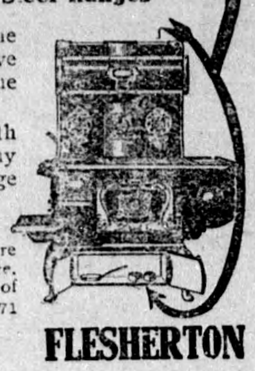
"Peerless Peninsulars"

Are Cast-Iron Ranges Built Like Steel Ranges



"Peerless Peninsular" Ranges have the Drop Oven and Low Closet which have heretofore been exclusive features of the most expensive steel ranges.

They are also the only ranges made with Fire-Box on right or left side, as may better fit the kitchen in which the range is to be placed.

"Peerless Peninsular" Ranges are splendid cookers, are very economical in regard to fuel, are strongly built, and will give a lifetime of service.

Let us show you their many features of superiority. 71

Sheep Husbandry In Canada.

A timely bulletin entitled "Sheep Husbandry in Canada" by Mr. J. B. Spencer, B. S. A., has been issued by the Live Stock Branch at Ottawa. Mr. Spencer has taken up the task from practically all the standpoints that concern the sheep raiser in whatever province he may dwell. After describing the ideal mutton sheep he gives a brief, though comprehensive, history and description of eleven of the popular breeds. Next he covers in a practical way the establishing of a commercial breeding flock. Mutton production as a highly specialized industry is dealt with by reviewing the methods in vogue in Great Britain. Following this are appropriately described the various systems of finishing for the market in Canada. Nor does the treatment of the subject stop when the animal is fattened for it is followed right through the butchering and curing processes until the joint is ready for the cook. Then come sections of handling, dipping, wethering, feeds and feeding, housing, weed destroying, enemies, etc., each subject exhaustively treated according to the practice of the most successful shepherds.

Evidently recognizing that the industry differs in the various provinces by reason of climatic and other conditions the author treats each separately. The section devoted to diseases will appeal to thousands of sheep men. This chapter, covering upwards of twenty of the common ailments, and accidents, was personally prepared by the Live Stock Commissioner who is also Veterinary Director General. As a practical home doctor book for the flock master this work will undoubtedly become a helpful standby. A review of the wool industry concludes the text of the work of more than 125 pages of reading matter. The book is profusely illustrated by some sixty beautiful plate illustrations printed in sepia and a number of line drawings. This attractive, comprehensive and practical "Bulletin, No, 12 of the Live Stock Branch" is ready for free distribution to all those interested in the sheep or its products who care to apply for it to J. G. Rutherford, Live Stock Commissioner, Ottawa.

A Walkerton clergyman recently announced he would not have accepted the call to this town if he had known the people here were so addicted to the habit of playing cards. This clergyman regards cards as an instrument of the Devil. If so this is just the place where duty should call him. If it wasn't for the Devil he would be out of a job.

Why should a sane business man, who wouldn't think of hiring a two-dollar-and forty-cent delivery boy to do the work of a twelve a week salesman, expect a $1.50 advertisement to do the work of a $10 advertisement. Both effect sales. Why not apply reason to your advertising methods? Newspaper advertising is admittedly the best sales medium to-day.—Mount Forest Representative.

More Bread to the Barrel

That extra cost per barrel which you pay for

Ogilvie's Royal Household

doesn't go into anybody's pocket.

It covers the cost of inspecting the entire wheat crop of the country, and selecting the choicest grain.

It pays, for cleanliness, for purity and for scientific flour-making.

A barrel of Ogilvie's Royal Household Flour goes farther than a barrel of any other flour. It makes more bread and better bread.

You are not really spending that extra amount—you are investing it.

Go to your grocer and say "Royal Household." 22
