LUXURIES A CASALTY IN THE OLD COUNTRY

The war effort in Great Britain has eliminated the luxury trades. Expensive clothing and luxury articles are no longer being made. A purchase tax of 100 percent on the wholesale price has been imposed on such goods as silk dresses, leather trunks and bags, fur coats, cut glass and jewelry Pure silk stockings are unobtainable. Supplies of cosmetics and perfumes have been drastically reduced. Sporting functions and horse races have been severly reduced. Speedway racing has been entirely abandoned. No gasoline is obtainable for pleasure motoring. Through personal experience everyone knows that the war is one in which they cannot avoid taking part.—Toronto Star.

HAY MOW MEASUREMENT

To find the number of tons of hay in a mow, multiply the length by the depth by the breadth and divide by 450. In case of straw multiply the same as with hay but divide by 600 to 1,000 according to the length of time in mow. The longer the time in the mow, the smaller the division to be used.

At the September meeting of Paisley Council it was moved that the flag be flown at half mast for a period of three days from the time word is first received of war casualties from that district.

The Farmers of Grey County All

Fight on the Farm

—They Buy **FEED** *And* **BONDS** *Too!*

Here are 2 Ways They Successfully Do It:—

1st Way—

Say you have $500.00 in cash with which to buy feed. Buy, instead, a $500.00 Victory Bond, and pay cash for it. You can borrow at any time over the next six months against the bond at 3%, after that at 4%. Suppose you need $400.00 for feed from December 1st until May 1st, and then can pay off your loan and can finance until November 1st again. Here is how you come out:

You receive—	
Interest on your $500.00 bond for one year at 3%	$15.00
You pay—	
Interest on your $400.00 loan for 5 months at 3%	6.25
Net profit in interest	$8.75

In other words, you can make a profit on your cattle, and on your bond, too.

This is NOT BLACK MAGIC. It is SMART BUSINESS.

2nd Way—

Buy on the special Farm Letter arrangement. Suppose you have tied up your money in feed —but could buy a $500 bond when you sell your cattle next Spring, but can only invest $50.00 now. Instead of buying a "token" $50.00 bond, use the cash to reserve a $500.00 bond for you, to be paid for when your cattle are sold. Your Victory Loan salesman will take your application for the larger amount, and ask you to sign a letter to your banker, instructing him to reserve a bond for you until your cash comes in again... He charges interest at the same rate as the bond earns: namely, 3%. **You pay** out for only a few months, but your bond **pays you** the **year round.** Understand—even while your bond is not paid up yet, it still earns interest for you at the same rate your bank charges.

This space, in the interest of the sale of 5th Victory Loan, is sponsored by the following municipalities in Grey County:

Township of Bentinck, Town of Hanover, Township of Egremont, Village of Neustadt, Township of Collingwood, Township of Keppel, Village of Chatsworth, Town of Thornbury

HE CAN STOP A REAL TANK TOO!

Bobby doesn't realise it—but while he talks to his team-mate about to-morrow's big game, a hard-pressed production man may be trying to get through a message on which lives depend.

Here's one more way in which youngsters can show their loyalty to the cause for which their fathers and big brothers are fighting. And let's be sure that *we* set them a good example by using the telephone only for necessary calls... and by keeping them brief. *War calls must come first.*
