A PRISON NEWSPAPER.

The "Star of Hope" newspaper is published twice a week in the famous Sing-Sing Prison of New York. Its contributors, editors, artists, compositors, and publishers are the convict inmates. From beginning to end the work is carried out solely by the prisoners. The first issue appeared three years ago, and the journal is now acknowledged to be one of the most educational and reformative factors in Sing-Sing and its four subsidiary institutions.

CANADA'S EXPORTS.

Canada produces one bushel of wheat to thirty bushels grown elsewhere in the world. Notwithstanding this fact, Canada is by far the largest exporter of agricultural implements in the world, her population being taken into consideration. During the past seven years the exports of Canadian Implements have reached the vast total of ten millions of dollars, or equal to the export of twenty million bushels of wheat grown in the great Northwest at fifty cents per bushel. These facts should certainly establish in the minds of all thinking farmers the excellent quality and the high reputation which appertain to Canadian-made implements. Canadian implements are exported to every country in the world where grain is grown, except to the United States. That market is a sealed book to Canadian implement manufacturers as well as to the Canadian farmer, for hardly any of his products find a market there, while the aggressive American is competing all over the world, and in Canada, too, for every inch of ground now held by the Canadian farmer and manufacturer.

Don't you think it would be to your own advantage, as well as to the advantage of Canada as a nation, that articles should be grown and made at home that are consumed by the Canadian people? Think the matter over, and see whether it is not your duty to work for this end.

There are 1,330 public buildings in Berlin. Of these the State owns 833, and the municipality 497.

Holloway's Corn Cure is the medicine to remove all kinds of corns and warts, and only costs the small sum of twenty five cents.

"Spring has come!" cried the iceman jubilantly. "Nay," sighed the coal man. "Winter has gone."

Dear Sirs — This fall I got thrown on a fence and hurt my chest very bad so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good. One bottle of MINARD'S LINIMENT warmed on flannels and applied on my breast cured me completely.

WHALE'S APPETITE.

A whale's appetite is phenomenal. His chief diet consists of jellyfish. He has simply to open his mouth and paddle along leisurely in order to take in jellyfish by the wagonload. Such is the method adopted by the whalebone whale. The sperm whale, on the contrary, captures huge squids, weighing often several tons. Like his brother, the whalebone whale, he must be constantly on the lookout for food; otherwise he would starve. As many as fourteen seals have been taken from a thirty-foot "killer." Other fishes of enormous appetite are not uncommon. The bluefish, for example, thrives on sardines and other small fish. Most curious of all eaters is the hydra — a strange creature that can be turned inside out without impairing his appetite or its power to eat.

**Deafness Cannot Be Cured**

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SOLDIER'S HANDKERCHIEFS.

The Russian Government has decreed that in future all soldiers of the Empire must use handkerchiefs—heretofore not one soldier out of a thousand has indulged in this luxury —and that all the handkerchiefs must contain pictures emblematic of a soldier's life, both in battle and in time of piece.

A Pill for Generous Eaters.—There are many persons of healthy appetite and poor digestion who, after a hearty meal are subject to much suffering. The food of which they have partaken lies like lead in their stomachs. Headache, depression, a smothering feeling follow. One so afflicted is unfit for business or work of any kind. In this condition Parmelee's Vegetable Pills will bring relief. They will assist the assimilation of the ailment, and used according to directions will restore healthy digestion.

TALL AND SHORT MONTHS.

Averages for the height of women show that those born in summer and autumn are taller than those born in spring or winter. The Tallest girls are born in August. As far as boys are concerned, those who first see the light during autumn and winter are not so tall as those born in spring and summer. Those born in November are the shortest; in July the tallest.

Still Another Triumph—Mr. Thomas S Bullen, Sunderland, writes: "For fourteen years I was afflicted with Piles; and frequently I was unable to walk or sit, and four years ago I was cured by using Dr. Thomas' Eclectric Oil. I have also been subject to Quinsy for over forty years, but Eclectric Oil cured it, and it was a permanent cure in both cases, as neither the Piles nor Quinsy have troubled me since."

Old Dr. Grimshaw (to the medical student) — "And now, remember that to a physician humanity is divided into two classes." Student—"And what are they, doctor?" Old Dr. Grimshaw — "The poor whom he cures and the rich whom he doctors."

"Do you know anything about the people who have moved next door?" she inquired. "Not much," he answered, "except that their honeymoon is not yet over." "How did you find that out?" "By observing. It was raining when he came home this evening, but she did not make him stop at the front door to wipe his feet."

WHAT TROUBLED HIM.

One day two Irishmen, one of whom was summoned to appear before the Bench on a certain charge, were standing outside a local police court. He who had soon to stand somewhere else — in the dock — looked anxious and downcast, while his friend, who was trying to cheer him, said, "Come, Mike, kape up yer heart, me boy; shure, now, an' it's justice that ye'll be after gittin' this day." "Be me sowl, Barney," returned Mike, lowering his voice, "an' that's jist what Oi'm afeard av!"

GERMAN WEDDING CUSTOMS.

Germany has a pay-wedding, at which the bride receives her guests with a basin before her in which each person entering deposits a jewel, a silver spoon, or a piece of money. In some parts of Germany the rule is that the expenses of the marriage feast shall be met by each guest paying for what he eats or drinks. The prices paid for viands and drinks are high, and the young couple often make a handsome profit out of their wedding, realizing a sum quite sufficient to start them nicely in life. Sometimes as many as 300 guests are present at such weddings. The Polish way—to be seen at their weddings—of getting the bride a "dot" is very similar to that of the Germans.
