The children cannot possibly have good health unless the bowels are in proper condition. Correct any constipation by giving small laxative doses of Ayer's Pills. All vegetable, sugar-coated.

The Flesherton (Grey Co.) Advance says there were two inches of snow there on Wednesday morning of last week. This beats Burks Falls all hollow: some snow fell, it is true, but it melted as soon as it reached terra firma.—Burks Falls Arrow.

Archie Carnahan has the distinction of being the first man arrested for drunkenness in Owen Sound since local option came into effect. When arrested he carried the goods in his hip pocket, but refused to tell where the booze came from. For his indulgence it cost him $3.75 or ten days in jail. Chances are Archie chose the latter.—Reflector.

Eight head of cattle belonging to Mr. Wm. John Brown, of Garafraxa, becoming tired of rural life, wandered off to more exciting points and found themselves in Grand Valley. Unaware that running at large was contrary to the rules of the village, they found themselves impounded, and it took about $19.00 to get them back to the quiet of their farm life.

A most disastrous fire occurred at the home of Mr. Thomas McMurchy, McMurchy Settlement, last Sunday morning between eight and nine o'clock, when his house with almost all its contents was totally destroyed. The house being a frame structure, burned so rapidly that they were able to save but little of the furniture. The loss is estimated at about $15,000.

We have just been informed of a remarkable instance of canine sagacity and endurance. A well-known farmer, formerly residing near Meaford, while en route for the west, about three weeks ago, took with him a favorite collie dog. When approaching Winnipeg the dog escaped from the train to the open prairie and has since returned to his old home, gaunt and lean, guided thither, no doubt, by an instinct similar to the incomprehensible instinct which guide the feathered tribe in their annual migrations.—Express.

In spring the tomcat howls and sings because he's full of fiddle strings; he challenges his deadly foe, and at it both combatants go, and all our nights are filled with dread when the cats are fighting on the shed. The groundhog sallies from his den, this time he'll not go back again, for when the crows began to nest, the winter's knocked all galley west. The daisies in the woody dell will soon peep out for us to smell. The swallows soon will skim the lake, and in the woods we'll see a snake. The pesky bugs will loop the loop, get in the gravy and the soup. The very thought puts us to rack, for we think we feel one down our back.

We were asked this week by a delinquent subscriber why we kept on sending the paper after the subscription date had expired. Every weekly newspaper in towns of this size are forced to do this. Should we stop subscriptions when time expires nine times out of ten the subscriber would give us a "calling down" for insinuating that his credit was not good. Rather than to cast a reflections against the honesty of a subscriber to pay a small debt, it is next to a neccessity for a home paper to continue sending the paper after the time has expired. It is not neccessary for the city dailies or weeklies to follow this rule, as their subscribers live at a distance and are not personal friends as is the case with a majority of our subscribers. Our subscribers should deem it an honor to know that we do not doubt their integrity and continue to send them the paper after their time has expired. Should any desire their paper discontinued they should notify us and remit to date if they have not already done so.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT

Peter E. Summers, of Kalamazoo, Mich., relates his experience:
"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

FROST STEEL GATES

The strong features of Frost Fence are combined in the Gates. A special feature is the frame of continuous steel tubing. This is vastly stronger than a frame with elbow corners and malleable castings. The heavy wire filling insures against sagging.

The public is warned against buying gates that infringe against Frost Wire Fence Co.'s patent, as purchasers as well as users are laying themselves liable. For sale by
