Matters vitally affecting the interests of the Agricultural societies of the Province will be discussed at the annual convention of the Fairs and Exhibitions Association, which will be held in Toronto February 14 to 16th. A great majority of the societies have appointed delegates to this convention in order that they may have an opportunity of expressing their views on the subjects under discussion. The most important subjects which will come up for discussion are:—"Should Horticultural societies be separate in the Agricultural and Arts Act from Agricultural societies?" "Should the number of Agricultural societies be reduced?" "How many fall exhibitions should be allowed in each County?" "The best method of reducing the number of fall exhibitions." "Should the distinction between township and district societies be abolished and the societies receive their grants in proportion to the amounts they expend for agricultural purposes?" "Should the Government grant be withheld from societies that permit games of chance at their exhibitions?" Should the legislature be asked to vote a special appropriation to assist in stamping out games of chance at Agricultural exhibitions?" Other subjects of a general nature which will be considered include "Ownership of stock by Agricultural societies." "Spring Stallion shows." Supt. H. B. Cowan will present his report of fairs work in the Province during the year. Owing to the importance of the subjects the convention this year will last three days instead of two days as usual. Reduced rates have been secured over all the railways.
