Big Demand for Butter

There is an exceptionally big demand for butter at the present, so special care should be given milch cows during this time of year, in order to keep up production. We suggest :-

Stabling during the cool nights.
More grain feeding.
This will undoubtedly pay you well.

POULTRY

Because of the scarcity of meats, poultry is much in demand. It is to your advantage to get your poultry in shape, and market as soon as possible. Thus, while you are receiving good prices now, you are also helping to maintain good prices late in the fall. We are in the market to handle large quantities of both live and dressed poultry. Get in touch with us.
