ASPARAGUS MEAL APRIL 13

The editor of The Advance had a delicious repast from our garden recently when we cut enough asparagus for a meal on Friday, April 13th. It was the earliest that we have ever enjoyed this delicacy fresh from the garden. The cold weather coming on immediately afterward stopped the gathering of the green shoots, but with mild weather again we hope to enjoy more very soon.

TWO JOBS OF POCKET CLEANING

If Germany does not surrender unconditionally, there will be no V-Day proclaimed in Europe until all Germany has been occupied. For this, we have the word of General Eisenhower. The Commander-in-Chief of the Allied Forces in Western Europe also declared that several pockets of enemy resistance.

Our troops have already shown keen proficiency in the job of cleaning out such pockets. And with final victory all but achieved, they will be ready again to close in on the Germans, fully realizing that they may die just a few days before all will be preparing to come back home and to all the precious associations of home.

Coincident with this situation on the European battlefront, citizens of Canada also face a pocket cleaning job. To pay the financial cost of the European victory which is now almost ours, to maintain Canada's armed forces until such time as they have been demobilized, to divert war materials to the Far East and to meet the financial bonuses which we have promised to our veterans of war the Eighth Victory Loan objective of $1,350,000,000 must be reached. And to reach it, individual citizens will need to retain all the enthusiasm which they displayed in previous Victory Loans, just as we expect our boys in Germany to be as aggressive in the last battles as they were at Caen and on the Rhine.

Flesherton has always been a leader in bond purchases. The total bought during the seven Victory Loans was $321,000, and the interest on these bonds amounts to $9,630. Artemesia, one of the heaviest buyers among the townships of the County has bought $666,000 on which the interest is $19,780 annually. Osprey purchases were $421,000, and interest in the amount of $12,630 comes in each year from the Osprey bonds.
