THE PANGS OF SCIATICA

Can Be Cured by the Fair Use of Dr. Williams' Pink Pills.

Fierce darting pains. Pains like red hot needles being driven through the flesh—in the thigh, perhaps down the legs to the ankles—that's sciatica. None but the victim can realize the torture of this trouble. But the sufferer need not grow discouraged for there is a cure in Dr. William's Pink Pills. These Pills enrich the blood, feed the starved sciatic nerve and thus drives out the pain. Mrs. Joseph L. Brown, Wilmot, N. S., was a victim of sciatica and found a cure in Dr. Williams' Pink Pills. She says:—"For a year I was laid up with sciatica from my side to my foot. What I suffered was at times awful. I could not touch my foot to the floor and had to hobble about with a cane. My right leg was drawn up, and I never expected to have the use of it again. I was attended by our family doctor, and tried several other remedies, but with no benefit, and I felt very much discouraged. One day I read of the cure of a similar sufferer through Dr. Williams' Pink Pills, and I decided to try them. I got six boxes, and by the time I had taken them I was completely cured, and have not had the slightest twinge of the trouble since. I am therefore, a very enthusiastic friend of Dr. Williams' Pink Pills, and recommend them to all who are similarly troubled."

There is no mystery about the cures Dr. Williams' Pink Pills make. They act upon the blood, enriching and purifying it, and in this way feed the nerves an' reach the root of the disease. That is why they cure such common ailments as anaemia, pimples and eczema, indigestion, rheumatism, neuralgia, St. Vitus dance, paralysis, and the irregularities in health of growing girls and women. Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for $2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

THE PAY-SHEET OF KINGS

THE PAY-SHEET OF KINGS.

WANTS A "RISE."

His Income of $4,500,000 is Not Considered Excessive for His Majesty.

The German Emperor as King of Prussia wants to have his salary raised. At present he receives from the State $650,000 as German Emperor and $3,852,770 as King of Prussia. The last increase, which amounted to $750,000, was made in 1889, in the second year of his reign. In spite of this, however, he is actually getting $1,950,000 less than the old Kings of Prussia annually received.

An income exceeding $4,500,000 is not a despicable sum even for Kaiser William, but those who know say it is not excessive, considering that there are no allowances to other members of the Royal Family, and that very little comes from the Royal domains.

The Kaiser has several hundred uniforms, and his tailor's bill runs into pretty tall figures. He has complete uniforms of all the Prussian regiments—horse, foot, and artillery—besides the regiments of the lesser States, and those of which he holds honorary rank in foreign countries. Every appointment is perfect, from the shoulder knots, which cost more than the uniform itself, to jewelled accoutrements fit for

AN ORIENTAL AUTOCRAT.

When he travels it is always in much pomp and ceremony and accompanied by a large retinue. Hence his official revenue is not enough to keep him. In addition to the up-keep of his fifty-two castles, palaces, and country houses, and innumerable farms and forests, he is expected to maintain the Royal theatres at Berlin, Hanover, and Cassel, and must also foot the bills for the Royal concerts.

The Kaiser is very lucky, however, in the way of legacies from wealthy subjects. Only a few years ago Herr Wilhelm Hildebrand left him an estate worth $375,000 and $750,000 in hard cash; a gift matched by that of a West Prussian landowner, who gave him a 5,000-acre estate as an earnest of greater possessions to come at the donor's death. Then there was the $500,000 bestowed upon him by Baroness Oppenheim-Cohn, and the $2,500,000 placed at his disposal by Herr Henckel von Donnermarch in 1905. "To him that hath shall be given."

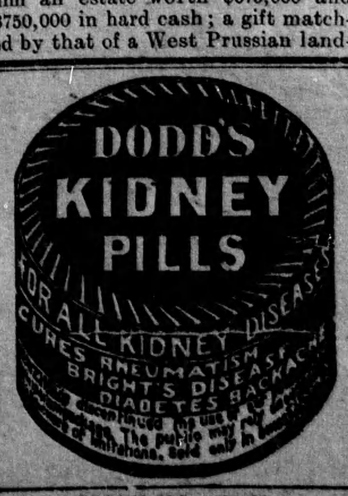
With reference to the Kaiser's demand for increased pay, it may be mentioned that King Edward gets $2,350,000 for his own use, while each member of the British Royal Family receives various grants which exceed $500,000 per annum. Besides his official salary King Edward has

A LARGE PRIVATE PURSE.

The Kaiser is by no means the best-paid monarch in Europe. The Emperor of Austria outdistances him with his salary of $4,700,000, which sum is derived from the two portions of his monarchy.

The best-paid monarch in Europe is the Czar of Russia. The State Treasury pays out $7,500,000 per annum for the needs of the Imperial House. In addition the reigning Empress and the Dowager Empress each have an allowance of $100,000 a year. Every child born to the Czar receives from birth to the age of twenty-one nearly $20,000 a year, while the heir to the throne receives annually, in addition to maintenance of palaces, $50,000. Daughters receive a dowry of $500,000 when they marry.

Contrasted with these generous grants the salaries of rulers of smaller countries seem beggarly in proportion. The King of Italy has $3,200,000 a year, but the King of Greece only receives $20,000. This sum is so inadequate to keep up his position that Great Britain, France and Russia each pay him $20,000 a year. The French President has a salary and allowance of $240,000, whilst the President of the United States has to make both ends meet on $50,000. And yet, with all their enormous incomes, some of these great potentiaries of the earth are not half so happy as many a man with $300 a year.—London Tit-Bits.



ISSUE NO. 49—08.

DELICATE CHILDREN MADE WELL AND STRONG

The little ones are frail. Their hold upon life is slight. At the very first symptoms of trouble Baby's Own Tablets should be given. This medicine cures colic, sour stomach, indigestion, diarrhoea, constipation, teething troubles and other minor ailments. It is equally good for the new born babe as the well grown child. Mothers have the guarantee of a government analyst that this medicine contains no opiate or poisonous soothing stuff. Mrs. Cressman, New Hamburg, Ont., says:—"I have used Baby's Own Tablets for stomach trouble and constipation with marked success. I feel that my little ones are safe when I have a box of Tablets in the house." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Colonel Fizzletop was under the painful necessity of administering a severe castigation to his son Johnny. After he had completed his labors, he said sternly to the suffering victim:—"Now, tell me why I punished you?" "That's it," sobbed Johnny; "you nearly pound the life out of me, and now you don't know why you did it."

Chilled to the Bone? A teaspoonful of Painkiller in a cup of hot water sweetened will warm you and avert a cold. Avoid substitutes, there is but one "Painkiller"—Perry Davis'—25c and 50c.

Holland has over 10,000 acres devoted to the cultivation of bulbs.

Country Doctor's Coachman (to horse that has stopped at house of former patient)—"Go on, you fool. He's dead."

On a big oak-tree there are more than 7,000,000 leaves.

It is easier for most people to heave a sigh than to raise a laugh.

The tea you buy may be good, but you may be quite sure it is if it is "Salada." It is infinitely more delicious and decidedly more economical than other teas because it goes farther.

RECOGNIZED HIM.

Blinks, after inviting his friend Jinks, who has just returned from abroad, to dinner, is telling him what a fine memory his little son Bobby has.

"And do you suppose he will remember me?" said Jinks.

"Remember you? Why, he remembers every face that he ever saw."

An hour later they enter the house, and after Jinks has shaken hands with Mrs. Blinks, he calls Bobby over to him.

"And do you remember me, my little man?"

"Course I do. You're the same feller that pa brought home last summer, and ma was so wild about it that she didn't speak to pa for a whole week."

Salmon, pike, and goldfish are supposed never to sleep.

YOU NEED FEAR IT NO LONGER

GRAVEL WARDED OFF AND CURED BY DODD'S KIDNEY PILLS.

Manitoba Man Tells How His Urinary Troubles Vanished Before the Great Canadian Kidney Remedy.

Hamrlik, Man., Nov. 30 (Special)—Probably there is no disease to which man is heir that causes such a general dread as Gravel, or Stone in the Bladder. The frightful pains it brings and the terrible operations it necessitates causes a shudder of apprehension whenever it is mentioned. But there is really no reason why any man or woman should fear Gravel. It is purely and simply a Kidney disease, and as such can be either cured or guarded against by the use of Dodd's Kidney Pills. Take the case of Mr. Calvin R. Snyder, well known here. He says:—

"In the spring of 1907 I was almost laid up from a lame back and was also troubled with excessive urination. I got a box of Dodd's Kidney Pills, and used them with satisfactory results. Dodd's Kidney Pills are the best Kidney medicine I ever heard of."

If you follow Mr. Snyder's example and use Dodd's Kidney Pills for slight urinary disorders, you will never be troubled with Gravel. If you have Gravel, Dodd's Kidney Pills will cure it.

THE CHART DIDN'T SHOW IT.

There is no occasion which presents such terrible advantage to the practical joker as that of a sea voyage, and there is none on which his jocosities become more unbearable. The following incident embodies one of his most ambitious efforts.

When we were in the middle of the Gulf of St. Lawrence, and the nearest coast was 200 miles away, a Yankee quietly remarked:—

"Wal, I guess we are quite close to land now. It ain't more'n three-quarters of a mile away, nohow."

Personally we took no interest in facts of this nature, and were content to sit and believe, but many excited travellers dashed out of the smoking-room to have a look at the long-hoped-for continent. They presently came back in the worst of tempers, saying that the charts and all other authorities declared the land to be at least 200 miles away, and that there was certainly none in sight.

"Wal, I didn't say the shore," returned the champion joker. "I guess there's land right under us, not three-quarters of a mile away."

A Requisite for the Rancher.—On the cattle ranges of the West, where men and stock are far from doctors and apothecaries, Dr. Thomas' Eclectric Oil is kept on hand by the intelligent as a ready made medicine, not only for many human ills, but as a horse and cattle medicine of surpassing merit. A horse and cattle rancher will find matters greatly simplified by using this Oil.

"Yes," remarked Mrs. Malaprop-Partington, "we had a lovely time in Venice. There are no cabs there, you know, because the streets are all full of water. One hires a chandelier and he rows you about in a dongola."

MOTHERS!

Give the Children a Chance.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 103, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Every time some people say smart things they make others smart.

Australia's only beast of prey is the dingo, a wild dog.

Are you a sufferer with corns? If you are, get a bottle of Holloway's Corn Cure. It has never been known to fail.

He—"Miss Kitty, I've heard it said that a kiss without a moustache is like an egg without salt. Is that so?" She—"Well, really, I don't know—I can't tell—for in all my life I never——" He—"Now, now, Miss Kitty!" She—"Never ate an egg without salt."

CHARGE OF THE LIGHT BRIGADE.

"You give me a pane," said the window sash to the glazier.

"That's all right," rejoined the man with the putty knife, "but it will be charged up to your boss, just the same."

RENEW YOUR YOUTH.

Never before has the struggle for social and commercial success been so keen as in our own day, and to the victor and the vanquished alike comes a time when nerves and body cry for rest. Nature and science have combined to produce an environment where tired men and women may renew their youth. On the main line of the Grand Trunk Railway System, at St. Catharines, Ontario, is situated "The Welland," where the ills of life are alleviated by bathing in the Saline Springs of the "St. Catharines Well," under proper medical supervision and attendance. Apply to J. D. McDonald, District Passenger Agent, Toronto.

The Parson—"Ah, Pat, wasting your money in there again! You ought to put by for a rainy day." Pat—"Sure, then Oi'd never spend ut at all. It's laid up wid rheumatism Oi am when the weather's wet, and can't go out o' the house."

In Nature's Storehouse There are Cures.—Medical experiments have shown conclusively that there are medicinal virtues in even ordinary plants growing up around us which give them a value that cannot be estimated. It is held by some that Nature provides a cure for every disease which neglect and ignorance have visited upon man. However, this may be, it is well known that Parmelee's Vegetable Pills, distilled from roots and herbs, are a sovereign remedy in curing all disorders of the digestion.

Every time a man refuses to hear what we have to say, we are usually conceited enough to declare that he "won't listen to reason."

No Reasonable Man expects to cure a neglected cold in a day. But time and Allen's Lung Balsam will overcome the cold and stave off consumption. Cough will cease and lungs be sound as a new dollar.

Our idea of a sane man is one who can be in love without acting foolish.

There are two kinds of small boys—bad boys and sick ones.

Often what appear to be the most trivial occurrences of life prove to be the most momentous. Many are disposed to regard a cold as a slight thing, deserving of little consideration, and this neglect often results in most serious ailments entailing years of suffering. Drive out colds and coughs with Bickle's Anti-Consumptive Syrup, the recognized remedy for all affections of the throat and lungs.

Amanda—"I wish I knew how I could make you very, very happy, dear Jack!" Jack—"Well, write to your father and ask him to double your dowry!"

Be Sure you get the kind you have always had, "The D & L" Menthol Plaster. For rheumatism, neuralgia, etc., nothing is better. Made only by Davis & Lawrence Company.

She—"This dress doesn't become my complexion. I must change it." He—"More expense? I can't stand it; you'll ruin me!" She—"You silly! I don't mean the dress — I mean the complexion."

There can be a difference of opinion on most subjects, but there is only one opinion as to the reliability of Mother Graves' Worm Exterminator. It is safe, sure and effectual.

The difference between fame and notoriety is that in the case of notoriety they usually get your name spelled correctly.

STOPS AND POINTS.

Punctuation Originated in the Third Century.

Punctuation by means of stops and points, so as to indicate the meaning of sentences and assist the reader to a proper enunciation, is ascribed originally to Aristophanes, a grammarian of Alexandria, Egypt, who lived in the third century B.C. Whatever his system may have been, it was subsequently neglected and forgotten, but was reintroduced by Charlemange, the various stops and symbols being designed by Warnefried and Alcuin.

The present system of punctuation was introduced in the latter part of the fifteenth century by Aldus Manutius, a Venetian printer, who was responsible for our full stop, colon, semicolon, comma, marks of interrogation and exclamation, parenthis and dash, hyphen, apostrophe and quotation marks. These were subsequently copied by other printers, until their use became universal.

Most ancient languages were innocent of any system of punctuation. In many early manuscripts the letters are placed at equal distances apart, with no connecting link between, even in the matter of spacing, an arrangement which must have rendered reading at sight somewhat difficult.

A Cure for Costiveness.—Costiveness comes from the refusal of the excretory organs to perform their duties regularly from contributing causes usually disordered digestion. Parmelee's Vegetable Pills, prepared on scientifis principles, are so compounded that certain ingredients in them pass through the stomach and act upon the bowels so as to remove their torpor and arouse them to proper action. Many thousands are prepared to bear testimony to their power in this respect.

Guest—"Waiter, take back this beef-steak. It isn't cooked enough." Waiter—"I thought you said you wanted it underdone, sir?" Guest—"Underdone! Why, it's so raw you can hear it bellow."

We Must Go from heated rooms to the cold outer air, and the change sets us coughing. Curing winter colds is not hard if you take Allen's Lung Balsam. A neglected cold is troublesome and dangerous.

"That large man thinks himself a pretty important personage in this place, doesn't he?" asked the stranger. "Important?" exclaimed the native. "Why, if you tell him we're having fine weather here, he swells up as if he thought he made it."

LIQUOR AND TOBACCO HABITS

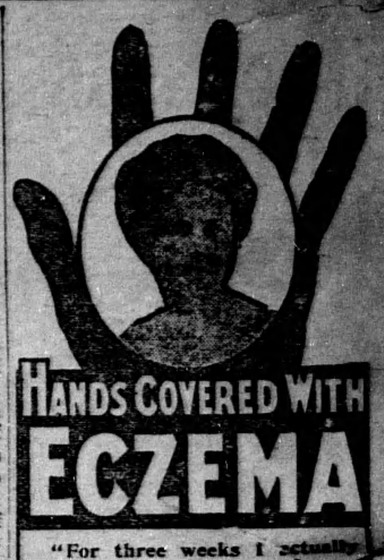
A little added to any kind of soup makes it more tasty and greatly increases its value as a food.

A little BOVRIL in the gravy is an improvement with roasts of all kinds.

BOVRIL IS LIQUID LIFE



HANDS COVERED WITH ECZEMA

"For three weeks I actually had to be fed like one feeds a baby, because my hands and arms were so covered with eczema that they had to be bound up all the time."

That is the experience of Miss Violet M. McSorley, of 75, Gore Street, Sault Ste. Marie. She adds: "I could not hold spoon nor fork. From finger tips to elbows the dreaded disease spread, my finger nails came off and my flesh was one raw mass. The itching and the pain were almost excruciating. I had three months of this torture and at one time amputation was discussed."

"Zam-Buk alone saved my hands and arms. I persevered with it and in the end had my reward. To-day, I am cured completely of every trace of the dreaded eczema, and I fervently hope that sufferers from skin disease may know of my case and the miracle Zam-Buk has worked."

Zam-Buk is without equal for eczema, ringworm, ulcers, abscesses, piles, cracked hands, cold sores, chapped places, and all skin injuries and diseases. Druggists and stores at 50 cents a box, or post free from Zam-Buk Co., Toronto, for same price. You are warned against dangerous substitutes sometimes offered as "just as good."
