REGIMENT ADOPTS BABY.

Was Found Asleep in Sentry Box, With Note From Its Parent.

The soldiers of the Sixty-third Foot Regiment, at Saint Mihel, France, have adopted a baby which was found asleep in a sentry-box on a recent morning. It had a wooden horse clasped in its arms and pinned to his jacket was a note saying: "Please look after my little Jacques, whom I am unable to support."

Jacques was thereupon taken into barracks, and the men promptly decided that he should remain. He will wear a little suit of regimentals, and the soldiers will take it in turn to look after him.

They Never Knew Failure.—Careful observation of the effects of Parmelee's Vegetable Pills has shown that they act immediately on the diseased organs of the system and stimulate them to healthy action. There may be cases in which the disease has been long seated and does not easily yield to medicine, but even in such cases these Pills have been known to bring relief when all other so-called remedies have failed. These assertions can be substantiated by many who have used the Pills, and medical men speak highly of their qualities.

Jabbers—"I tell you, old man, it's a terrible thing when your wife quarrels with her mother and the old lady lives with you. Which side do you take?" Havers—"Neither. I preserve an alarmed neutrality."

Dr. Von Stan's Pineapple Tablets.—Medical science by accident discovered the potency of the pineapple as a panacea for stomach troubles. The immense percentage of vegetable pepsin contained in the fruit makes it an almost indispensable remedy in cases of dyspepsia and indigestion. One tablet after each meal will cure most chronic cases. 60 in a box, 35 cents.—32

Little Girl (innocently to new rector)—"Will you please see how many times you can run round the garden?" Rector (surprised)—"I couldn't, my child. But why do you ask?" Little Girl—"Oh! merely because dad said you were so long-winded."

A Great Combination, "Ferrovim" the *best tonic* is. It should be taken by all invalids, by all who are run down or out of sorts. It builds up, gives new life.

HONEST ADMIRATION.

Tommy Twaddles—"Oah, I don't want to go to school."

Pa Twaddles—"But don't you want a good education?"

Tommy Twaddles—"No, pa; I'd rather grow up to be just like you."

To discern and deal immediately with causes and overcome them, rather than to battle with effects after the disease has secured a lodgement is the chief aim of the medical man, and Bickle's Anti-Consumptive Syrup is the result of patient study along this particular line. At the first appearance of a cold the Syrup will be found a most efficient remedy, arresting development, and speedily healing the affected parts, so that the ailment disappears.

Only the successful man is in a position to value the world's praise at its true worth.

Salt Rheum, Tetter, Eczema—These distressing skin diseases relieved by one application. Dr. Agnew's Ointment is a potent cure for all eruptions of the skin. Jas. Gaston, Wilkesbarre, says: "For nine years I was disfigured with Tetter on my hands. Dr. Agnew's Ointment cured it." 35 cents.—31

"Kate, I must warn you. I saw that policeman put his arm round you and kiss you." "I couldn't help that, ma'am." "But you didn't seem to object." "Not me, an' be had up for resistin' the police."

Many Thanks are due from the proprietors of Weaver's Cerate to friends who have written to tell of the Cerate's good word in curing scrofulous humors, scald head and other skin diseases.

Butcher—"What can I do for you, mum?" Young Wife (trying to give herself the air of a veteran)—"One pound of beef sausage, but without bone, please."

There is one remarkable peculiarity about camels. They are the only animals that cannot swim.

Allen's Lung Balsam, in which there is no opium, cures sore throat and sore lungs as it allays the inflammation and rids you of the mucous that stops up the air passages. 25c., 50c., $1.00 bottles.

An old lady, traveling for the first time in a large city, saw a glaring sign on the front of a high building, which read: "The Smith Manufacturing Company." As she repeated it aloud slowly she remarked to her nephew: "Laws 'a mercy! Well, I've heard tell f Smiths all my life, but I never knew before where they made 'em!"

Hicks—"My hair comes out in handfuls. If it keeps on I'll soon be bald." Wicks—"Nonsense, if it keeps on you can never be bald."

A Purely Vegetable Pill.—Parmelee's Vegetable Pills are compounded from roots, herbs and solid extracts of known virtue in the treatment of liver and kidney complaints and in giving tone to the system whether enfeebled by overwork or deranged through excesses in living. They require no testimonial. Their excellent qualities are well known to all those who have used them and they commend themselves to dyspeptics and those subject to biliousness who are in quest of a beneficial medicine.

Picture Dealer—"This, madam, is merely a chromo, and it is not expensive." Mrs. Newrich—"Ah! To be had cheap, I suppose. Of course, Chromo is a very obscure artist, and cannot command high prices."

The Backache Stage may be just that incipient form of kidney disease which, if neglected, will develop into stubborn and distressing disorder that will take long tedious treatment to cure. Don't neglect the "backache stage" of the most insidious of diseases. South American Kidney Cure stops the ache in six hours and cures.—30

She—"Women may gossip sometimes, but they have better control of their tongues than men have." He—"You are right. Men have no control whatever of women's tongues."

Did you notice that old man limping along a day or so ago? Well, if he will put on his back "The D & L" Menthol Plaster, in a week he will walk as straight as any one.

"Weren't you frightened when your revolver missed fire?" "No; my wife kept the burglar off with a hat pin while I reloaded."

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually expels worms and gives health in a marvellous manner to the little one.

VEILS FOR FIREMEN.

One of the gravest perils which the men of the fire brigade are constantly facing is the fierce, overpowering heat in which they are compelled to work. This peril, however, if we may believe recent information to hand from Germany, has ceased to exist. After successful trials, the newly-invented "heat-veil" has been introduced into practice at Cologne, where 200 men have been supplied with the appliance. The veil is made after the principle of a safety lamp, with double windows. It is composed of fibres of cane, which, as is known, possesses the peculiar property of retaining water for a considerable length of time. The veil is made damp before being fastened to the fireman's ordinary brass helmet.

Deafness of 12 Year's Standing.—Protracted Catarrh produces deafness in many cases. Capt. Ben. Connor, of Toronto, Canada, was deaf for 12 years from Catarrh. All treatments failed to relieve. Dr. Agnew's Catarrhal Powder gave him relief in one day, and in a very short while the deafness left him entirely. It will do as much for you. 50 cents.—33

"What a lovely collection of odd cups!" exclaimed a guest, peering into the china cabinet. "Did it take you long to get so many?" "Oh, no," said the hostess, who suffers by the servant problem, "those are samples of the sets we've had in the last two years."

PLUCKY SCHOOLMISTRESS.

Courageous Little School Marm Tackles a Bear Single-handed.

The heroine of the little village of Solway, Minnesota, says the Minneapolis Journal, is pretty Miss Mary Mulvaney, a schoolmistress, who, single-handed, tackled a bear which had invaded the class-room.

Miss Mulvaney was standing at the blackboard when a cry of terror from one of her young charges caused her to turn towards the door. There, in open doorway, stood a huge black bear, with head cocked curiously sideways, and nose greedily sniffing towards the closet where the teacher and children kept their lunch baskets. There was instant panic among the pupils, none of whom was more than 10, but the animal paid no attention to the children and headed straight for the lunch closet. One of the boys, bolder than the others, threw a chalk eraser at the bear, which turned around with an angry growl and started towards the terrified children with claws spread out menacingly. Miss Mulvaney thereupon seized a stick, sprang forward, and smote Bruin on his tenderest spot—across the bridge of the nose. This luckily seemed to disconcert the animal, for it turned tail and scampered out of the room. The danger over Miss Mulvaney fainted, but a liberal application of cold water by some of the elder children soon brought her around again.
