County or District Auction Sales

In many districts of Great Britain auction sales of live stock have been held annually for years. Large numbers of pure-bred animals for breeding purposes have been marketed in this way, besides a great many store cattle and other animals. In several provinces of the Dominion, provincial sales of this kind have been established with satisfactory results and have created a feeling in favor of county or district sales. There are hundreds of farmers throughout Canada who raise yearly from one to four good breeding mares. Many of these men understand the principles of stock breeding and have from time to time bred noted show yard specimens. Yet the progress and profits of these men has been greatly hampered because of their inability to sell their surplus stock promptly. In some years they have been able to sell; in other years they have had to keep a number of animals longer than their means or feed warranted. On the other hand many farmers desire to obtain suitable breeding males, but do not know where to buy what they want at a reasonable price. The cost of travelling from place to place in search of suitable animals deters them from purchasing at all.

With the idea of bringing buyers and sellers into touch with each other, a number of breeders of pure bred cattle in Durham, Northumberland and adjacent counties last year formed the "Central Pure Bred Stock Association," and started a series of annual auction sales. Their initial sale was fairly satisfactory and they are now arranging for their second sale, which is to take place at Campbellcroft on the 18th of March next, with J. W. Martyn of Canton, as President, and W. B. Campbell of Campbellcroft, as Secretary of the Association.

There are many other counties and districts that would find it beneficial to inaugurate sales of this kind, and as a guide to breeders interested in the subject, the rules governing the Central Ontario sale are given below:—

1 A committee of three will be appointed to inspect entries, value same, confer with contributors and reserve the right to either withdraw from sale or accept the bid offered.

2 All animals must be registered in their respective herd books.

3 Each animal to be in good condition and well halter broken.

4 All entries must be made with the Secretary on or before Wednesday, Feb. 18th, 1903.

5 An entry fee of $2.00 to accompany each entry, same to be returned if animal is sold:

6 A charge of 3 per cent. on the sale price will be made to cover expense of sale.

7 All entries to be in place not later than 11 a. m. on the day of sale. to be numbered for sale, and for inspection of intending purchasers.

8 Each animal when sold becomes the property of the purchaser.

9 Terms for sale, cash.

10 All settlements to be made with the Clerk on the day of sale.

Ringing in the Ears

This is an unfailing sign of catarrh, and if not checked will ultimately result in deafness. The simplest remedy is Catarrhozone, which if inhaled a few times daily, prevents the catarrhal condition from spreading. Catarrhozone quickly stops the ringing in the ears, head noises, gives permanent relief to catarrhal deafness. For catarrh in any part of the system, bronchitis, asthma, lung or throat troubles, Catarrhozone is a specific, and is guaranteed to permanently cure or your money back. Large size, $1.00; trial size 25c. Druggists or Polson & Co., Kingston Ont.

CONSUMPTION

Feeding Hens Sawdust

This is not a bulletin issued by the Ontario Agricultural college. It is a personal experience.

A friend of the writer who is not addicted to hard work, wished to make some money in the easiest possible way. The idea occurred to him that if he would start a hennery, the hens could lay the eggs, the children could gather them and he would exert himself enough to market them. After he had secured some hens it dawned on his bright intellect that he had not taken into consideration the question of food for the fowl. If he had to buy that it would make great inroads on the gross profits of the buisness. He therefore bought a small batch of second rate wheat, went to a sawmill near, and gathered a sack of sawdust, which he toted home. He then began feeding the fowl a mixture of wheat and sawdust, at first putting in but a small portion of the cheaper commodity, but each day decreasing the quantity of wheat and increasing the quantity of sawdust until the wheat was entirely abandoned and those overworked hens had a regular diet of sawdust three times a day. Strange to relate they seemed to thrive amazingly.

About the time that he had taught the hens to live exclusively on sawdust, he realized that he could make more money by incubating the eggs and marketing broilers. Accordingly as soon as he could persuade one of the hens to set he put 13 eggs under her. He then awaited the process of incubation, which though slow was sure of results.

On the expiration of the requisite number of days, he repaired to the smokehouse where he had installed mother hen and yanking her off the nest discovered that the hen had performed her part well.

The eggs had hatched out 2 clothespins, 9 croquet balls and one jumping jack.

Nervous and Sleepless

There is just one cure and that is plenty of food for the blood and nerves, which is best supplied in Ferrozone, than which no blood builder, nerve tonic or strength producer is better. Ferrozone prompts healthy digestion, which results in improved nutrition. The blood grows rich and red, furnishes stability to the entire system, and the store of nerve force and energy increases daily. A rebuilding of the constitution, new spirits, health and strength, all come from the use of Ferrozone. This marvelous renovator is sold by Druggists for 50c. a box or six boxes for $2 50. By mail from Polson & Co., Kingston, Ont. Sold by W. E. Richardson.

A curious freak in the animal kingdom was secured by Vet. Sur. Simon West a few days ago, a cow belonging to Paul Cooney having given birth to a calf which bears a strange resemblance to a pig. The face and head have the features of both; the fore part of the body is natural like a calf, while the hind part of the body and legs are decidedly pig. It is a strange mixture and Mr. West will have it preserved.—Madoc Review.

Beauty and Utility

Though worn as a necessity, a beautiful eye glass artistically fitted is a facial ornament.

We will fit you with a frame best adapted to your features.

W. A. Armstrong,

JEWELER AND OPTICIAN.

FLESHERTON.

One so freqtently reads of the paternal boot as applied to the undesirable youthful suitor that it is a pleasure to chronicle the more humane method, adopted by a wealthy Glasgow merchant for choking off a "follower" of his daughter. The girl was very young and so was the follower, but nevertheless he called formally on the object of his affections. The merchant and his wife entered the room, the latter bearing a glass of milk and a huge slice of bread, spread with butter and jam. "Now dear, run away to bed," said the kindly mother to her daughter; "It's time all good girls should be in bed." Then the Glasgow merchant addressed the astonished young man:—"Now youngster you drink that glass of milk and take that slice of bread and jam to eat on your way home—and hurry for your mother must be anxious about your being out so late by yourself." The young man did not call again.

Mrs Laidlaw, of Primrose, celebrated her 100th birthday on Monday last week. This remarkable old lady is in good health and is still in possession of all her faculties. Mrs. Laidlaw has lived to see her great-great-grandchildren.—Shelburne Free Press.
