NO GAS PROBLEM IN INDIA

Motive power for supply vehicle, somewhere in India, just naturally lies down, while the driver goes into public building. Camel carts are equipped with rubber tires, but require no gas or oil.

HOW CAN I??

By Anne Ashley

Q. How can I make labels stick fast to tin?

A. The label will stick if it is first brushed over lightly with either a cut onion or melted paraffin. A little brown sugar added to paste has the same effect. Gummed adhesive tape also makes a good label for tin.

Q. How can I mix paint thoroughly before using?

A. Before opening a can of paint, turn it upside down and leave it in this position for a while. This will aid in mixing it thoroughly.

Q. How can I give myself a dry shampoo if I do not wish to shampoo the hair because of a bad cold?

A. Massage dry corn meal thoroughly into the scalp, then brush out. This treatment will invigorate the scalp and at the same time give the hair a natural gloss.

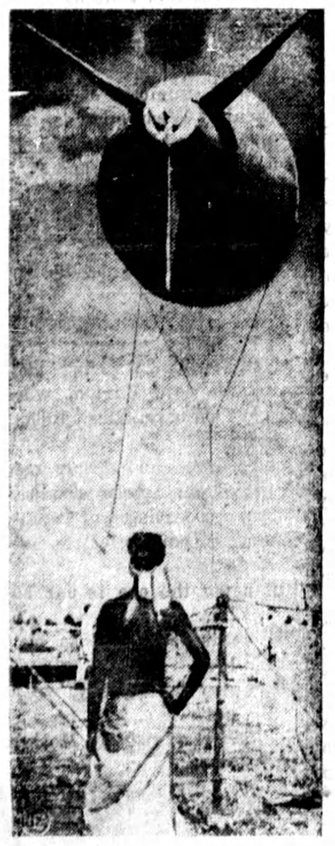
Q. How should a lamp be placed when reading?

A. The light should always come from the left and slightly to the rear of the chair when one is reading. Never lie down to read, as this position produces a strain on the eyes.

Q. How can I prevent windows from freezing to the sills?

A. By sprinkling a little salt along the window sill, the freezing of window to the sill during the real cold weather can be eliminated.

AIR ELEPHANT



Three tail fins of this barrage balloon resemble trunk and flapping ears of an elephant, familiar sight in Ceylon where this flying pachyderm is on guard.

WHAT SCIENCE IS DOING

ADRENALIN FOR FLIERS

When we are fighting mad two little glands which are called adrenals and which lie above the kidneys are aroused to chemical action. The glands pour out adrenalin. Some classic experiments made years ago by Dr. Walter B. Cannon (Harvard) have shown how essential adrenalin is in the emotional life of all higher animals. It stimulates the heart so that it can work harder. Without it there is no fight in man or beast.

Dr. George W. Stavraky (University of Western Ontario) has applied this knowledge for the benefit of the Royal Canadian Air Force. He conducted research to discover the effects of a deficiency of oxygen at altitudes of more than 10,000 feet. He determined the exact amounts of oxygen and carbon dioxide needed for the best action of adrenal glands. He found that unless a man's blood contains certain amounts of both oxygen and carbon dioxide the adrenals do not perform their function efficiently. Hence the man can't fight.

SULFA FOR SICK TREES

After a five-year test, F. A. Bartlett, a tree expert, announces that the bleeding canker disease of shade trees can be successfully treated by injections of one of the sulfanamides. Ailing trees treated by the method and properly fed showed an average annual increase of twig growth of more than three inches over similar trees neither treated nor fed. The new method of treatment was initiated at Rhode Island State College several years ago when it was discovered that trees in several Eastern States were dying of an unknown fungus. After isolation, the disease proved to be bleeding canker. The compound, a "sulfa" derivative, was applied through injections. A total of 6,011 injections was made on 822 trees.

Modern Etiquette

By Roberta Lee

1. Is it proper to use a typewriter for social correspondence?

2. Is it all right for a girl to telephone a young man at his office, to carry on a friendly conversation?

3. What is the proper way for a hostess to serve tea?

4. Isn't a hostess inhospitable when she accepts payment from a guest who has called long distance on her telephone, or receives a C.O.D. telegram?

5. When a woman is wearing gloves, should she remove the right one before shaking hands?

6. Isn't it poor manners for a person to take hold of another person while talking with him?

Answers

1. Yes. There was a time when the typewriter was considered suitable for business correspondence only, but that time has passed. Of course, only the single-sheet variety of stationery should be used when typing a letter. 2. She should not do so unless the call is very urgent. 3. The hostess should remain seated while pouring the tea; then hand the cups, saucers, and plates to the guests. They may help themselves to sugar, cream, and lemon, as well as to sandwiches and cakes. 4. No. On the contrary, it shows distinct lack of consideration, stinginess, and rudeness upon the part of the guest if he or she does not willingly pay these bills. 5. No. 6. Yes. The habit of touching, nudging, or patting, is frequently very annoying.

7,000 Airplanes Made In Canada

Canada has recruited and trained 80,000 aircraft workers, of whom 90 per cent had never before worked on an aircraft, Ralph P. Bell, Director-General of Aircraft Production, told a meeting of electrical men in Toronto recently.

Bell disclosed that 7,000 'planes had been made in Canada since the industry was launched less than three years ago. Of these, he added, more than 1,200 are in operation on fighting fronts, mostly Hurricane fighters.

Bell termed the aircraft industry one of the few arising from the war "for which a commercial post-war future reasonably can be visualized."

BACKACHE?
Look out for Trouble With Your KIDNEYS

If your back aches or if you have disturbed sleep, burning or smarting, look out for trouble. This condition is a sure sign that your kidneys are not fully ridding your blood of poisonous acids and wastes. When the kidneys slow up, wastes collect. Backache, dizzy spells, puffy eyes and rheumatic pains may follow.

Your kidneys need help—and there is a time-tried, proven way to help them known as GOLD MEDAL Haarlem Oil Capsules. These Capsules contain carefully measured quantities of that widely known diuretic called Dutch Drops. You will find their action fast and effective.

Be sure you get GOLD MEDAL Haarlem Oil Capsules, the genuine and original Dutch Drops—packed in Canada. Get a 40c package from your druggist. s

Two navvies settled down to eat their dinner. One began unwrapping a large parcel at which the other stared in surprise.

"What's that?" he asked.

"Well, it's like this. My missus is away, so I thought I'd make meself a pie."

"Bit long, ain't it?"

"Oh, I dunno. It's rhubarb."

"Did you tell her that what you said was in strict confidence?"

"No, I didn't want her to think it was important enough to repeat."

All the wordy skill of the dealer was called in as he tried to sell a broken-winded horse to a reluctant customer.

After a trial trot round, he struck an attitude of admiration and exclaimed:

"And hasn't he got a lovely coat?"

"Mebbe," said the customer coldly, "but I don't like his pants."

In preparation for a coming event little Joan had been told that Daddy was ordering a small brother.

Triplets arrived, and when Joan heard that she said to her mother:

"Why didn't you order a baby yourself? You know how Daddy stutters?"

RECTAL SORENESS AND
PILE TORTURE
QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.

Bounty

When the wind is full of sleet
And the ways are hard to go,
Chickadees that used to meet
By my doorsill banked in snow

Tap upon the frosty pane,
Anxious lest I might not see
In the driving, icy rain
Their bedraggled company.

Creeping up the leafless vine
By the dormer's narrow edge,
Sheltering underneath the line
Of the overhanging ledge.

Once they shyly looked askance
At my flapping apron strings,
Wary of my outstretched hands
And my goodwill offerings.

Now I throw the window wide,
And how boldly each one comes
To the warmth and light inside,
To my table spread with crumbs!
