TINY VICTIM TELLS OF JAP BRUTES

A Jap bayonet made that ugly scar 11-year-old Rosalinda Andoy displays while testifying in the war crime trial of Gen. Tomoyuki Yamashita in Manila. And the wound was only one of the 38 found upon her tiny body. She also told of witnessing the bayoneting to death of her father and mother. The prosecutor standing at her side is Maj. Glicerio Opinion.

HAVE YOU HEARD?

"Bill's going to sue the company for damages."

"Why, what did they do to him?"

"They blew the dinner whistle when 'e was carrying a 'eavy piece of iron, and 'e dropped it on 'is foot."

"Bill, what's reconversion, anyhow?" asked Elsie.

'Well," replied the wise little sixth grader, "it's making Arthur's pants fit me."

Automobile Dealer: "Is the new man a good salesman?"

"Asistant: "He must be right on the beam—he says he once sold a trouser press to a kilted Scotsman."

Jack: "Let's give the bride a shower."

John: "Count me in—I'll bring the soap!"

Husband: "That racket? Oh, that's the coal man dumping the coal in the basement."

Wife: "But I thought you ordered soft coal this year!"

China Buying Ships

Communications Minister Yu Feing Peng said T. V. Soong had ordered 30 Liberty ships from the United States and Canada, 15 from each country. He said Soong also was planning to order 500,000 crossties from Canada for railway repair.

WHAT SCIENCE IS DOING

Arms Into Fingers

A rare surgical operation which converts the stump of a forearm into two large fingers is being used at Mare Island Naval Hospital, Cal., to rehabilitate men who lost their hands in combat.

The surgeon splits the arm lengthwise nearly to the elbow by severing the flesh between the two long bones. Some of the long muscle tissue is removed and the lesser muscles are rearranged, to give space between the separated members and to permit the skin to cover the surgical wounds.

The patient then has two outsipe fingers which, unlike those of an artificial hand, retain the sense of touch and move under the stimulus of nerve impulses. In artificial hands the fingers are moved by mechanical devices.

Capt. Henry H. Kessler, Navy surgeon, of Newark, N.J., who has performed three such operations in the Pacific area, permitted reporters to see his newest patient, Marine Sgt. Robert Moore, 28, of Richmond, Calif., who underwent the operation a month ago.

Sergeant Moore demonstrated that he could use the fingers like forceps, grasping and releasing bits of cloth, and that he could feel with them. The rearrangement of the muscles plus the natural twisting power of the forearm causes the opening and closing motion.

56th Atlantic Crossing

When the hospital ship Lady Nelson docked in Halifax last week, the former flagship of the Canadian National Steamships West Indies fleet completed her 56th Atlantic crossing. She has made 28 voyages as a mercy ship.

Goes From Cottage To Indian Palace

Britain's new Governor of Bengal will move straight from a small worker's cottage to one of the most magnificent palaces in the British Empire.

Frederick John Burrows, former railroad porter and sergeant-major in the Great War, will succeed Australian Richard Casey in February as governor of the Indian province with a population of 60,000,000.

Mrs. Burrows will leave the cottage at Ross-on-Wye, Herefordshire, where she does her own housework, to become first lady of the wealthy Indian province. She has never been outside Britain.

"We shan't be any different, though," she told newsmen. "We are working people and always will be. I'll try to do everything I'm expected to do."

She revealed that one of her chief concerns was geting sufficient and appropriate clothes.

"I need more coupons for dresses," she said.

Burrows, 56, heavily built six-footer, is known simply as "Fred" to railwaymen.

His salary as Governor of Bengal will be £9,000 a year. The most he ever made as a railwayman was £260 annhally.

Just One Coupon

Queen Elizabeth said she could spare "just one clothing aoupon" when she visited a disabled men's exhibition of crafts not long ago in London. She boubht a scarf.
