MARKDALE

Mr. Whitney's Cabinet

Following is the new Conservative cabinet which was installed at the parliament buildings at Toronto last week :

Premier and Attorney-General, Hon. J. P. Whitney.

Minister of Crown Lands--Hon. J. J. Foy.

Minister of Agriculture—Hon. Nelson Monteith.

Provincial Treasurer—Hon. A. J. Matheson.

Minister of Education—Hon. R. A Pyne.

Provincial Secretary—Hon. W. J. Hanna.

Minister of Public Works—Hon. Dr. J. O. Reaume.

Without Portfolio—Hon. Adam Beck, Hon. J. S. Hendrie and Hon. W. A. Willoughby.

Speaker—Hon. J. W. St. John.

The bye-elections necessitated by the formation of the new cabinet will be held on Tuesday, Feb. 28, nominations on Tuesday, Feb. 21.

Seed Testing on the Farm

To find out whether seeds are capable of producing plants requires neither expert knowledge nor special apparatus Satisfactory material is to be found in every farm home, for making germination tests of practically any kind of seed used on the farm. The simplest and most convenient way to test seed of corn and other cereal grains and most of the root crop and larger vegetable seeds is to place a number of them—say one hundred--between pieces of moistened blotting paper, Canton flannel or cloth; set them in an ordinary dinner plate and invert another plate to cover them. The seed should be kept moist but not wet. The temperature of the average farm house living room would be quite suitable, but some care should be taken to guard against excessive heat or cold. All good strong seed of corn, cereal grains, clovers or timothy, thus treated, will have germinated at the end of five days. Very small seeds of the finer grasses, of some of the garden vegetables and of beets and mangels may be germinated to better advantage by scattering them in a saucer, belonging to a flower pot, that has been soaked in water and set on a cloth that should be kept damp, or in a pan containing not more than one-eighth of an inch of water, the object being to keep the saucer moist, but not wet. If such a saucer be not available, a brick will answer the purpose as well. In germinating seeds in an earthen saucer they may be exposed to the light, but not to the direct rays of the sun.

—W. A. CLEMONS.

With Crick in the Back

You are up against a whole lot of trouble unless you have a strong remedy like Nerviline to settle pain and dislodge stiffness from the muscles and joints. Just rub Nerviline on the painful spot—not much rubbing because Nerviline has more power than ordinary remedies. You won't suffer long after Nerviline is applied for it relieves almost instantly. Mr. Phillip Adams of Oakland says, "If I hadn't used Nerviline I guess my back would be stiff yet. A few applications of Nerviline took out all the soreness and stiffness. I can recommend Nerviline for any kind of muscular pain, also for rheumatism." Price 25c.

E. G. Agricultural Society

The annual meeting of East Grey Agricultural Society was held in the town hall on Friday afternoon last. Owing to stormy weather less than twenty people were present. The financial statement showed total receipts last year of $1187.73, and an expenditure of $1060.73, leaving a balance on hand of $127.00. The gate receipts were $264.65 There was paid out for prizes $632.80. The total working expenditure was $164.04 ; rent, light and fittings, including insurance and secretary's salary, $85.49.

The following officers were appointed for the present year. As these include an infusion of new blood no doubt an extensive improvement may be looked for in the affairs of the society : President, A. Muir ; 1st vice president, W. Buskin ; 2nd vice president, J. Boyd Directors—Proton, J. Paton ; Collingwood, R. Ruthvan ; Osprey, J. A. Kernahan ; Euphrasia, James Stewart ; Artemesia, R. J. Sproule, W. J. Meads, D. McTavish, W. W. Trimble, J. I. Graham. Auditors—Jos. Blackburn, W. J. Bellamy.

At a subsequent meeting of the new board R. J. Sproule was reappointed secretary at same salary as last year and D. McTavish was appointed treasurer, thus dividing the office of secretary treasurer. The president and secretary were appointed delegates to the Canadian Fairs Association which meets in Toronto this week.

Startling But True

People the world over were horrified on learning of the burning of a Chicago theatre in which nearly six hundred people lost their lives, yet more than five times this number or over 3000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by a timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia," W. D. Wilcox, Logan, New York. Sold by W. E. Richardson.
