A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The Stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.
