The Worst of a Cold

Is how suddenly it comes. No time to hurry to the drugstore, croup develops, the lungs are affected with pneumonia or tuberculosis and it's too late. Keep Catarrhozone on hand,—it kills colds instantly. Something magical about the way it cures catarrh and Bronchitis. Catarrhozone is the best remedy because it cures in Nature's way; it heals, soothes and restores permanently. Carry a Catarrhozone inhaler in your pocket, use it it occasionally and you'll never catch cold—that's worth remembering.

SAMPLES OF GRAIN FOR THE IMPROVEMENT OF SEED.

To the Editor of The Advance:

Dear Sir,—By instruction of the Hon. Minister of Agriculture another distribution will be made this season of samples of the most productive sorts of grain to Canadian farmers for the improvement of seed. The stock for distribution is of the very best and has been secured from the excellent crops recently had at the branch experimental farms at Indian Head, Sask. and at Brandon, Man. The distribution this spring will consist of samples of oats, spring wheat, barley, Indian corn (for ensilage only) and potatoes. The quantity of oats to be sent this year will be 4 lbs., and of wheat or barley 5 lbs., sufficient in each case to sow one-twentieth of an acre. The samples of Indian corn and potatoes will weigh 3 lbs. as heretofore. A quantity of each of the following has been secured for distribution:

Oats—Banner, Wide-Awake, Abundance, Thousand Dollar, Improved Ligowo, Goldfinder and Waverley.

Wheat—Preston, Red Fife, Percy, Stanley, Huron, Laurel and White Fife. Barley—Six rowed—Mensury, Odessa, Mansfield, Claude and Royal. Two rowed—Standwell, Invincible, Canadian Thorpe and Sidney.

Indian Corn (for ensilage)—Early sorts, Angel of Midnight, Compton's Early and Longfellow; later varieties, Selected Leaming, Early Mastodon and White Cap Yellow Dent.

Potatoes—Carman No. 1, Early White Prize, Rochester Rose, Uncle Sam, American Wonder, Bovee, Early Andes and Late Puritan.

Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat barley or potatoes. Lists of names from one individual, or applications for more than one household cannot be entertained. These samples will be sent free of charge through the mail.

Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 1st of March, after which the lists will be closed, so that all samples asked for may be sent out in good time for sowing. Parties writing should mention the sort or variety they would prefer, with a second sort as an alternative, and should the available stock of both these varieties be exhausted, some other good sort will be sent instead. Those applying for Indian corn or potatoes will please bear in mind that the corn is not available for distribution until March or April, and that potatoes cannot be mailed from here until danger from frost in transit is over. No postage is required on mail matter addressed to the Central Experimental Farm, Ottawa.

Wm. Saunders,
Director Experimental Farms.
Ottawa, Nov. 25, 1905.
