WHAT SCIENCE IS DOING

Future Aircraft

British pilots decidely like jet-propelled aircraft. Highly experienced and critical test pilots say they are easily flown, very responsive to controls, and the high-speed rotary power units are so smooth and vibrationless in operation that they prefer them to orthodox types. Their advantages are many, according to the men who fly them. To begin with, the power produced is applied directly. There is no transmission gear of conversion mechanism. Thus the power plant is simplified, weight is considerably reduced and loss by friction is avoided. Then it does not need high-grade aviation gas as fuel. Paraffin, diesel or tar oil can be used in its stead and so-called "safety" fuels can be used without any loss of efficiency. There is no complicated supercharger, with gear shifts, clutches and boost control. Only a simple fuel-injection system is required. Also the vibration is reduced, the airscrew is eliminated, saving further weight, simplifying control and reducing complication. Predictions are that with the coming of this British gas turbine, the design of future aircraft will be revolutionized. Turbines are being kept in mind for high-speed, high altitude passenger aircraft, and for the huge transport planes now being planned.

Mosaic of Photos To Aid Invaders

The British have announced that Allied invasion planners have had the benefit of a minute detailed mosaic of 3,000 miles of continental invasion coastline, put together from pictures made by the RAF.

Five hundred thousand pictures were used in the mosaic. They were taken by reconnaissance pilots flying seven miles high at six miles a minute, sometimes diving 400 miles an hour toward the "subject."

RHEUMATIC Pains! WASH THEM AWAY!

DOES YOUR BODY ACHE?

Here's quick relief from miserable neuritis, rheumatic, arthritic and lumbago pains—Drink water abundantly and rely upon "B'WELL" herbal remedy as an internal cleanser. As pain and fever producing acids are washed away—Pain must go! Relief may be felt right at the start. Take Mulveney's "B'WELL" regularly before retiring and wake up each morning feeling fine! Sold by over 2,000 druggists.

RECTAL SORENESS AND PILE TORTURE QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.

YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, dizzy spells, irregular periods, are weak, nervous—due to the "middle-age" period in a woman's life, take Lydia E. Pinkham's Vegetable Compound. It's helped thousands upon thousands of women to relieve such symptoms. Pinkham's Compound is also a fine stomach tonic! *Worth trying!* Made in Canada.

CANADIAN CHIEF

In an unusual division of duties, Maj.-Gen J. C. Murchie, above, has been appointed chief of staff of the Canadian Army, with temporary rank of lieutenant general. He'll be responsible for Dominion forces in North America, while Lt.-Gen. Kenneth Stuart, whom he succeeds, retains responsibility for forces overseas.

Modern Etiquette

By Roberta Lee

1. If two sisters are unmarried and are living together, what would be the best way to address a letter to them?

2. If a written invitation to a baby's christening is received, is one obligated to send a gift?

3. Is it proper to fold the napkin when one has finished eating?

4. May one use a spoon or knife for eating peas when dining at a formal affair?

5. Does a woman have the privilege of refusing to shake hands, even if the person she meets extends his hand?

6. If somone mispronounces one's name, would it be all right to correct him?

Answers

1. Address the envelop to the older sister, then include both their names in the heading of the letter. 2. Yes; it imposed this obligation. 3. No; leave the napkin lying loosely beside the plate. 4. No; peas should always be taken with the fork no matter if the affair is informal or formal. No kind of food is ever conveyed to the mouth with a knife. 5. No; do not refuse an offered hand. 6. Yes, but it should be done graciously wtihout showing any resentment.

Government Issues Garden Pamphlet

Incidental to any vegetable garden are diseases which affect the crops, and insect pests, but the methods of control are not difficult. These are described in brief, easily understood terms in the new edition of "The Wartime Garden". This pamphlet can be obtained by writing to Dominion Department of Agriculture, Ottawa. It is not only useful to the recruit to wartime gardening, but the experienced gardener will also find it valuable for frequent reference.
will also find it valuable for frequent reference.

Another feature of the new edition of "The Wartime Garden" is a table indicating the best kinds and varieties of vegetables to grow, the amount of seed or plants required for garden rows of 50 feet and the probable return obtainable. Another table shows the time to sow seed or set out plants for every region in Canada.

Seaman Sabo

Officially listed and drawing rations as Ordinary Seaman Sabo, the cocker spaniel mascot of a Canadian destroyer, is so named because of an amazing ability to sabotage food and gear. Ordinary Seaman Sabo slept serenely in his "mick,' 'or hammock, all through a hot naval action.

Stalin Doesn't Want 'To Own Europe'

Forrest Davis, Associate Editor of the Saturday Evening Post, quotes Marshal Joseph Stalin in a Post article published not so long ago as saying that the Soviet Union has no desire for the lands of its neighbors.

In the first of two articles, "What Really Hapened at Teheran," Mr. Davis says Mr. Stalin made a sweeping declaration at Teheran of "his desire to conciliate his neighbors, saying flatly that he had no desire to own Europe."

Mr. Davis says Mr. Stalin added that "his country is only half populated and the Russians have plenty to do at home, without undertaking great new territorial responsibilities."

Mr. Davis has not disclosed the source of his information.

'Floating Hedgehogs' Aid Nazi Defenses

"Floating hedgehogs"—guns and antiaircraft batteries mounted on naval units—have been added to Nezi anti-invasion defenses in the English Channel and the North Sea, says the Weekly Military Review published by the German High Command.

"This increase in defenses has become necessary because of intensified air warfare from Britain," the Review said.

The "hedgehogs" apparently are an adoptation of the "Floating Island" fortresses established off the British coast as a defense measure earlier in the war, but are equipped with some sort of motive power.

Coffee was introduced into Europe from Arabia in the 16th century.

SITTING ON SUDDEN DEATH

Few envy the RAF armorer in the photo above. Literally sitting on sudden death, he's making adjustments inside 8000-pound bomb.

Have You Heard?

A "Save-Your-Waste-Paper" campaign reminds one of the story of the four men who died on the same day.

One was an author. He left $5.

The second was a bookseller. He left $50.

The third was a publisher. He left $500.

Fourth was a waste-paper merchant. He left $50,000.

One of our prominent men, in an interview, was asked to give his definition of an expert.

His answer was succinct and definite: "An expert is one who can complicate simplicity."

—o—

Bill: "Did you go to your lodge meeting last night?"

Pat: "No, Bill, we have to postpone it."

Bill: "Why?"

Pat: "Well, you see, the Grand All Powerful, Invincible, Most Unconquerable Potentate 'dun got beat up by his wife."

A milkman, inducted into the army, wrote back home from camp: "Bessie, I sure do like this army life. It's nice to lie abed every morning until five-thirty."

—o—

Private Jones had been in the Army a week when the sergeant asked: "What do you think of the Army so far?"

"I may like it after a while," replied Jones, "but just now I think there's too much drilling and fussing about between meals."
