Almost a Hopeless Case.

A Terrible Cough. No Rest Night nor Day. Given up by Doctors.

A LIFE SAVED

BY TAKING

AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. WARD, 8 Quincy Ave., Lowell, Mass.

Priceville, June 2, '96.

Western Fair

The Western Fair in London, next September is sure to take a leap forward in the number of exhibitors and visitors, should the weather prove as favorable for them as in the past twenty-nineyears. The New Buildings, which have been erected by the citizens of London, are the best on the continent for exhibition purposes, and will be a grand sight in themselves, and worth a visit to the Fair to see. The Secretary, who is responsible for this article, has had the pleasure of seeing most of the principal Live Stock Exhibition Buildings of America, including the great World's Fair of Chicago, and he states positively that none of them will equal the New Western Fair Buildings. They are constructed on the very best improved plans after careful inspection. They are without obstruction to the view, all having circular bents, abundance of light, and especially well arranged for ventilation, and every necessary accommodation and convenience for the animals and exhibitors. Our readers will be able to form some slight conception of these buildings from the abbreviated descripton given below. The Buildings in the first place form the fence on the west, south and east sides to the Queen's Park or Exhibition Grounds. The Cattle, Sheep and Swine Building is 735 feet long and 52 feet wide, with five towers, and will furnish ample accommodation for say 1600 Animals, the entire outfit being visible from the centre of this building. The Machinery and Agricultural Hall is 400 feet long and 60 feet wide, fitted with lines of shafting to drive the Exhibits. It is built the same length, parallel to and adjoing the G. T. R. platform, therefore no trouble with heavy machines. The Carriage Building is very fine, 180 feet long and 60 feet wide, also adjoining the Railway, and without a single post to obstruct the view, splendid light. The Horse Barn is simply immense, being 1,110 feet long, with three large towers. It has box stalls on one side and single stalls down the other. Every care has been taken in the light, ventilation and comfort of the exhibitors in this building. The Poultry Building is the best of the kind, and furnished throughout with light, airy wire coops, all sizes, to suit the requirements of the different kinds of poultry and pets. The Double Decked Grand Stand, 300 feet long and 45 feet wide, will greatly increase the pleasure of witnessing the Special Attractions and fill a long felt want. The Pawnee Bill Wild West with 80 people, 60 animals, and 50 tents will be the principal feature; this, and Sie Hassen, Ben Alis, Bong Bong, Moorsh Acrobats will make the strongest attraction ever presented in London. The rest of the Exhibition Buildings are being remodelled and arranged so as to keep abreast of the times, and everything is shaping for a most successful Fair. Already quite a number of Exhibitors have made application for space. A very fair cut of the Grounds and Buildings appear in the Prize List which has just arrived.

Easy to Settle Now

This is the ingenious way in which the Dufferin Advertiser sizes up the situation: Manitoba has elected a majority of her representatives to suppor a coercion government. Quebec has elected a majority of her representatives to a conciliation government. It is the unexpected that happens. But such a condition of things ought to make an amicable settlement of the question much easier. If Manitoba's objections to Separate school system are of such a weak character that for the bribe of a couple of railways and a river improvement she is willing to support a government pledged to remedial legislation Mr. Greenway, her premier, can hardly refuse to consider a conciliatory settlement. On the other hand, if the people of Quebec are no more anxious for the coercion of Manitoba than to send a delegate to Parliament opposed to it by four to one, it seems plain that the way is open to agreement. The entry of the Liberals into power has changed the situation, too, in another respect. The Senate will now have to be counted with in this matter. The present Conservative Senate would undoubtedly have passed by a large majority the extremest remedial legislation sent up to it by a Conservative administration from the House of Commons. The same Senate would in all likelihood reject the mildest measure of remedial legislation sent up to it by a Liberal Government. Under such conditions an agreement between Mr. Laurier and Mr. Greenway ought to be easier of arrangement than had Manitoba voted unanimously in favor of it. There is no deadlock between the provinces. Mr. Laurier will appoint the commission asked by Manitoba, and after an investigation the commission, which will be headed by Sir Oliver Mowat, will probably come to an agreement with the Greenway Goverment, and the Manitoba Legislature will amend the School Act in accordance therewith.

County and District

A daring plan to rob the Bank of Commerce in Winnipeg was frustrated by its premature discovery.

Mrs. Daniel McFadden, mother of Councillor McFadden of Glenelg, died last week at the age of 94. Her husband, who is about the same age, survives her.

The Collingwood Enterprise says During Mrs. John Jacques absence at the Farmers excursion to Guelph, her residence on Sixth street was entered, and her collection of coins, valued at $500, was stolen. Somebody acquainted with the premises and with the fact that the coins were there, must have committed the robbery. The collection includes many rare coins, and represents the work of a lifetime.

Thomas Huston died at his residence on the third line, Mulmur, on the 22nd inst., at the advanced age of 96 years. Deceased was twice married, and had a large family of sons and daughters. He was an old man when he married his second wife, a young girl about eighteen years of age.—Shelburne Economist.

The steamer Samuel F. Hodge, bound from Cleveland to Prescott with a cargo of wire, was burned to the water's edge in the middle of Lake Ontario at 3 o'clock Sunday morning. The fireman, Martin Deely of Buffalo, was lost, while the balance of the crew was rescued by the steamer St. Joseph.

On Tuesday morning the body of a man was found in the creek on Mr. Thos Gekill's farm near Heathcote in about six inches of water. The body was removed to Mr. Gekill's barn and was recognized as Mr. Thos. Granger. Dr. Hurlburt, coroner, and Dr. Brown, of Heathcote made an examination of the body, but it was in such a state that the trace of any marks were not recognizable. On his person was found $23 and a few other articles. Several causes are advanced for his death but the real cause may never be known.—Thornbury Herald.

The "Sunday Magazine," London, says of Ian Maclaren; "It is rathar startling to learn that the Rev. John Watson, the Presbyterian minister, the creator of "Drumtochty," is not a Scotchman at all. He was born in Manningtree, Essex, so that he is not even a North-countryman. But he was educated at Perth, Sterling, and Edinburgh, and his parish was Logieamond, a village between Perth and Criff, which is the orignal of "Drumtochty," He only stayed three years in the parish. It is twenty years since he quitted it for a southern charge, and it was only the other day that on the appeal of Dr. Robertson-Nicoll he resurrected his reminiscences in the story which has obtained such a world wide celebrity."

A country newspaper publisher, who had been looking in vain for delinquent subscribers to pay up wrote the following: The editor sat in his office cold, whence, all but he had fled; but he wishes that every last dead-beat was in his grave—stone dead. His mind then wandered far away to the time when he should die, and his loyal editoral soul go shooting to the sky; when he'd ream the fields of paradise and sail o'er jasper seas, and all things glorious would combine his every sense to please. He thought how then he'd look across the great gulf dark and drear, that yawned between his happy soul and those who swindled here, and when for water they should call, and in agony they'd caper, he'd shout to them "Just moisten your tongue with the due that's on your paper.

The returning officer has declared Mr. John A. Mcgilivary elected for North Ontario by a majority of one. A recount has been applied for by the Liberals.

Cattle Strayed

Strayed from the premises of the undersigned on or about the end of May, six yearling cattle and a two-year old steer, one heifer all red, to heifers spotted, one steer all red, one spotted steer, a yearling bull, and one two year old steer with bell, narrow strap. Information as to their whereabouts will be thankfully received by.

AYER'S Sarsaparilla

A MEDICINE

WITHOUT AN EQUAL.

Statement of a Well Known Doctor

"Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action, and effects so many permanent cures as Ayer's Sarsaparilla."—Dr. H. F. MERRILL, Augusta, Me.

Ayer's The Only Sarsaparilla
