Mr. and Mrs. Ken Stewart, Flesherton, were recent guests at Mr. Edgar Patterson's.

Thousand dollar bills were found in the millian and a half cash which was discovered in the safety deposit box of tre late ex-Mayor Thompson of Chicago. No wonder they called him "Big Bill" Thompson.

Brother, Should You Spend a Dime?

A dime is small change! (10¢) But when a lot of dimes march out of your pocket they soon become dollars that start to fight other dollars, for the new neckties, dresses or furniture left for us to buy. This battle of the dollars is called INFLATION because it starts prices rising! And the higher prices go...the less your dollar is worth! For instance, during the last war, people had to pay 23¢ lb. for sugar that you get for 8¢ lb. today. A voile night dress was $6.95 compared to the $1.98 you pay now. Your dollar buys more goods, is worth more than the dollar of 1914-18. Price ceilings and other anti-inflationary measures have helped keep it's value high. And remember! Every time you use your money wisely to pay off a debt or to increase your savings when you refuse to hoard goods or patronize black markets...it makes your dollars worth MORE!

Make This Pledge Today!

I promise to give my support to keeping the cost of living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates. And I will support taxes which help lower the cost of living.

Keep Your Dollar Value High!

THE BREWING INDUSTRY ONTARIO

Published by THE BREWING INDUSTRY (ONTARIO)
to help reveal the dangers that inflation represents for all the people of the Nation.

Longer days and a warmer sun warn that spring is not far off. How many things need to be done before spring work starts? There's no more time to put them off.

In self-defence the public should put its foot down on these benefactors whose blueprints for simplicity are more baffling than what they simplify. The job should be turned over to the real experts.

Give this Man a Warm Welcome

You may not regard the Victory Loan salesman as a salesman when he calls on you. He is a man from your community whom you likely know well . . . perhaps a neighbor. He may never have done any selling before.

He has taken on this work because he feels that it is an important war job that must be done.

As a matter of fact he is not trying to *sell* you anything. He will ask you to save money.

Farmers are doing an important war job, too . . . producing food. Most farmers have increased their incomes. They have money to save.

You plan to use this money, and the things you plan to use it for are necessary things.

The Victory Loan salesman will ask you to let your country have the use of your savings now by putting your money into Victory Bonds.

Our big job now is to win the war, and to win it as soon as we can. That's why every Canadian is asked to buy Victory Bonds. It's why each of us is asked to buy all we can. You can buy them with cash, which you have saved, and you can buy more bonds and pay for them as you earn money, over a period of six months.
