.

A garden party will be held on the spacious lawn of Mr. Thos. Kells on the afternoon of May 25. Flesherton brass band will be in attendance. Proceeds in aid of Meaford Road Methodist church.

A Narrow Escape.

On Monday last a little 3-year old son of Mr. McMicken implement agent, had a very narrow escape from drowning in the well at the Boyne bridge. The little fellow had, unknown to his mother, taken a small pail and gone to the spring for water. After some time his mother missed him and some instinct prompted her to run to the well, where she found the child head first in the water with his feet sticking in the air. Hastily taking him out it was found that he was still conscious, and restoratives soon brought him around.

Church News.

Mr. R. Keefer occupied the Methodist pulpit on Sunday morning last.

Special loyal services will be held next Sunday in the Methodist church, it being the anniversary of the birth of "our most gracious soverign."

A Pretty Immigrant.

An immigrant of an extremely desirable class has lately made his appearance in Flesherton. He is a Baltimore oriole and his Latin name is Icterus Baltimorii. We heard his clear, flute-like notes in the park for the first time last week, and spent a few minutes underneath the tree on which he sang, admiring his lovely plumage and wishing that he would impart to us the secret as to where he intended building his curious nest. It will be hitched on to the end of some swaying branch, and will be woven in the highest style of oriole art, safe from all harm, impervious to wet and enemies of all kinds—with the one exception of man. Since the advent of the pugnacious sparrow many of our finest song birds are becoming scarce, the robin alone holding his own. It is refreshing to receive a visit from Sir Oriole, and we willing grant him the freedom of our park for the entire summer. This also applies to Mrs. Icterus should she arrive. We have not seen her as yet.

Business Tactics.

The fair, honest, upright business man is the one who makes a success of life, and leaves his unscrupulous rival in the rear. It has been said that no business man can do a strictly honest business and live. It has also been said that an editor cannot be a success if he tells the truth at all times. Both of which we believe are absolute falsehoods. Sometimes the business man makes a mistake and does things which he is afterwards perhaps sorry for and suffers for, and in some cases he commits such deeds so often that his business is crippled and he goes to the wall. Not long since we had occasion to order some groceries, and the boy who purchased them was stopped on the street by another merchant, who demanded information as to what he had and the price paid. Not receiving a satisfactory reply he snatched the bill of goods from the boy and perused its contents to his heart's content! This is what we call the height of impertinence, and a business tactic of a very low order indeed. It was a most unscrupulous way of discovering the prices at which a business rival sells his goods, and we refer to it because we do not wish to hereafter be made the medium of supplying such information, and we trust the individual interested will take the hint.

Sports.

What about summer sports for this town? Athletics appear to be at a very low ebb just now. The baseball bats are hiding themselves in sorrow and are attacked with ennui. The ball itself is rusting in some corner for want of practice, and the young men are doing the same. Lacrosse is nowhere, and cricket is not fashionable. We believe the young men of this place have scarcely enough ambition to drink tea at a garden party, although this latter may be a slander, and we hope it is. If all sports of the above nature are to be discarded this season, let us suggest that a bicycle club be formed. We understand that there is a second hand machine for sale in town. Suppose a syndicate be formed to purchase it to use as a practice wheel. Such a course would at least be enthusiastically greeted by our practising physicians, and would also create a little "divarshun." For goodness sake let the young men get up something to keep their muscles from rusting.

Principal Grant will lecture in Owen Sound to-morrow (Friday) evening, on "Imperial Federation."

The Wise Savants

Tell us that Rheumatism is a blood disease; that it can be cured only by a remedy which works through the blood. And yet, if you have the darting pains of Rheumatism in muscles or joints, try a little of Clark's Lightning Liniment. It will go direct to the seat of pain and relieve it at once. There is no waiting weeks and months until the disease can be attacked through the blood. This seems to be contrary to scientific claims, but it is true that Clark's Lightning Liniment will cure Rheumatism. Sold by druggists; price fifty cents. Clark Chemical Co., Toronto, New York.
