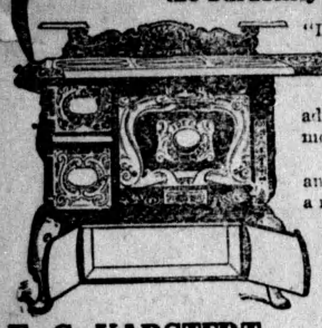
"Ideal Peninsular"

Has the Advantages of a Steel Range with the Durability of a Cast-Iron Range



"Ideal Peninsular" is the ideal range for a small kitchen.

It gives the conveniences of the best steel ranges with the added advantage of being cast-iron and therefore more durable.

The "Ideal" burns either wood or coal and the grate bars may be changed in half a minute.

Step in and let us show you the Drop Oven Door—Low Warming Closet—Adjustable Damper—Daylight Oven and other improvements. Always glad to explain the superiority of these fine ranges. 70

An Italian Poster

Last week The Advance had occasion to print 500 posters of a unique nature for a country office. The following is what appeared on the posters:

"Concerto Italiano Sotto la direzione del Club Educativo Italiano. In aiuto per i sofferenti del terremoto in Italia. Missione Evangelica Italiana, 88 Edward St., Sabato, il 23 Gennio, 1909. Dialogo in Italiana. Musica e Canto. Tutti sono i benvenuti. Colletta in argento alla Porta."

For the assistance of our readers who lack the proper education to read "dago" we append the following translation:

"Italian Concert Under the auspices of the Club Educativo Italiano. In aid of sufferers from the earthquake in Italy. Italian Mission, 88 Edward St., Saturday, January 23rd, 1909. Dialogue in Italian. Music and singing. All are welcome. Silver collection at the door."

It has leaked out that Mr. John Ross Robertson gave $10,000 to the Toronto Sick Children's Hospital as a Christmas present. His benefactions already amount to hundreds of thousands of dollars. He is the Santa claus of the sick children, all the year round. If any more titles are to go to the newspaper profession Mr. Robertson should have one.—London Advertiser.

Inoculation Of Seed.

The Ontario Agricultural College has in press a bulletin from the Bacteriological Laboratory, giving the results of work on the inoculation of seed with bacteria to increase the chances of the crop. This work has been in progress since 1905, and has increased in amount each year. It has been known for many years that the nodules or tubercles on the roots of alfalfa, clovers, peas, beans, etc., are inhabited by bacterias that have the power of taking nitrogen from the vast amount in the atmosphere, and storing up this valuable fertilizing element in the plants, thus enriching the soil when these plants are plowed under. In the College laboratory these bacteria are cultivated under artificial conditions, their full power of nitrogen accumulation being conserved, and there cultures, as they are called, may be applied to the seed to be sown. On old established fields where clovers or alfalfa have been previously grown, the soil is well supplied with these desirable bacteria, and the use of artificial inoculation would be of little benefit. On new ground, however, or where the crop to be sown has not been successfully grown before, the inoculation of the seed usually helps to secure a better stand. During 1908, over 2100 of these cultures were sent to farmers all over the Dominion and to five foreign countries. The results are reported by the farmers, and compiled in the forthcoming bulletin showed that the inoculation of the seed was beneficial in 63 per cent of the cases tried. Many farmers tried the cultures on old established fields, and as was to be expected the results here showed no increase in the crop from using the cultures.

During the coming spring, the College will send similiar cultures of alfalfa, red and white; alsike clover, peas, beans, and sweet peas, the only cost to the farmer being a nominal charge of 25 cents for each culture sufficient for 60 pounds or less of seed. The cultures, of which there is but one size, are sent in glass bottles with full directions for their use. Applications should be addressed to the Bacteriological Laboratory O. A. C, Guelph, and should be sent at once so that ample provision may be made by the College to supply all demands. The kind and amount of seed to be inoculated and approximate date of seeding should also be stated in the application.

L. O. L. Officers

The Royal Scarlet chapter of Artemesia district L. O. L. met in Norris' hall Flesherton, on Thursday evening, Jan. 14, when the following officers were elected and duly installed for the ensuing year:

W. C. in C., Comp. W. Sharp, No. 883.
Ex, C., Comp. D. McLeod, No. 883.
Chap., Comp. Jos. Blakeley, No. 244.
Scribe, Comp. Ed. Thompson, No. 883.
Treas., Comp. J. A Boyd, No. 883.
H. at A., Comp. F. Matheson, No. 509.
1st Lect., Comp. Jos Snell, No. 883.
2nd Lect., Comp. R. A. Park, No. 1118.
1st Cond., Comp. J. C. Shute, No. 1045.
2nd Cond., Comp. F. Pedlar No. 1118
I. H., Comp. Jas. Fisher, No. 1132.
O. H. Comp. F. A. Yorke, No. 509.

Artemesia district L. O. L. met in the lodge room of No. 883., Ceylon, on Tuesday, Jan 12. A very large number of brethren were present and election of officers for the ensuing year, resulted as follows:

W. Dist. M., Bro. H. Irwin, No. 1383.
W. Dept. M., Bro. J. Rudd Mathews, No. 1045.
Chaplain, Bro. R. H. McKinnet, No. 1045.

Fin. Secty., Bro. Jas. Fisher, No. 1132.
Treas., Bro. Thos. Elliott, No. 1045.
D. of C., Bro. Ed. Corbett, No. 244.
Lect., Bro. Wm. Swanton, No. 883.

After installation of officers, conducted by Past Co. Master, Bro. S. J. Halbert, a splendid lunch provided by Bro. Cook, was partaken of and duly appreciated.

Walker---Rowe

A very interesting event occurred at the home of Mrs. Andrew Walker, Mt. Pleasant, Toronto line, Holland, Dec. 31st, 1908, when her daughter, Miss Lizzie, was united in marriage to Mr. Jas. G. Rowe, of Sullivan, near Keady. At 5 p. m. sharp, the nuptial knot was securely tied by Rev. H. Berry, of Priceville, a former pastor, in the presence of about fifty guests composed of some of the nearest relatives of the contracting parties. A large number of beautiful, costly and very useful presents attest the high estimation in which the young people are held. Mr. and Mrs. Rowe will reside in Sullivan. And the writer, with their host of other friends, wish them a very happy and prosperous journey through life.

The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And is so safe and good to children, as well. Containing no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them No! Be your own judge! Sold by all dealers.

PILES get Immediate relief from Dr. Shoop's Magic Ointment.

WHAT every cook should know is, which wheat makes the best flour, and why.

Winter wheat is put into the ground in the fall, but does not ripen until the following July. It matures slowly, is soft and very starchy.

Spring wheat is sown in April or May, and ripens in August. It's a flinty, translucent wheat, rich in gluten and contains nearly twice as much nutriment as winter wheat.

Royal Household Flour

is made entirely from the hard, nutritious spring wheat, carefully selected from all the wheat of this kind grown in Canada.

Royal Household is fine, light and pure—milled by the most improved methods—in a mill as clean as your own kitchen.

Ask your grocer for Ogilvie's Royal Household — just enough to try. You won't mind the slight advance in cost when you see the results in your bread and pastry. 21

Ogilvie Flour Mills Co., Limited, Montreal.
