The grasshopper plague has been extremely bad in this locality. They have almost destroyed the wheat crop and are destroying the barley and oat crop as well. Peas seem to be the only thing that escape their notice.

As the general elections are now over people seem to have settled down to cutting thistles and hoeing weeds, as they do not think the Laurier government will do anything for them in that respect.

Well, Mr. Editor, your cor. was highly pleased to see that Dr. Sproule of East Grey and Mr. McNeil of North Bruce were again returned to parliament to raise their voices again against coercing Manitoba into separate schools.

What the people would like to know:

Wonder who was the man that kicked so hard about putting in three minutes extra time during statue labor days?

Wonder who stripped two or three of Geo. Thompson's cherry trees on Sunday while the family was absent?

Inistioge

From Our Own Correspondent

The hay in this section of country will on the average be a little better than last year. Judging from the present appearance of the grain fields the farmers will reap a good harvest. The grasshoppers are many and their mark may be seen on the heads of the timothy, but it is feared they will get in their fine work in the grain fields as they did last year in the way of dropping the grain to the ground, however, up to the present, they have not done the damage of the previous years.

Ten thousand dollars is the sum which Rev. J. C. Madill wants for being called a traitor. The parson was billed to lecture in Napanee, but before he did so there appeared a dodger of what Mr. Madill terms a scurrilous nature, calling him a traitor. He made inquiries and the result is a $10,000 libel suit against H. S. Wilcox, of Picton, and Aleck Karr, whom he charges with being the authors of the alleged libel.
