The School Act.

A statement by Premier Whitney as to the intention of the Government with regard to the public school act of last session was the feature of the session of the Legislature Friday last. The minimum salary clauses of that act have been the subject of considerable controversy, and amending legislation has of late been several time foreshadowed. The Government will not only largely increase the grants to the schools, but the new legislation will wipe out the basis of distribution as adopted last year, and specially encourage the payment to teachers of salaries above $300. It provides a new unconditional grant of $15 yearly to each school section, and substantial appropriations for equipment and accommodation. In the aggregate the Government increases its grant of last year to the rural schools by $202,000.

The Premier's statement was as follows:—

The situation as to rural schools is:

(1)—We have found that there is not a sufficient number of properly qualified teachers to meet the demand under the present law, and that this condition of affairs is likely to continue to a greater or less extent, until the new normal schools are established and begin their work.

(2)—It has become evident that considerable difficulty will arise in working out the provisions of the law as to increased salaries dependent upon the assessments, which vary very much.

For these reasons we think it best to make certain changes in the law as follows:—

(a) The minimum grant of $300 per annum by the township to each school section for salary will be retained.

(b) An unconditional grant of $1500 per annum will be made to each section.

(c) A grant will be made for the purposes of equipment and accommodation, and

(d) A grant of 40 per cent. will be made on the excess of all salaries above $300 and up to $600.

This will work out as follows: Appropriation for equipment and accommodation, $60,000; appropriation of $15 to each section, $80,000; appropriation of 40 per cent. on salaries over $300, $240,000; a total of $380,000.

To recapitulate, the total of proposed grants to rural schools this year is $380,000; the last grant by the late Government was $118,000; therefore the increase by the Government is $262,000.

Psychine conquers and cures Consumption, but it is much easier and safer to prevent its development by using Psychine. Here is a sample of thousands of voluntary and unsolicited statements from all over Canada:

Dr. T. A. Slocum, Limited:

Gentlemen,—I feel it my duty to advise you of the remarkable cure affected by your Psychine and Oxomulsion, which have come under my personal observation. Three men, well known to me, Albert Townsend, Hazel Hipson and John McKay, all of Shelburne County, were pronounced by the best medical men to have consumption, and to be incurable and beyond the reach of medical aid. They used Psychine and Oxomulsion and they are now in good health.

I feel it a duty I owe to suffering humanity to state these facts for the benefit of other sufferers from this terrible disease.

Yours very truly,
LEANDER McKENZIE, J.P.,
