Your Kind Co-Operation, Please

In order to save our cream patrons embarrassment, we feel it our duty to explain the new government "cream can" regulations of which the dead line is July 2nd. The regulations concerning the producer are :-

1. After July 2nd no one may have in his possession cream cans unless they are used for cream only.
2. A producer may not send or deliver cream to any creamery except in a cream can belonging to that creamery.

In the last two months we have put forth a costly effort to exchange cream cans with other creameries—and now we are giving our patrons entirely our own cans. We are again asking your co-operation to see that the cans are no longer exchanged.
