The Ailments of Women

If the girls and women who suffer with what they think is "Female Trouble" would look to their kidneys, they'll soon find the source of their ill-health. The kidneys are closely allied with the female organs, and if the vitality of the kidneys is interfered with, great suffering occurs. There is no better medicine than Dr. Hamilton's Pills,—they stimulate and strengthen the kidneys, assist other organs to do Nature's work, cleanse the system and thereby maintain perfect health. Great benefit and certain cure is guaranteed for all women who use Dr. Hamilton's Pills.

While Mrs. W. H. Thompson, of Mayburne, was returning home through Sunday night's blizzard from visiting at her father's, a quarter of a mile awry, she took a short cut across the fields but lost her way, and wandered around for some length of time till almost exhausted. The lantern which she carried was of very little use to her in the blinding snow and wind. Her friends became anxious about her, and her brother, Bertram Neithercut went in search and finally found her in the woods on a neighboring farm. She had no idea where she was and had given up in despair of reaching home.—Herald.

The common house-fly has long dwelt an object of suspicion among intelligent and moral committies, but it has remained for a committee of the New York Merchants' Association to catch him red-handed in the act of poisoning whole neighborhoods. This committee was struck by the prevalence of summer intestinal diseases and typhoid fever along the water-front of the city. Their bacteriologist set a series of fly-traps along the wharves. These were visited at frequent intervals, and the captured flies removed to a laboratory, where they are allowed to crawl over gelatin plates, upon which their footprints left swarms of bacteria. One particularly depraved fly, a veritable Lucrezia Borgia, deposited one hundred thousand germs Those flies which were captured near the mouths of sewers were the most dangerous. Consultation of maps showing the distribution of cases of typhoid and other testinal diseases disclosed the fact that a disease belt from one hundred to 200 yards wide extends completely round the New York water-front, and the date of greatest prevalence corresponds closely with that of the greatest number of flies.

Neglected Colds Threaten Life.

[From the Chicago Tribune]

"'Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be a slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by W. E. Richardson.

Children Enjoy It

"I have used Coltsfoote Expectorant with the greatest satisfaction with my children. It is a wonderful cure for colds and sore throat. I believe it saved the life of my little son, who was very sick from a protracted cold on his lungs."

MRS. ANNIE BRAMBLER.
Orangeville, March 15, 1907.

"I am greatly pleased with the good results we got from Coltsfoote Expectorant. I get great comfort with it for my children."

Forward, jump forward, oh time in your flight,
Give us some May weather, just for to-night;
Snow storms and blizzards are making us old,
We shiver and shake in our beds with the cold;
Melt up this blanket of shimmering white,
Give us some May weather just for to night!

A remarkable instance of wireless telegraphic communication has been verified at the Bureau of Equipment, U. S. Navy Department. A wireless station at Point Loma, near San Diego, Cal., picked up the Connecticut, then takling off the coast of Cuba, took down the message and also picked up a message being sent from the wireless station at Pensacola, Fla. Experts are wondering whether the message went across the continent or in the other direction around the world.

To Cure Toothache

Search over the whole globe and you'll not find the equal of Nerviline. An aching tooth it relieves at once. Fill the cavity with batting dipped in Nerviline and rub the gums with Nerviline also. If the face is swollen and sore, bathe with Nerviline and then bind on a hot flannel. Just as good for earache, neuralgia or stiff neck. A 25c bottle of Nerviline cures the aches of the whole family. Try it.
