This neighbor, a person of considerable resource, turned the quartette on a female dog whose family had been destroyed, and after partaking of a meal they all lay down and slept comfortably. One of Britain's Giant Long-Range Coastal Guns

Known as "Boche-Buster" this enormous railway gun, operating on the coast of Britain, provides a formidable answer to German batteries on the coast of occupied France.

This photograph shows a close-up of the giant gun-muzzle as, mounted on its massive carriage, it moves along the railway line.

SHORTAGE OF CREAM CANS THREATENS CANADA'S DAIRY INDUSTRY - APPEAL TO ALL OUR FARMERS

Steel "priorities" have stopped the purchase of stee in Canada for all but essential war industry.

This means that cream cans will become almost impossible to secure. Already there is talk of an impending shortage and prices have advanced sharply.

A general appeal is being made throughout Ontario to have all extra cream cans (whether damaged or rusty) returned to the creameries. These will be repaired and re-tinned, if necessary, and put to their proper use. Good cans are urgently needed, of course. The Better the Better!

We make the appeal to ALL FARMERS to give your best co-operation in restoring these cream cans to general circulation again.

CANADA NEEDS THOSE CANS !
