Scot Outscotched

We hope no Scot will get mad at us, as we don't vouch for the yarn, through it comes from the hitherto reliable Emerson Journal: "A blood transfusion was needed by a lady in a hospital and a brawny Scot volunteered. She paid him $25 for the first pint and $12 for the second. The third time, she had so much Scotch blood in her she just thanked him." —Ottawa Citizen

Specialized Staff Ready To Handle Repatriation Job

The first of 2,000 specialized workers — their number may rise to 10,000 — are being concentrated on Germany's borders ready to handle the greatest repatriation problem in history, UNRRA officials have disclosed.

The problem is that of returning home some 12,000,000 European nationals taken into Germany.

So great is the task, one UNRRA official said, that one train every hour would be needed to move all the displaced persons within 18 months. That is impossible, and it may require two to three years to complete the repatriation.

Assembly areas will be established at certain points in occupied Germany, and displaced persons will be brought to them for identification and questioning.
