Four Reasons—Among Many

Canadians are holding and buying more Victory Bonds because they realize:

—that in 1944, Canada's war expenditures may be the highest of any year to date and must be financed.

—that increased war production will shorten the war.

—that Victory Bonds are the best safeguard against the needs of the future.

—that Victory Bonds are the most secure and saleable investment, and yield a good interest return.

There is no better investment than Dominion of Canada Bonds.

How Can I?

By Anne Ashley

Q. How can I clean window shades?

A. Try rubbing them with a rough flannel cloth dipped in flour.

Q. How can I give a polish to cut glass?

A. Articles of cut glass will have a brilliant polish if a little turpentine is added to the water when cleaning them. Use about one tablespoon to two quarts of water.

Q. How can I make rice pudding with raisins so that it will not curdle?

A. Cook the raisins separately, as they frequently curdle the pudding. Drain off the water and add to the pudding when the rice is done.

Q. How can I bring back faded colors?

A. If colors have faded in a garment, use a little vinegar in the rinse water after laundering and it will help revive the colors.

Q. How can I make a wall paper cleaner?

A. Mix 1 cup of flour and ½-cup cold water to a smooth paste. Add 2 tablespoons salt, 2 tablespoons vinegar, 1 tablespoon kerosene. Boil until it thickens, stirring constantly. Allow it to cool, then knead thoroughly. Use the same as the manufactured kind.

Have You Heard?

Two dairies were engaged in an advertising war. One of the companies hired a daredevil racer to drive a car around the town with large placards reading:

"This Daredevil Drinks Our Milk."

The rival company came out with placards twice as large, reading:

"You Don't Have To be A Daredevil To Drink Our Milk."

—o—

Canadian sailor: "How fast are your aircraft carriers?"

American sailor: "Can't stay. Never realy tried em at top speed yet. All they've been required to do so far is keep up with the planes!"

—o—

Poetic Rover (to farmer): "And does this glorious setting sun mean nothing to you?"

Farmer (mopping his brow): "I'll say it does. It means I can eventually unhitch the horses and go home."

—o—

"I have a brother with a wooden leg."

"Thats' nothing. I've a sister who has a cedar chest."

—o—

Rustic: Ticket to London for the missus.

Booking Clerk: First or third, sir?

Rustic: Sh! She's the third, but I ain't never told 'er about the others!

—o—

Medium: "Ah, I hear the spirit of your late wife knocking."

Man: "Who's she knocking now;"

Easy to roll, delightful —to smoke

FINE CUT CIGARETTE TOBACCO

OTTAWA REPORTS

That Canadian Wheat Supply In 1945 Will Probably Be 10 to 15% Less Than In 1944

Canada's wheat surplus at the close of the current crop year is expected to be between 330,000,000 and 350,000,000 bushels compared with 594,000,000 at the end of July, 1943, but crop prospects are such as to suggest that total wheat supplies in Canada during the next 12 months will be perhaps only 10 to 15% less than they were in the crop year just coming to a close.

* * *

Reduction in prices of imported farm machinery, as a result of the Budget announcement of the cancellation of duty and war exchange, will amount to about 9½% on general line implements, 11½% on cream separators, 5½% on tractors and 5% on tractor repair parts, according to H. H. Bloom, administrator of Farm Machinery for Wartime Prices and Trade Board.

* * *

The new Federal bill to stabilize prices of agricultural products has its keynote in the clause providing that in prescribing prices, the administering board "shall endeavour to ensure adequate and stable returns for agriculture by promoting orderly adjustment from war to peace conditions, and shall endeavour to secure a fair relationship between the returns from agriculture and those from other occupations."

Legislation provides for the setting up of a Board of three to administer the Act and regulations passed from time to time. It authorizes the Board to prescribe, with the approval of the Governor-in-Council, prices at which the Board may purchase agricultural products in the market. Two alternate methods of stabilizing operations are provided for: first, that the Board may purchase products at the prices prescribed, according to standards and grades covered by Acts now in existence, or which may be set up by the Board. In the alternative, the Board is empowered to pay to producers the difference between the prices prescribed by the Board for any product, and the average price at which the product is selling on the open market, in case the average market price is below the prescribed price. Either method may be used at any time according to what the Board determines is necessary. A revolving fund of not more than $200,000,000 is provided by the Act for the Board's operation. All agricultural products are included except wheat which is already under the Wheat Board Act.

FLYING CHICKS

Just 24 hours before this picture was taken in Chicago, these biddies were eggs in California. United Air Lines Stewardess Lyn Stauffer fondles chicks which made trip as experiment in post-war possibilities in transportation by air of such items to foreign countries.

Strawboard Used In Containers

Those who are studying the request of the Hinde & Dauch Paper Company for wheat, rye and oat straw may be influenced by the knowledge that strawboard is urgently needed by the Department of Munitions and Supply.

Strawboard is used extensively in the manufacture of corrugated shipping containers for overseas shipments. It is also used in the packaging of certain foods for civilian requirements.

King and Queen See Robot Downed

The King and Queen of England saw a robot bomb shot down a short distance from where they were standing during a visit to an ack-ack emplacement, the BBC stated in a radiocast recorded by NBC.

Their Majesties were visiting the antiaircraft battery when a robot bomb sputtered overhead. The ack-ack blazed away and the bomb continued on its course until a fighter plane dashing out of a cloud bank detonated the missile with a burst of its gun.

Modern Etiquette

By Roberta Lee

1. Where should the waitress begin to serve at dinner, and should she then proceed to the right or the left?

2. When a girl is introducing a man to her mother, what would be the best phrase for her to use?

3. Is it in good form to send engraved invitations to a christening?

4. Is "Your's Very Truely" a correct closing for a letter?

5. Wouldn't it be time enough for a bride to wait until she returns from her honeymoon trip before acknowledging wedding gifts?

6. What does it mean when fricandeau is on a menu card?

ANSWERS

1. She should first serve from the left side, the woman guest of honor, who is seated to the right of the host, then proceed to the left. 2. "Mother, this is James Gray." If the man should be probably ten years older than the girl, she may say, "Mr. Gray." 3. It is done occasionally, but usually these invitations are extended by informal notes and telephone. 4. No, as there are three mistakes in the phrase. "Yours", without an apostrophe is the possessive pronoun. The word "very" and "truly" (not truely) should not be capitalized. It should read. "Yours very truly". 5. No; the gifts should be acknowledged before she goes away. 6. "Larded fried veal."

WHAT SCIENCE IS DOING

Lie Detector

At its last meeting the American Psychiatric Association expressed its low opinion of the lie detector in a resolution which pointed out that the findings were wrong in about thirty percent of the cases reported by Fred Inbau in 1942, that the feeling of guilt is too complex to be tested by any single instrument, and that the hardened criminal is more immune to the test than to the free interview and other modes of probing his mind, says The New York Times.

No definite conclusions can invariably be drawn when the lie detector is used, and even those that are valid are no more trustworthy than ordinary confessions. It is a question in the minds of the psychiatrists whether lie-detector findings are admissible as evidence in court, and this because the subject does not submit himself voluntarily to a test.

A lie detector may have its uses, but its findings should be correlated with those obtained by other means and then only by competent psychiatrists and psychologists.

There are 7,000 dogs serving in the British Army today. It takes 60 days to train each one, and on completing the course each animal goes to a unit with his trainer, where the duties comprise guarding aerodromes, depots, dumps, installations, power plants and secret enclosures.
