A REAL CHANCE IN LIFE FOR YOUR BOY WHEN HE RETURNS FROM

The War

WE think you would like *your* boy to have a real chance in life when he returns. The CCF candidate is now knocking the laws which give your boy this chance. Does he not know that the CCF voted for all these measures when the Government introduced them in Parliament? Here is a brief outline:

1 WHAT WILL YOUR BOY GET IN CASH?

As an example:—If your boy is a Private, and unmarried, with 2 years' service in Canada and 2 years' Overseas, he will get CASH amounting to $762.00. If married, with 2 children, he gets $884.02.

If a Sergeant, and single, cash is $802.60. Married, with 2 children, $924.62. If a Lieutenant, single, $977.60; if married with 2 children, $1,118.92.

Now remember, that is CASH in the hand. That's only the start.

2 IF HE NEEDS TRAINING OR EDUCATION

The Government will pay for his training in a trade, business or profession. All fees are paid and he receives living allowances while attending his course. If single, he gets $60.00 a month; if married, $80.00—and upwards if there are children.

3 IF HE WANTS A FARM

If he has experience, he can buy a $4,800 farm for $480 down. The Government supplies him with livestock and equipment up to $1,200. Then, he pays back only ⅔ of the $4,800, which is $3,200 and he can take up to 25 years to do it. The other $1,600 (minus his $480) and the stock and equipment are an outright gift. How does he get the $480 down payment? His cash benefit (see above) in most cases is more than enough.

4 FISHING OR A FEW ACRES

If he wants to go into commercial fishing, the Government will help him with similar plans. Or he can have a few acres of land, and a nice home with full equipment, near some steady employment, on the same terms.

5 MORE MONEY FOR USEFUL PURPOSES

But that's not all. If he does not take training or a farm, there are other grants for buying, furnishing or renovating a home, for buying tools and instruments for a trade or profession, for buying a business or setting up a business or for paying premiums on government insurance. The amount is $7.50 for each month's home service, $15 for each month's service overseas.

6 IF DISABLED

He gets a pension as well as these other things. Despite his disability he can get up to $10,000 of life insurance from the government without medical examination at the same rates as a fit man pays to an insurance company.

7 MEDICAL AND DENTAL CARE

Apart from war injuries—he can get free medical and dental care for one year after leaving the services.

8 OLD JOB BACK

If your boy wants his old job back—it is the law that he gets it—or one at least the equal.

9 CIVIL SERVICE

He gets preferences in Civil Service employment, if he can pass the exams. A civilian with higher marks can't crowd him out.

10 PRACTICAL HELP

In addition to these things, your boy will receive all possible advice and guidance in the selection of worth-while and satisfying work, and every help in securing such jobs.

These are a rough outline of Laws already passed and in effect. They are set up to give your boy an equal or better chance—when he returns. They are aimed at fulfilling every legitimate ambition—giving every returned man freedom from worry—independence—and a good place in the post-war world.
