Big Three Plan Military Eclipse Of Germany And Beginning Of Peace

From Feb. 4 to Feb. 11 President Roosevelt, Premier Stalin and Prime Minister Churchill with their staffs of military and political advisors held day-and-night sessions at Yalta, Crimean watering resort on the Black Sea.

Their program embraced plans to smash, occupy and control Germany; to assist Europe's liberated peoples in solving their pressing political and economic problems and to organize "a secure and lasting peace".

Missing was any reference to possible Russian participation in the Anglo-American war against Japan.

This, in quick summary, is what the Big Three propose for Germany:

1. Defeat.
2. No destruction of the German people.
3. Disarmament.
4. Elimnation of the General Staff.
5. Payment of reparations.
6. Elimination or control of potential military production.
7. Punishment of war criminals.
8. Wiping out of the Nazi Party
9. Elimination of Nazi institutions and laws.
10. Removal of militaristic influences.
11. Measures necessary for "peace and safety" of the world.

Nothing For Nothing

That important side of social security about which so little is heard during election campaigns—the cost of such services to the taxpayer—received a pointed airing during the recent British House of Commons debate on the governments's social insurance scheme, says the Regina Leader-Post.

Total annual cost of the scheme at the beginning is placed at $2,600 million. Of this, one-half will be a direct charge on the British taxpayer. Within 30 years, the cost will have reached $3,324 million, and at this point the taxpayers will bear two-thirds of the charge.

And just in case anybody thinks the largest part of this will be borne by those in the high income brackets, it has been accurately computed that the only way the scheme can be carried at all is through collecting one-third of the required tax revenue from those whose incomes are under $2,500 a year.

Paris has a talking clock, which automatically tells the time when rung up. Four million people used the service in one year.

7,000 Miles of Rail Restored In France

United States, Army Engineers have rehabilitated 7,000 miles of European railroads for use by Allied armies as supply routes to the Western Front, it was announced recently.

The Engineers have restored 5,000 miles of double track and 2,000 miles of single track in France and Belgium, including all major rail networks in Allied territory and reconstructed 172 major rail bridges destroyed by bombing or enemy demolition.

Likes All Animals Except Germans

The educational expert who has been recommending that in time of war even school children should "learn to hate" would perhaps be satisfied with the first step in that direction as taken by Erica Ann, aged four years who had just paid a visit to the Zoo in Manchester, England. On the journey home her aunt asked which of the animals she had liked best. Much to the amusement of other passengers, she replied in a clear voice: "I like all animals except Germans."

THE OLD METHOD OF EGG PRODuction was largely a gamble. Egg prices went so high in October and November that people quit eating eggs. Then in the Winter and early Spring months when production came, there was no demand and the bottom fell out of the market. The way to avoid this is to secure early chicks. The present price schedule insures remunerative returns the year round. Not a high price for a few months and then low prices for several months. You will not only make extra money with early hatched chicks but you will save money by ordering early and taking early delivery.
