WE BUY POULTRY

MARKET YOUR POULTRY IN AN ORDERLY MANNER

Spread your marketing over a period of months for the purpose of avoiding overloaded markets.

Higher prices prevail during the summer months and early fall.

Cull your laying flock frequently, there is no advantage in feeding non-layers.

Highest Prices are paid for Grade A milk-fed quality. Birds should be crate or pen fattened two weeks before marketing. They should be fed three times a day, as much as they will clean up in 20 minutes.

Please bring in fowl before 6 o'clock on Saturday nights.

Clear telephone lines for ALL-OUT PRODUCTION

Your telephone is part of a vast *interlocking* system now carrying an abnormal wartime load. Don't let needless delays hold up messages on which production efficiency may depend.

OTHER "WARTIME TELEPHONE TACTICS"

1. BE SURE you have the right number... consult the directory.
2. SPEAK distinctly, directly into the mouthpiece.
3. ANSWER promptly when the bell rings.
4. USE OFF-PEAK hours for Long Distance calls: before 9.30 a.m., 1-2 p.m., 5-7 p.m., after 9 p.m.

These things may look trifling, but on 6,500,000 daily telephone calls, they are very important.

CHIMNEYS... a common cause of Fire!

Every fourth farm chimney is unsafe and liable to start a fire. Practically all farmhouse fires are due to defective chimneys and faulty heating equipment. Check YOUR chimneys this fall.

Get into your attic and inspect the chimneys for cracks, breaks, rotten mortar, soft bricks and open joints. Make sure that no joist, beam or other wood is set into the chimney's brickwork.

No chimney built with an offset—or within four inches of any wood should be considered safe.

Make sure that all unused pipe openings are closed with *metal*, asbestos or cement. Clean out your chimneys before they burn *you* out!

Every chimney should extend two feet or more above the ridge of a peaked roof or three feet or more above a flat roof.

A few dollars spent on your chimneys now may save you thousands later.
