Dr. Ryerson, Conservative, was elected in Toronto on Tuesday to fill the vacancy in the Local Legislature. His majority was about 600.

Mr. Gladstone's cabinet is becoming stronger day by day through the instrumentality of bye-elections. His home rule bill is under the most profound discussion throughout Ireland and America. It is a proposed donation for which the Irish people are very much divided in their gratitude. In fact there is a large class who say they will fight to the death if it is granted. The other side say ditto. Judging the assertions in a candid light it seems probable that Mr. Gladstone will not be permitted to settle the question even by the passage of his bill. The man who sets out to reconcile the two factions in Ireland has more than one "life work" before him; in fact many lives have gone out pursuing this ignis fatuis since the days of Dan O'Connell.

Believing there is an impression abroad that the English two-rowed barley brought out for experiment by the Dominion Government has been a total failure, The Advance has taken pains to interview a couple of our best farmers, who have tested the grain during the past two seasons, as to the result of these experiments and their conclusions with regard to them. One of these gentlemen raised two acres of the grain last season, which yielded him a little over 100 bushels of good grain. This was on ground specially enriched. The yield in the other case, off ordinary ground, was 42 bushels per acre. This, it must be acknowledged, was an extra good yield. The season was an extremely unfavorable one, therefore the color was not what it should have been. Both the gentlemen referred to find that the grain weighs lighter each year, and the ripening season becomes earlier. They both incline to the belief that, even were a market obtained for the grain in England, it could not maintain the required standard. Yet, as a crop for home consumption, they believe it to be much superior to the older variety, especially for feeding purposes.

Eugenia

From our own Correspondent.

The teameeting in connection with the Union Sunday School at Eugenia was largely attended, although the evening was rather stormy. The ladies in connection with the school had ample provisions on hand to satisfy all demands, also plenty left for a social, which came off on Saturday evening. A splendid programme was prepared, consisting of vocal and instrumental music, readings, recitations, and dialogues, and a well rendered tableaux of "Home, sweet home." The proceeds of the tea-meeting was $23, of the social $4.25. Every one expressed themselves highly pleased with the entertainments.

From our own Correspondent

About two weeks ago our merchant, Mr. D. A. McLean, became finanancially embarrased and made assignment for the benefits of his creditors. The liabilities were about $3500, and the assetts $1900. The goods were sold in Toronto for 56c. on the $ to Mr. Cockburn, who is moving them to Sturgeon Falls, leaving us now with an empty store and a ruined merchant. The Patrons of industry held their usual meeting on Friday night, after which there were a few very interesting speeches given in the debating line.
