Spent Eighteen Dollars

"Gentlemen,—I have pleasure in stating that I have used $18.00 worth of Psychine, and as a result was cured of very serious throat and lung trouble.

My case was a most difficult one, and the doctors had practically said that I could not get well. I tried Psychine, and it did me so much good that I continued its use until I had taken $18.00 worth, with the result that I am now a new man physically. I have gained thirty-five pounds.

"It is with the greatest confidence that I recommend Psychine to all who are afflicted with throat or lung trouble.

Yours truly, C. A. PINKHAM.
Scotstown, Que., Sept., '07.

This man speaks from experience. Psychine cures all throat, chest, lung and stomach troubles and gives renewed strength and vitality to run-down people. At all druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, Toronto.

Good Oil Indications.

The oil drillers at Kimberley are at present much elated at the prospect of getting oil. At a depth of 500 feet the slate rock was struck and on Monday the rock brought up by the drill was strongly impregnated with indications of oil or gas. The drillers confidently expect to find something this week—oil or gas or both.

An interesting find was made in connection with the drilling on Saturday, when, just before reaching the rock at 500 feet, teeth and pieces of bone were brought up. The teeth are said to somewhat resemble horses teeth. These should be preserved for scientific purposes.

Which Liniment is Best?

For muscular pains and aches a thick oily preparation can't penetrate—that's why Nerviline beats them all—it sinks right in. "I wouldn't live without Nerviline in my house," writes J. B. Cottam, of Mastown, N. S. "If you have rheumatism or soreness in the muscles or in fact any need of an honest liniment, Nerviline fills the bill. I can recommend it highly because I have proved that in one application of Polson's Nerviline there is more virtue than in a whole bottle of ordinary liniment." Try one of the large 25c. bottles.

One of the mysteries of rural life in Ontario, says the Toronto Telegram, is the ability of the cattle buyers to live and die amid the delights of a business in which they will never admit making money. A keen rural observer said:—business is very good when the cattle buyer only loses $2 a head on his purchases. When he loses $3 a head business is average, and when he loses $5 a head business is bad. The oldest inhabitant of many a rural locality cannot recall a time whe the cattle buyers would confess to making a profit on their purchases and shipments.

The body of John Hambly, a well-known well digger, who disappeared mysteriously about the end of November last, was found in a tannery vat at Orangeville. He leaves a wife and small family. There is no suspicion of foul play.
