Genera Merchant and Tinsmith

Port Law - - Ontario

Farmers, Take Notice.

I have ceased working for McCormack machines, not that I had any fault with the implements, but Jackson & Hannah, of Markdale sold a McCormack six foot binder to Mr. Wm. McMullen last harvest for $125.00 on three pays, and his old Patterson binder and then sold the old binder for $1.50, and on next year's terms they are charged to those that perhaps they get them for less than I do. Why don't they sell them to Markdale farmers for the same? This I can prove. I have contracted with Peter Hamilton, of Peterborough, to sell his implements at Markdale and Flesherton. I will sell the binders, six foot on one pay $110, 2 pays $115, three pays $120; drills, one pay 12 hoe drill $61, 2 pays $63, three pays $65, and other sizes to correspond, smaller or larger. I will be at Markdale after the first of March every Saturday. Any one wanting machines or repairs will find me on Saturdays. I have some second hand Drills on hand, some only worked one and two years, Noxon, Oshawa and Peter Hamilton. Also agent for the Cockshutt Plow, Paris Manure Spreader and the Thresher.

D. MADILL.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best kind of a testimonial—"Sold for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of SARSAPARILLA, PILLS, CHERRY PECTORAL.

Spraying Potatoes for Rot

The Ontario Department of Agriculture is making an investigation into the potato industry of the province by Mr. H.B.Smith, B.S.A. After visiting the most important potato growing sections of Ontario, he is preparing a special report for publication. Pending the free report which will probably show a more serious state of affairs than is generally supposed, the following recommendations are put out with a view to impressing upon farmers the necessity of immediate action. The treatment of potatoes to prevent the rot is a matter of extreme importance.

Ontario produced fewer potatoes in 1906 than she ever produced in any single year in all the time the Provincial Department of Agriculture have been collecting information concerning the acreages annually devoted to farm crops. Within the past few years the area planted to potatoes in this Province has decreased by 50,000 acres; the product by approximately 6,000,000 bushels. Present indications are that the crop of 1907 will be lighter than last year's with the high prices that have ruled for some time strongly maintained. Farmers, on the right kind of soil, who have planted a good acreage to this crop this spring, will, if they are able to successfully bring their crop to maturity, reap larger returns from potatoes than they could likely derive from any line of farming in which they might engage and it is to point out briefly one or two little things that in these days must be attended to, if potato growing is to be successfully accomplished, that this article has been prepared.

Inability to cope with the rot has been the great cause of failure in potato growing in Ontario, yet five dollars or even less will cover the entire cost for material and labor required to treat one acre of Bordeaux Mixture and this mixture properly made and consistently and intelligently applied is a certain preventive of rot. From experiments officially conducted at Guelph, at Ottawa and at practically every experiment station in the United States and from the practical experience of growers everywhere, Bordeaux Mixture has proven the only effective remedy for potato rot. At Ottawa during the past three years the average increase in yield from spraying with this mixture was 94.5 bushels per acre.

Bordeaux mixture for potato spraying is made as follows: Copper Sulphate (Bluestone or Blue Vitrol), 6 lbs.; Unslaked lime, 5 lbs.; Water, 40 to 50 gallons.

As it is inconvenient to weigh the lime and copper at the time of mixing and quite impracticable to keep a supply of ready mixed Bordeaux on hand, stock solutions of the copper and lime are usually prepared ready for mixing as required. To prepare material sufficient to treat one acre of potatoes four times, proceed as follows: place 72 pounds of bluestone in a bag or basket and suspend it near the surface in 36 gallons of water in a barrel. It will dissolve in a few hours and every gallon afterwards dipped from this barrel will contain exactly 2 pounds of bluestone. For the lime stock water. Slake the lime by the use of as little of the water as possible, and when all is broken down, bring the solution to standard strength by adding what remains of the thirty gallons of water. Every gallon of lime mixture now contains exactly 2 pounds of lime. These mixtures, if kept under cover and evaporation prevented, will retain their strength all summer.

In making the Bordeaux it is important to remember that these strong "stock" mixtures must never be brought together. Pour 3 gallons of the bluestone solution into a forty gallon barrel. (an ordinary barrel holds between 40 and 50 gallons) half fill the barrel with water, add 2½ gallons of the lime solution, fill up with water, stir thoroughly and the mixture is ready for use.

For applying, a spray pump will be found economical of labor and materials, and the gain in product from one year's spraying of one acre of Potatoes will usually pay the entire cost of such an appliance, but if none is at hand, Bordeaux may be applied after the same manner as paris green would be applied in solution for bugs. The object is to keep the crop covered with the mixture during the season in which blight is liable to occur, and while modern spraying of farmers in Ontario who are obtaining quite satisfactory results from applying the Bordeaux by whatever means are at their disposal. In preparing the mixture where any kind of power sprayers are to be used, always strain the lime solution when mixing with the bluestone. The lime sometimes slakes lumpy and clogs up the nozzels. If required, paris green may be applied with the Bordeaux, adding half a pound of paris green to each barrel of the mixture.

Spraying should begin about July 15th and the vines kept covered till September. Four applications as required, will usually accomplish this. Some have got fairly satisfactory results from one good spraying just at the time the disease begins to spread, and as we gain in spray-experience, the number of applications may perhaps be decreased, but ordinarily, it is best to use the mixture at least four times.

Bordeaux is the only effective remedy yet devised for the control of potato blight. It is easy to make and easy to apply and where properly made and thoroughly applied is certain to be effective. The only precautions to observe in making are to use pure fresh materials and mix these in correct proportions and in the proper way, and in applying to keep the mixture on the vines during the season that blight is likely to appear.

HEALTH FOR WOMEN.

Mrs. Emma Daigle of Moncton, N. B., Sends an Open Letter to All Sufferers

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady in Moncton, Mrs. Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines didn't help. Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, given me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No more stimulant or alcoholic connection can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

That a flock of hens is about as good a paying proposition as a farmer can have, at the present price of eggs, was demonstrated by Nelson Mustard the other day. From 75 hens he gathered in one week 38 dozen eggs, which, at 16 cents a dozen, brought him $6.08. Allowing 58 cents for feed he had a net profit of $5 50 for the week.—Creemore Star.

The Cause of Sore Feet

Examine them and you'll probably find corns. Whether hard, soft or bleeding, apply Putnam's Corn Extractor. It's painless, it's sure, and above all quick to act. Insist on only "Putnam's."

John Lowery and his son, of Tecumseh, drove to the back of the farm the other day to shoot groundhogs. Lowery, senior, got out of the buggy to draw a bead on one of the animals they were in search of when the gun accidentally discharged, shooting the horse, which died shortly afterwards.

Oh, for a Clear Complexion!

A clear complexion is the outward evidence of inward cleanliness. In bad health the face becomes a sign-board, telling of disease within. If yellow, bile is not properly secreted; if pallid, the kidneys are faulty; if skin is murky and dark circles beneath the eyes, look for constipation. Whatever the cause, no remedy compares with Dr. Hamilton's Pills which are mild, safe, purifying and vitalizing in their action. They give a marvelous rosy tint to the cheeks, brighten the eyes and establish health that defies age and disease. Sold everywhere in 25c boxes.

For stomach troubles, biliousness and constipation try Chamberlain's Stomach and Liver Tablets. Many remarkably cures have been effected by them. Price 25c. Samples free. For sale by W. E. Richardson.

Shorthorn Cattle for Sale

Levinias and Wimples, the best of breeding and quality. Bull, cows and heifers for sale at reasonable prices
